NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Sturgeon Lake Indian Res. School for the Quarter ended Dec. 31 1945

Principal L. J. Giguere, O.M.S.
Dated January 5th 1946

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Sturgeon Lake Ind. Res. School for the Quarter

ended June 30, 1917

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Sturgeon Lake Indian Residential School for the Quarter ended March 31st 1949.

Principal M. Roue
Dated March 31 1949

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Sturgeon Lake Indian Residential School for the Quarter ended June 30, 1950.

Principal H. Rowe, m

Dated June 30, 1950

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper column.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Sturgeon Lake Indian Residential School for the Quarter ended September 30, 1950.

Principal H. Louie

Dated October 3rd, 1950

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper column.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Sturgeon Lake Resid. Ind. School for the Quarter ended June 30 1951.
act, Principal L. P. Lachance
Dated June 30 1951

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the STURGEON LAKE INDIAN SCHOOL CALAIS, ALBERTA School for the Quarter ended DEC 31 1952 19.....

Principal M. Howie

Rev. Sir,-

I beg to inform you that cheques are being sent you as advances on the grants to the following schools for March quarter, last, as follows:- Sturgeon Lake \$500.00, Wabasca Lake \$500.00, Fort Chipewyan \$300.00 and Fort Vermilion \$300.00. The quarterly returns ^{for} from the above named quarter have not been received and, as the Department was desirous of closing the accounts for the last fiscal year and paying as far as possible all outstanding claims from the appropriation for that year, the above cheques are being sent you. As soon as the returns from these schools are received any balances due will be sent you.

Your obedient servant,

J. D. McLEAN

Reverend Sir,-

The March quarter grant to the Sturgeon Lake Boarding School is being paid on an average attendance of 35 pupils and amounts to \$1443.75. From this the Department is deducting \$1200.00 sent you on the 19th ultime. A cheque for the balance, namely, \$243.75, is being sent to you under separate cover.

In checking the returns from your school, it is noted that for the quarter ending December 31, 1922, grant was only allowed for an average attendance of 33.08 pupils instead of for 35. There is, therefore, a balance due on this quarter of \$79.20, which amount is also being sent.

ENCLOSURE.

Sir,-

The Department is returning the September quarter return of the Sturgeon Lake Residential School.

There were 92 days in the September quarter (July 31, August 31, September 30) and, as you are aware the Department allows grant for 31 days holidays each year, therefore, when preparing the September quarter return the principal should request grant for the actual number of days each pupil is in residence during the quarter, plus the number of days holidays for which grant is allowed. For example, in the case of a pupil allowed out on holidays on July 1st and who returned on August 1st, grant should be requested for 92 days. In the case of any pupil who is absent from the school longer than the 31 days holidays for which grant is allowed, the grant should only be requested for the number of days such pupil was in the school during the quarter, plus 31 days.

From the enclosed return the Department cannot decide if the principal requested grant for the annual holidays and we consider it advisable to send back the return for any corrections that may be necessary. Please show this letter to the principal, in order to assist him in preparing properly the return. As soon as it is completed it should be forwarded to the Department, in order that the amount of grant due may be paid.

To assist the finances of the school, the Department is making a partial payment on the grant, pending the receipt of the correct return.

Sir:-

It is regretted that the Department finds it necessary to send back the September Quarter Return of the Sturgeon Lake Residential School as we are unable to decide from the information furnished if the Principal requests the correct number of days grant for each pupil.

For those pupils who remained in the school during the whole quarter, grant should be requested for 92 days each.

As you are aware grant is allowed for 43 days holiday and therefore for a pupil who was allowed on leave during the quarter, grant should be requested for the actual number of days, such pupil was in residence during the quarter plus 43 days. For instance, a pupil allowed home on holidays on July 1st and who returned to the school on August 12, grant should be requested for such pupil for 92 days; on the other hand a pupil allowed home on leave on July 1st and who did not return to school until September 1st, grant should be requested for 73 days.

A duplicate copy of this letter is enclosed and you should forward it to the Principal in order to assist him in preparing his return. Please request him to state on the return the dates between which the holidays were taken. In order to assist the Principal in his financing, a partial payment of \$1800 will be

Reverend Sir,-

The Department is in receipt of Inspector Yule's report of October 28th on the Sturgeon Lake Indian Residential School. In this report, he states that the Principal is Rev. C. Batie, O.M.I. Our files show the name of Rev. R. Hautin, O.M.I., as Principal. Please let me know if Rev. C. Batie is to be recognized as Principal in the future.

In connection with Mr. Yule's visit, I may say that he reports very favourably on the work that is being done.

Sir:

I am sorry to tell you that Rev. Father R. Haulton, O.M.I. died last year, in the beginning of January.

If I am not mistaking, I think that, at the time, I advised the department and also I advised it that Rev. Father C. Balle would be in charge of the Sturgeon Lake's School as principal in the future.

Hoping this will be satisfactory I remain, Sir:

Reverend Sir,-

It is noted from the September quarter return of the Sturgeon Lake Indian Residential School that you request the full quarter's grant for only three pupils and, as the Department is not certain that you are requesting all the grant to which you are entitled, the return is being sent back.

In preparing the September quarter return, grant should be asked for each pupil for the actual number of days such pupil is in residence during the quarter plus forty-three days holidays, for which grant is allowed.

In the case of a pupil who was in the school on June 30th and who was allowed home for 43 days holidays, grant should be requested for 92 days.

If, however, a pupil is allowed home on holidays on July 1st and does not return until September 1st, grant should be requested for only 43 days holidays plus the 30 days in September, or a total of 73 days.

In the case of pupils who entered the school for the first time during the quarter, grant should, of course, be requested from the date of admission to the end of the quarter only.

Please review the return, keeping in mind the instructions contained in this letter, and return same to the Department with any corrections that may be necessary.

Ottawa, April 26, 1933.

Sir:

I have to inform you that the Reverend Louis Girard, O. M. I., has been appointed by His Lordship Bishop Guy to succeed Rev. Father Batie, as principal of the Sturgeon Lake R. C. Indian Residential School as from the 15th ultimo. This change was made necessary on account of Father Batie's failing health.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Dear Mr. Hoey,

Re: Balance of Grant on June Term,
Sturgeon Lake School.

I take the liberty of calling your attention on the fact that the balance due for June Term to the Surgeon Lake Indian School has not yet been received. As accounts of other Schools are closed since a month, I wonder if the quarterly report has reached the Department. If not, please let me know. I will request the Principal to forward a copy.

Thanking you in advance for the attention you will give to this matter, I remain, Dear Mr. Hoey,

Yours truly,

Sir,-

I have to acknowledge the receipt of your letter of the 6th instant returning the voucher in favour of the Sturgeon Lake (St. Francois Xavier Mission) Boarding School for the support of an orphan Indian child to September 30th, last.

In connection with the future payments of the grant for the maintenance of this girl, I have to request that you will be good enough to instruct the principal of this school to forward, along with the regular quarterly returns, at the end of each quarter, a supplementary return for this orphan girl, when the amount due the school for her maintenance will be included in the cheque for the quarterly grant and it will, therefore, not be necessary to forward a separate voucher for this service.

The Principal should make a note on the supplementary return each quarter that this is an orphan girl, for which the school is allowed a grant at the rate of \$5.00 per month for her maintenance.

You will be good enough to advise the principal accordingly.

Sir,-

I have had, to-day, a visit from Reverend Father R. Houtin, Principal of St. Francis Xavier Indian Boarding School, Calais, Alta. (Sturgeon Lake), who informs me that all the lumber for the new school building to be erected is on the ground and that building operations will be commenced as early in the Spring as possible. The new building is to be 50 by 30 feet, and is to contain two class rooms.

Father Houtin requests that the Department supply him with 24 school desks with which to equip this new school building as follows:-

Sir, -

I have to acknowledge the receipt of your letter of the 18th ultimo informing the Department that the Principal of the Sturgeon Lake (St. Francis Xavier) Indian Boarding School intends erecting a new school building next spring - the lumber for which is already on the ground - and requesting that the Department supply 24 school desks required to equip the classrooms in the new school.

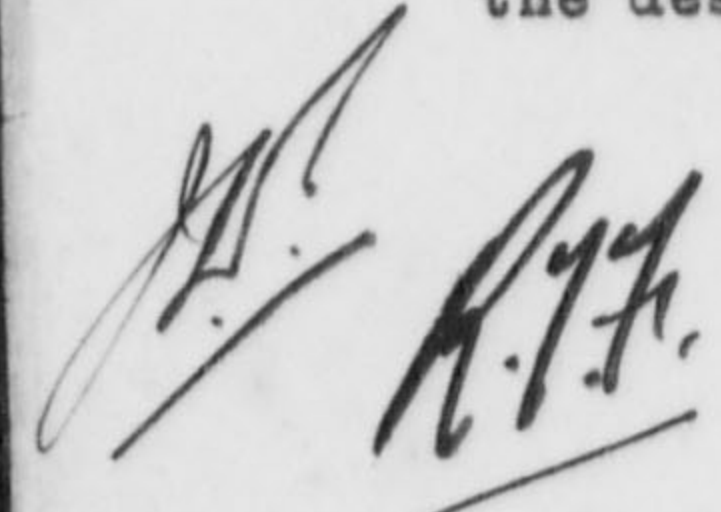

In reply I beg to say that the Department will provide the desks required and also the blackboards, if these are required. I presume that there will be time enough next spring to place the order for this equipment, but I would like to have, before doing so, full shipping directions, and I will be pleased if you will state the name of the nearest railway station to which these desks should be sent.

You should draw this matter to the attention of the Department at least a month before the desks, etc., are required, and at that time you can furnish the shipping directions asked for. In the meantime you can inform the Principal that the desks will be supplied.

Your obedient servant,

Russell T. Ferrier,

Sir

I have just received a letter from
Mr. Laird, Indian Agent at Gronard,
announcing me that you have had the
goodness to send us the desks I asked
for our new school. I thank you very
much.

Mr. Laird tells me also that you
are willing to send us some black board
if we need some. Permit me therefore
to ask you to send 15 yards in linen
or in black board.

Thanking you in advance.

I have the honour to be, Kind Sir,

Yours sincerely,

Sir,-

I have had, to-day, a visit from Reverend Father R. Houtin, Principal of St. Francis Xavier Indian Boarding School, Calais, Alta. (Sturgeon Lake), who informs me that all the lumber for the new school building to be erected is on the ground and that building operations will be commenced as early in the Spring as possible. The new building is to be 50 by 30 feet, and is to contain two class rooms.

Father Houtin requests that the Department supply him with 24 school desks with which to equip this new school building as follows:-

12 Desks, Size No. 3	- 12 - 14 1/2
6 " " " " 4	" 10 - 12 1/2

Dear Mr. Conroy,-

Enclosed is a copy of letter I am forwarding to the Department re the school desks asked for by Rev. Father Houtin for the new school building at Sturgeon Lake.

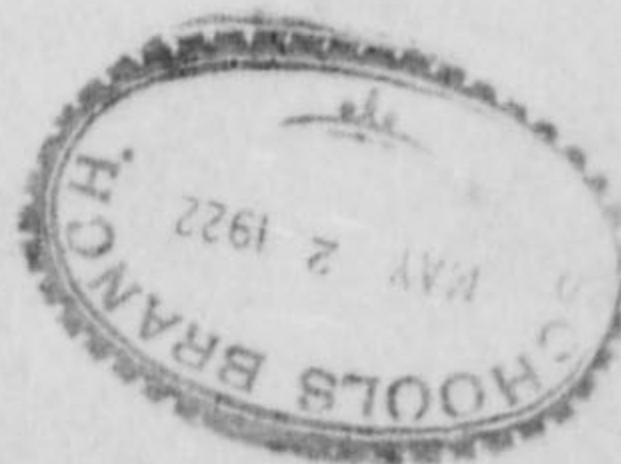

I wish you would be kind to use your influence towards getting these desks for this School as the Mission are under heavy expense in putting up the new building, all the material having to be brought from Grande Prairie. With the new building there will accomodation for a number of Indian children from Grande Prairie whose parents have been asking for some time to have put in school.

Sir, -

I have to acknowledge the receipt of your letter of the 18th of February, last, addressed to the late Mr. Inspector Conroy, regarding the desks required for the new school building which is being erected in connection with the Sturgeon Lake Indian Boarding School, and enclosing copy of a communication to the Superintendent of Indian Education, in which the number and size of the desks required are given.

In reply I beg to say that competitive prices will be obtained for the supplying of the following desks, viz: -

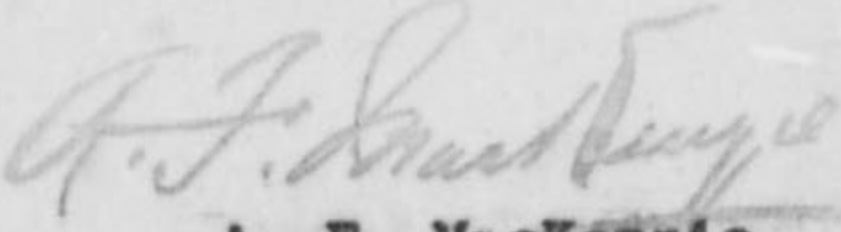

12 desks, #3,
6 " #4,
6 " #5,
3 Rears, #3.

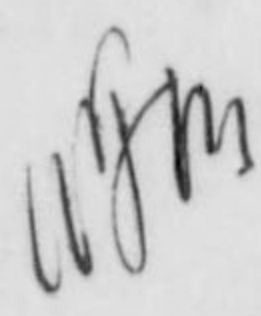

These desks will be shipped to Grand Prairie, and you will be informed later as to the name of the firm who receives the order.

The Principal has requested that a blackboard be supplied. We are placing an order through the Government Stationery Office to forward to the Principal's address, Grand Prairie, 48' of hyloplate blackboard, 3½' wide, with the necessary chalk trough and moulding. This is the quantity asked for by the Principal.

The Principal should arrange for the transport of the desks and blackboard from Grand Prairie to the school.

Ottawa, October 2nd, 1923.

Sir:

I have to acknowledge receipt of your letter of the 10th ultimo, enclosing a requisition for school desks, football, basket ball and two fire extinguishers for the use of the Sturgeon Lake Indian Residential School.

With reference to the desks, I beg to state that in May, 1922, 24 single desks were supplied for this school. We note by the requisition now received that the Principal requests that 42 single desks and 9 rear seats be supplied, which is sufficient to provide seating accommodation for 51 pupils. The per capita grant allowed this school is for 50 pupils only, and desks are supplied for the number of Indian children for whom grant is provided. If the desks now asked for are allowed, seating accommodation for 78 pupils would be provided at this school. Further information is required as to the reason for the request for the extra number of desks, and also state whether, if a further number of desks are ordered this fall, if they could be delivered at the school, or whether it would not be advisable to wait until next spring, owing to the difficulty of transportation from the nearest railway station to the school.

A football, basket ball and two fire extinguishers will be ordered and sent to the Principal's address.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

Sir,-

Referring to your letter of the 2nd instant, No. 131-6-5.

I beg to report that the reason for the request of the Principal of the Sturgeon Lake Boarding School for an extra number of desks is that there at present 62 Treaty Indian children now residing in the School.

I beg to refer you to Department letter No. 131-6-1 dated October 20th, 1922, written to Reverend Father Houtin in which he was practically promised that his School would receive a grant for 60 pupils.

I may say that the desks could be more easily delivered in the fall than in the spring, as the roads are in better condition.

1	-	N.E.	" " " "	No. 5.

These desks will be shipped in a knocked down condition, all parts complete, ready to assemble and set up in the classroom. You should arrange to accept delivery and have the desks taken to the school and set up in the classroom.

The account covering the cost of the desks will be sent by the above firm to Mr. Agent Laird, Grouard, who, upon receipt of the desks, will certify the account and send it to the Department for payment.

It is hoped that these desks will be satisfactory and, with the supply already on hand, will provide ample seating accommodation for the full number of pupils for which grant is allowed.

I shall be pleased to hear at a later date as to whether these desks have arrived in good condition at your school, and if they are satisfactory.

Dear Sirs:

Attention - Mr. Paget

We are in receipt of your valued favor of the 16th., reference 131-6-5 and beg to thank you for your valued order for shipment to Grande Prairie. This will have our best attention and the beds will go forward in a car to our Edmonton branch sometime next week and thence L. C. L. freight prepaid. We note your request to send you the receipted freight bills with the charge but assume that this will not be necessary as the car will go forward to our branch prepaid and we are instructing our Edmonton branch to see that the shipment is sent forward from Edmonton prepaid.

Gentlemen:

I have your account, in duplicate, for the Beds ordered from your firm for shipment to Grande Prairie, Alta. I note that these were forwarded in a car to your Edmonton branch. As you were unable to supply a receipted freight bill for the beds for Grande Prairie it will be necessary, before payment of your account can be made, to forward it to our agent to certify thereon that the goods have been received. There will, therefore, be a delay in the payment of the account, which we regret. It is necessary, in order to comply with the requirements of the Auditor General, that the receipted freight bill be attached to the account or that it be certified that the goods have been received.

Dear Sirs:-

We beg to acknowledge receipt of your favor of the 13th, advising us that you were returning our account for merchandise, and presume you are referring to our recent statement for \$192.00 but this was apparently omitted to be enclosed in your letter.

We are enclosing herewith copy of our invoice of October 26th last year which we trust is what you require and your payment of same at your earliest convenience will be greatly appreciated.

Yours truly,

Gentlemen:

I have your letter of the 16th instant in further reference to your account covering the cost of the institution beds supplied on our order for shipment to Grande Prairie.

Your account was forwarded to our Agent at the end of October, last, with instructions that, when the beds arrived, he was to certify the account and send it to the Department for payment, and you were informed accordingly by letter of October 28th, last. We regret the delay in the payment of the account, but it was necessary, as receipted freight bills were not supplied by you for the shipment of the beds to Grande Prairie, that the account be certified by our Agent to the effect that these goods had been received at that point. We will again communicate with our Agent and request him to return the account, properly certified, at the earliest possible date, when payment will be made.

Yours very truly,

Sir,—

Referring to your letter of the 19th inst.,
No. 131-6-5.

I have to report that the Reverend Father
R. Houtin, St. Francis Xavier Mission, Sturgeon Lake,
states in his letter of the 19th ultimo that the ship-
ment of bed from the Ives Bedding Co., Ltd., is still
at Grande Prairie. The ice on the Big Smoky River
having gone out, it has been impossible to have the
beds freighted to the School.

The Reverend Father has promised to inform
me as soon as they are received by him.

Sir:

I have your letter of the 26th ultimo relative to the beds shipped by the Ives Bedding Co. Ltd. to Grand Prairie for the use of the Sturgeon Lake Indian Residential School. It is noted that these beds are still at Grand Prairie, as it was impossible, owing to ice conditions, to have them freighted to the school.

The above firm are pressing for payment of their account, and I have to request that you will certify the same, if you are satisfied the beds have reached Grand Prairie, and send it to the Department in order that payment can be made. The account was forwarded to you under cover of our letter of October 28th, last. Your early reply returning the account, properly certified, is desired.

Ottawa, October 11th, 1926.

Sir:

I have your letter of the 30th ultimo, enclosing a requisition from the Principal of the Sturgeon Lake Indian Residential School for desks, sewing machines, fire extinguishers, gasoline engine, mattresses, etc.

In reply I beg to inform you that we are today placing an order with the Singer Sewing Machine Co. Ltd., here, to supply from their nearest branch office, the following machines as described in their catalogue:

2 No. 2 - 5 Drawer Machines, 127 - 3 G.O.

This firm have been requested to notify you from their nearest branch office concerning who will furnish these machines and when they will be available. You should then give them full directions for delivery.

The account, in duplicate, for the machines will be sent you, which should show the retail price and discount of 40% allowed, "on which terms purchase is made". When you are aware that these machines have been received, if in good condition, you should certify the account in the usual manner and send it to the Department for payment.

We are placing an order with the Pyrene Mfg. Co. of Canada Ltd., Toronto, to ship, addressed to the Principal, Grande Prairie, Alta., 4 - 2½ Gallon Soda and Acid Fire Extinguishers. This firm will send their account direct to the Department.

You will be good enough to notify the Principal that the order for the sewing machines and fire extinguishers has been placed, and request that they accept delivery when they arrive and notify you to that effect.

Relative to the desks and front and rear seats asked for, I beg to say that we have already provided seating accommodation for 60 pupils, the full number for which per capita grant is allowed. We are, therefore, not prepared to supply any further desks at the present time.

We have no funds available at the present time to supply the number of mattresses and pillows asked for.

H. Baird, Esq.,
Acting Indian Agent,
Grouard, Alta.

- The -

- 2 -

The water tanks and school clocks should be purchased by the school authorities from their per capita grant or other receipts.

Relative to the 3 H.P. engine, with pump, asked for, I shall be pleased if you will furnish a report together with your recommendation as to whether you would advise that this equipment be supplied or not. If so, you should give full particulars as to the type of engine and also the pump, so that we can place the order here if it is decided to furnish such equipment.

Dear Bishop Grouard:

I have Your Lordship's letter of the 15th instant, requesting assistance in connection with an addition to the main building at the Sturgeon Lake Indian Residential School. Our Estimates for the coming fiscal year are closed and I regret that the request has been received too late for consideration.

Wishing Your Lordship continued Health and Prosperity during the New Year,

Yours faithfully,

Ottawa, February 2nd, 1928.

Rev. Sir:

The Public School Inspector, in a report on his inspection of the Sturgeon Lake Indian Residential School in October, last, states that 12 additional desks are required. In this connection I beg to say that this Department has supplied seating accommodation for 60 pupils at this school, the full number for which per capita grant is allowed. We find that 24 desks and 3 rear seats were supplied in 1922, and 28 desks and 5 rear seats in 1923, which would provide seating accommodation for the number stated. It is expected that the school authorities will see that the grant earning pupils have the use of the accommodation which was provided especially for them. If there are other pupils in attendance, the school should provide the desks required for them, and they should not utilize the desks provided for the regular grant earning pupils.

I shall be pleased to have a report from you as to the condition of the desks which were supplied by the Department and for what children the extra desks are needed as stated by the Inspector.

Your obedient servant,

A. F. MacKenzie

Sir

Referring to your letter n^o 131-6-5 dated
february 2nd 1928,

I beg to say that the desks furnished by the
department are utilized for Indian Pupils.

But we have 77 seventy seven indian Pupils
attending the school, though we are allowed
capita grant only for sixty. Through the
Indian Agent of Grouard Mr H. Laird we have made
application for having an increase of fifteen
capita grant children.

According to what I have said above it would
require seventeen more desks to accomodate all the
Indian children attending the school.

We ourselves placed extra desks
to accomodate few scholars not treaty Indians.

Trusting that you will be satisfied with
my explanations about the condition of desks as
required in your letter,

I remain your faithful servant.

131-6-Salair the 2nd of May 1928

To the Secretary, Dept of Indian Affairs Ottawa

Sir:

In answer to your letter of April 3rd 1928, no 131-6-5, I beg to say that I trust Mr Phelps the mail carrier to receive the delivery of desks at Grande Prairie. He testifies the desks were in good condition.

Mr Phelps is to bring the desks before long time. These last weeks the roads being bad, and the River Smoky between here and Grande Prairie not to be crossed by team on account of the ice breaking Mr Phelps had to postpone the carrying of desks.

I hope he will bring the desks in good condition. He store them in Grande Prairie where he has nothing to pay for storage. He will bring them for three cents a pound. The rate of freight is fair so he will have to be paid at 3 cents per pound 1030 lbs x 3 \$30.90.

I am sending you the accounts of the company in triplicate

Yours truly

The 28th of May 1928

To the Secretary of Indian Affairs, Ottawa.

Sir: In connection with your letter of April 3rd 1928
no 131-6-5. I beg to say that I received
the desks at the Mission Saturday last 26th of May
they were brought in in good condition.

Mr Phelps the mail carrier brought them
in. He is charging 3 cents a pound - This fair
rate.

The desks' weight was 1030 pounds

at three cents a pound for the freight
from Grande Prairie to the Mission. As for on
Sturgeon Lake the cost for the freight of the desks
is amounting to \$30.90 cents.

I hope you will send this payment
to Phelps mail carrier. Cabot P. 1

Being very obliged to you
your faithfully.

Ottawa, June 8, 1928.

Rev. Sir:

I have your letter of the 28th ultimo, informing the Department that the desks which were recently ordered for the use of the Sturgeon Lake Indian Residential School have been received in good condition, and requesting that payment be made for the freighting of same from Grand Prairie.

In this connection I enclose herewith a voucher, in duplicate, and I have to request that you will fill in above the post office address on the voucher the name in full of Mr. Phelps, who did the freighting. The Department cannot draw a cheque in his favour until his Christian name is given. After you have filled in the name, you should sign the certificate at the bottom of the voucher and return same to the Department, when a cheque in payment will be forwarded to Mr. Phelps. Please give this matter your prompt attention and return the voucher, completed, in duplicate, as requested as soon as possible.

MEMO FOR FILE:

By

Right Reverend Jousard, O. M. I., Auxiliary Bishop of Athabasca, called at the Department today and saw Dr. Scott with reference to the building programme at Indian residential schools in his diocese. His Lordship pressed for the reconstruction of the Wabasca R. C. School and urged that the Department provide a grant of \$15,000 next year. They would like to know in time to get the early freighting done in March and April. His Lordship was glad to know that an addition at Sturgeon Lake was noted for Estimates and that Parliament would probably be asked for a grant of \$5,000. He was also interested in the new wing at St. Bruno's. My opinion is he had never discussed this before, as he was pressing first for the reconstruction of Wabasca.

In reply to your letter No 131-6-5
dated July 15. I am pleased to thank you
for the help given to the Mission by
the Government.

I was hoping for such an
assistance. Father Father advised me
already of your appropriation of \$3000
for the building of addition, and I
have gone ahead on the building.

The addition is already well
advanced. It is a building 84 x 25 feet
with a cellar for furnaces and a
cement basement. The first story is
eleven feet high. It will be used
for a boys' hall 32 x 25, a boys'

We hope to finish it in
two months. Father Father is advanc-
ing money to me and in some time
I will be able to show you the
expenses of it, and I will be glad to
have those \$3000 to pay part of the
expenses.

Sirs,

Owing to the large number of pupils attending our school this year I herewith make application for two dozens single beds five feet in length. We received three dozens three years ago but we still have a number of children who have no beds. You would also oblige us greatly by furnishing a ~~few~~ blankets pillows and mattresses for same.

Hoping to receive a favorable reply

I am, Kind Sir

Yours respectfully,

Rev. Sir:

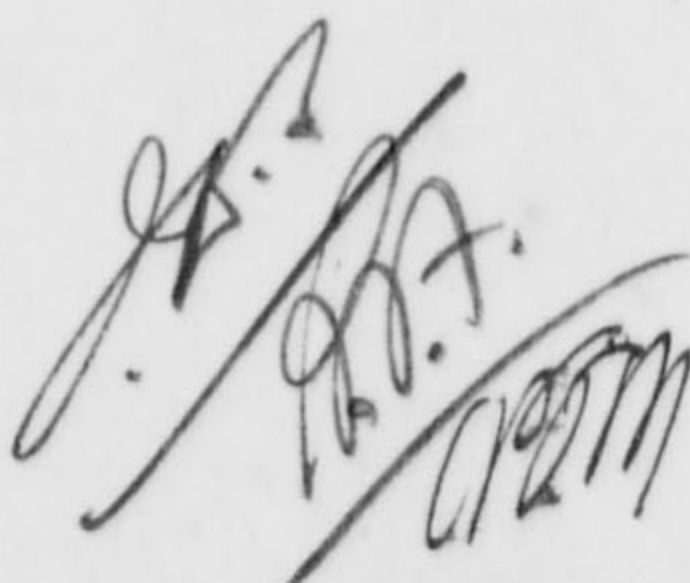

I have your letter of the 31st ultimo, informing the Department that the addition to the school building at the Sturgeon Lake Indian Residential School is now in course of construction and that the work is well advanced. The dimensions and uses for which this addition is intended have been noted.

Relative to the payment of the grant, viz., \$3000, which this Department is providing towards the cost of this work, I have to inform you that the same will be paid upon receipt of receipted accounts, in duplicate, from you covering the cost of material and labour to the above amount. It would be advisable for you to consult Rev. C. Falher, O.M.I., Grouard, who is aware of the Department's requirements regarding the proper rendering of accounts. When these accounts are received, if they meet with the requirements of this Department, payment of the grant provided will be made.

Sir:

I have your letter of the 6th instant, enclosing a communication from the Principal of the Sturgeon Lake (St. Francis Xavier) Indian Residential School in which he requests that a number of beds, mattresses, pillows and blankets be supplied. An order has been placed with Simmons Limited, Montreal, to ship, addressed to the Principal, Grand Prairie, Alta., the following:

24 Institution beds, 5' x 2'6",
24 Mattresses for above beds,
24 Pair pillows.

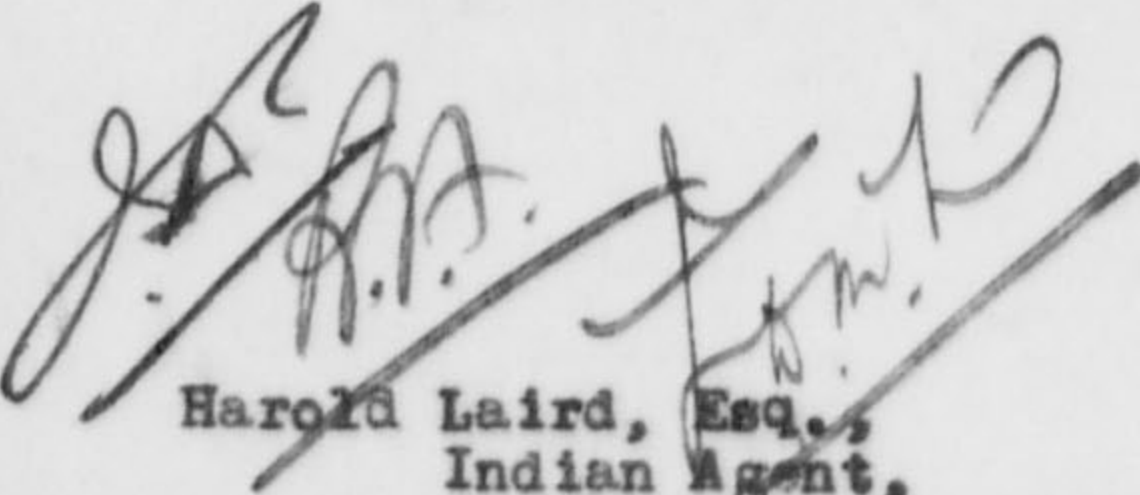

The above firm have been requested to forward their account to you, and when you have been informed that the beds have arrived, you should certify the account in the usual manner and send it to the Department for payment.

You should inform the Principal of the order being placed for the above equipment, and arrange with him to accept delivery of same at Grand Prairie and to notify you accordingly.

Relative to the blankets, it is considered that this equipment should be supplied by the school authorities from their per capita earnings or other receipts.

Sir,-

I have your letter of the 20th instant, enclosing a communication from the Principal of the Sturgeon Lake Indian Residential School in which he requests to be supplied with four fire extinguishers and recharges for six extinguishers. In reply I have to inform you that an order is today being placed with the Pyrene Mfg. Co. of Canada, Ltd., Toronto, to ship to the Principal's address, Grande Prairie, Alta., the following:-

- 4 - 1½ Thermene extinguishers, complete with non-freeze chemical.
- 6 - chemical refills for the 2½ gal. Pyrene extinguishers.

The above firm have been requested to prepay the charges on this equipment and to forward their account to you in duplicate, covering the cost, with receipt for freight charges attached. When this equipment has been received, you should certify the account and send it to the Department for payment. Please inform the Principal of the order placed for the above and request him to accept delivery when it arrives at Grande Prairie. The Principal should have the refills placed in the extinguishers on hand and see that the new extinguishers are distributed at strategic points throughout the building and that all equipment is kept in good condition and ready for use in case of fire.

Rev. Sir:

His Lordship Bishop Guy has forwarded to the Department the list of equipment required for the use of the Sturgeon Lake Indian Residential School.

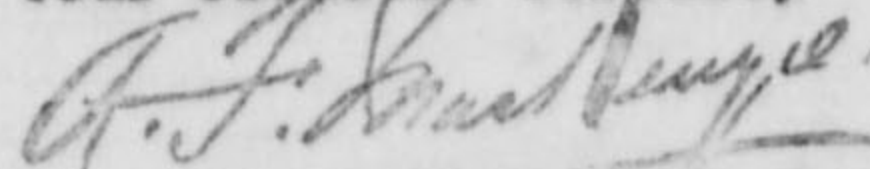

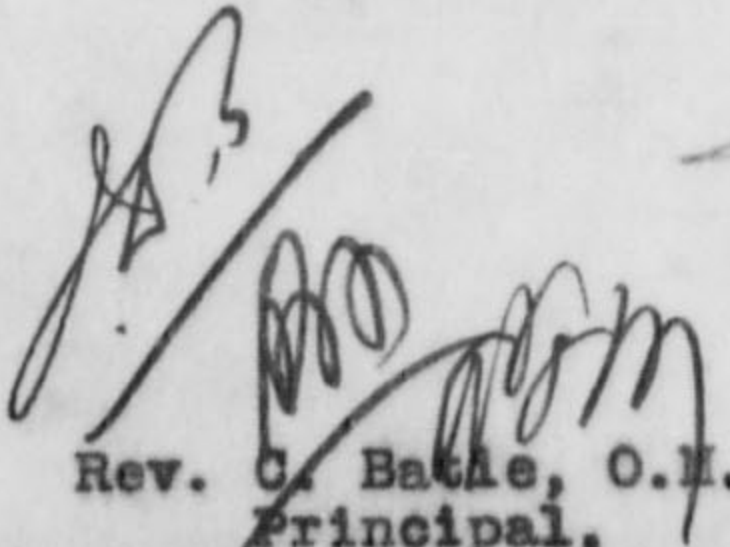

In this connection I have to inform you that the Department is placing an order with the E. N. Moyer Co. Ltd., Edmonton, to ship, addressed to you Grand Prairie, Alta., fourteen (14) No. 5 single school desks for pupils 7 to 9 years of age. The price charged is to be F.O.B. Grand Prairie. This firm will forward to you their account, in duplicate, covering the cost of the desks. When they are received, if in good condition, you should certify on the account as follows: "Goods received. Prices charged fair and just". You should then forward the account to the Department, when payment will be made.

We are also placing an order with the Singer Sewing Machine Company here to supply two (2) machines, described in their catalogue as follows: "No. 2 - 5 drawer machine, 127 - 3 G.O." You will be notified from the nearest branch office of the Company when these machines are available, and I have to request that you will then furnish them with the necessary shipping directions. The account covering the cost of the machines will also be sent to you. This you should certify in the usual manner, and send to the Department.

When the desks and sewing machines arrive at Grand Prairie, you should arrange to accept delivery and have them taken to the school.

Regarding the other supplies asked for, I have to say that you may arrange for the purchase of two washing machines and two wringers, also 30 yards of linoleum for refectory tables. Please obtain accounts, in duplicate, covering the cost of the washing machines, wringers and linoleum, which you should certify in the same manner as the account for the desks above referred to, and forward to the Department for payment.

Right Reverend Sir:

With reference to that portion of Your Lordship's letter of the 15th ultimo which relates to an electric light plant for the Sturgeon Lake Indian Residential School, I write to enquire if this school is wired for electricity. The Department's understanding is that the building is old and that lamps are in use. Was it Your Lordship's intention that the electric light plant be used for the new boys' building which was recently erected?

When the Department has more information, consideration will be given to transferring the old electric lighting plant at St. Bruno's to this school.

I have the honour to be,

The Secretary,

No.: 131-6-5---July 2nd, 1931

Dear Sir:-

Referring to your letter of the 2nd inst in the matter of electric light at Sturgeon Lake Indian Residential School I wish to say that none of the buildings at that point is wired for electricity. It is our intention when funds will be available to erect a building for the girls and we hope it will be in the near future. Meanwhile it was our intention to have the boys' building wired as well as some outbuildings and use the plant until the girls' wing would be added when the plant will be working at its full capacity.

I wish to state that Rev. Fr Falher, Principal of St Bruno Residential School, advises me that the batteries of the present plant at his school are in bad condition. I believe we could find a man able to repair same at a minimum cost. Otherwise, new batteries would have to be installed.

If the Department wishes to have a reliable man for installing the new plant at St Bruno and removing, if such is the case, the old one to Sturgeon Lake, I could suggest Mr Roy Johnson, 9551--103 A Avenue, Edmonton, Alta, who installed the plants at St Bernard's and Wabasca Schools to satisfaction.

Yours truly,

J. E. ...

Dear Mr. Bury,

I have your note of the 8th instant. We do not look forward to doing any important building for the next year and I am including nothing in my Estimates for a school at Sturgeon Lake. As you well know, ~~these~~ economies are the order of the day and my Estimates were severely cut last year and we are asking for no increases this year. MR. WILLIAMS:

The Minister has received the following:

"We understand that an Indian Residential School is to be built at Sturgeon Lake situate between High Prairie and Grande Prairie. This will be Dominion Government expenditure and possibly under the guidance of the Catholic Fathers at that point in which case the Catholic Fathers will have the letting of the contract.

"For instance the St. Bruno School was handled in the following manner- The Fathers were instructed who to give the work to and the monies were paid by the Department of Indian Affairs."

Can you let me know if such a construction is under way, or proposed; and how it is to be carried out?

Memorandum:

MR. BUSKARD

Referring to your memorandum of the 19th instant, relative to the enquiry the Minister received, regarding the erection of an Indian residential school at Sturgeon Lake, I have to say that, at the present time, there is a school of this type being conducted under the auspices of the Catholic Church and known as the Sturgeon Lake Indian Residential School. The post office address of the school is Calais, Alberta. This building is church-owned and we have received no request from the church authorities for the erection of a new building or any extension to the existing one. No funds are provided in our Estimates for the current fiscal year for any construction work at Sturgeon Lake, nor is it intended to include anything in the Estimates for the next fiscal year for the purpose.

Ottawa, October 31st, 1932.

Sir,-

The Department is informed that a night watchman has been regularly employed at the Sturgeon Lake Indian Residential School since April 1st, last. It has been decided to allow the school management a grant of \$40 a month towards the salary of this watchman and cheque in payment for the period April 1st to September 30th is being forwarded to the Reverend Principal.

In future, you should forward, at the end of each quarter, a voucher for this service. It is understood, of course, that you will satisfy yourself that the watchman has been regularly employed and has performed his duties in a satisfactory manner during the quarter for which the voucher is being issued.

For your guidance in requesting payment for this service in future, I enclose a sample voucher. Vouchers should, of course, be forwarded in triplicate.

Right Rev. Sir:

I have to inform Your Lordship that an order is today being placed with the Canadian Fairbanks-Morse Co. Ltd., Ottawa, to supply, from their nearest branch office to Grouard, Alta., four (4) only D-F Watchmen's Clocks, each complete with ten stations and one year's supply of record dials. This Company have been requested to forward the clocks, charges prepaid, addressed to you, and to also send to you their account, in triplicate, covering the cost, with receipt attached for the freight charges prepaid. When the clocks have been received, I should be pleased if you would certify the account in the usual manner and forward same to the Department for payment.

I would request that Your Lordship arrange to have the clocks distributed to the residential schools under your auspices, as follows:

St. Bruno's,
St. Bernard's,
Wabasca Lake,
Sturgeon Lake.

It is hoped that the services of reliable night watchmen have been obtained for each of the above schools. The Department is allowing a grant at the rate of \$40 a month towards the salary of each of the night watchmen at these schools, and cheques in payment will be sent at the end of each quarter to the respective principals.

I have the honour to be,

Right Reverend Sir,

Your obedient servant,

Memorandum:

MR. BUSKARD.

Replying to your memorandum of the 4th instant, I have to say that no funds are provided to carry out any work on the reserve near Driftpile, Alberta. A request was received to erect a house for the farm instructor, if one was appointed. As it is not intended to make this appointment, no provision was made to erect a residence for him.

No provision was made in the 1931 Estimates for the building of an Indian school at Sturgeon Lake, and no amount has been included in our Estimates since that time to carry out any work at this point. The school building at Sturgeon Lake is church-owned and the Department has received no request from the church authorities for the erection of a new building or any extension to the existing one. In this connection, I would refer you to memorandum of October 20, 1932.

When new school buildings, additions, alterations or repairs have been required to the schools in the Lesser Slave district - which are all church-owned, it has been the general policy in the past to have the work carried out by the church authorities, the Department reimbursing them for part of the costs. The church authorities forward receipted accounts covering the cost of all material and labour, and reimbursement is made to the amount of the appropriation allowed for the purpose. The church authorities advise the Department in detail of the work proposed to be undertaken and receive authority and information concerning the amount of the cost for which the Department will be responsible.

INSPECTOR'S OFFICE

CALGARY, ALTA., Aug. 28th., 1934.

Dear Dr. McGill:

On my return to the office here I found a letter from the Sister Superior of the Sturgeon Lake Indian Residential School, stating that she had planned to ask that the school be supplied with a typewriter, but evidently her nerve failed her when we were at the school, and she is now asking me if it would be possible for me to take this matter up with you. She states that even a second hand machine would be greatly appreciated, as they could make good use of it.

I have the honour to be,

Dear Mr. Christianson,

You do not state in your letter anything concerning your return journey to Edmonton. I trust that Mr. Gooderham and yourself were able to get through without too much delay and inconvenience.

When I looked out of the train window Wednesday morning and saw the rain pouring down on muddy roads, I wondered what sort of trip you would have returning to Fort St. John and feared that the portion through the Lesser Slave Lake country would give you considerable trouble. I should be interested to know something of the adventures and difficulties you encountered.

Yours faithfully,

Reverend Sir,-

In official letter of November 16th, last, you were advised that the Department intended to supply a typewriter for the Sturgeon Lake Indian Residential School. This typewriter was shipped from here by Canadian National Express on December 13th, last, addressed to you at Grand Prairie, Alta.

Recently, the Department received a letter, dated January 30th, 1935, from Sister Michael, in which she stated that the typewriter had not yet been received.

On receipt of this letter, the Department communicated with the Canadian National Railways Express Department and, in a letter dated the 9th instant, we are advised, as follows:-

"Our express agent at Grand Prairie, Alberta, advises me the shipment was delivered on December 18th to the Catholic Mission for furtherance to Calais."

In view of the above information from the Canadian National Express Company, the Department cannot understand why Sister Michael wrote stating that the typewriter had not been received. I would appreciate hearing from you in regard to this matter.

ATTENTION OF MR SUTHERLAND

The Secretary,
Department of Indian Affairs,
OTTAWA, Ont.

Dear Mr Sutherland:-

We had been authorized during the last fiscal year to spend \$500.00 in repairs at Sturgeon Lake Residential School. I must confess we spent far more than the amount as can be seen by the enclosed time sheets and accounts. I may add that the latter represent only a part of the expenses. I have not shown the lumber which amounts to \$211.25 (viz 5150' at \$30.00 per M.: \$154.50
2270' " \$25.00 " " : \$56.75
\$211.25)

as the figures presented are above the amount allotted. I had not the receipted bills at hand and I did not want to delay.

I leave the whole matter in your hands and am assured of settlement before the end of the fiscal year. You will excuse our delay as one account has been paid only a few days ago.

Yours very truly,

Bishop of Grouard

N.B.: -I am sorry that I have Mr Champagne's account and the Frontier Lumber's in single copy. Mr Champagne has since left for the East and could not be reached in time and Frontier Lumber's Receipt is sent as received. I suppose you will be able to have copies properly made.

I have your letter of the 29th ultimo, enclosing accounts for labour and material in carrying out repairs at the Sturgeon Lake Indian Residential School. A cheque to the amount of \$762.35 will be sent in due course to the R. C. Episcopal Corporation of Grouard.

I had duplicate copies made of the account of Mr. Champagne and the Frontier Lumber Company.

I note that there are further accounts to the amount of \$211.25 for lumber. If you obtain receipted accounts, in triplicate, for this and forward them to me, I will see what I can do to have them paid.

The accounts which you forwarded for St. Bruno's and Wabasca, including the range, are also being paid.

Yours sincerely,

File 131-4-5

The Committee of the Privy Council have had
before them a report, dated 6th November, 1935, from the
Superintendent General of Indian Affairs, representing:

That building operations enumerated hereunder were
carried out during the past summer at each of the St
Bernard's, St Bruno's, Sturgeon Lake and Wabasca Roman
Catholic Indian Residential Schools, located in the
Lesser Slave Lake Indian Agency, northern Alberta;

That as these schools are in an isolated locality, it has
been found that the most economical method of arranging
for construction is to place the work in charge of the
Oblate Order, under whose auspices they are conducted;

That all work was approved by the Department and carried
out on a day labour basis, under the direct supervision of
His Lordship Right Reverend Joseph Guy, S.M.I., Bishop
of Grouard, at a cost of \$24,800.

That the cost of the work at each school, including
material and labour, was as follows:-

St Bernard's.

Erection of a new building, to provide classrooms,
sewing room, dormitory and laundry.....\$16,000.

St. Bruno's

Repairing foundation, main building -	\$3,300.	
Erection kitchen	-	1,400.
Erecting barn	-	1,500
		6,200.-

Sturgeon Lake

Miscellaneous repairs, school buildings	500.-
---	-------

Wabasca

Erecting machine shed and chicken house	2,100.-
---	---------

That funds to cover the cost of the above mentioned work
are provided in the Appropriation for Indian Education for
the current fiscal year, 1935-36.

The Committee, therefore, on the recommendation
of the Superintendent General of Indian Affairs, advise that
authority be granted for the expenditure of the said sum of
\$24,800. in payment of the cost of the above mentioned work.

INSPECTOR'S OFFICE

PB CALGARY, ALTA. **November 12th, 1935.**

Dear Doctor McGill:

I have the honour to report on an inspection of the St. Francis Xavier's Indian Residential School at Sturgeon Lake, in the Lesser Slave Lake Agency:

At the time of my inspection there were 85 children at the school, 80 of whom were grant-earning pupils.

I visited the class-rooms and inspected the building, and spent considerable time with the children and the Sisters there, going over their different activities at the school. The Provincial School Inspector reported on this institution a short time ago, and found the class-room work very satisfactory.

The girls attending this school are being given as good a training in all branches of household science as it is possible to give them in such an institution, and I found that 7 of the older ones were not attending classes at all, but were getting special instructions in cooking, house-keeping, sewing, &c., to better fit them for their home life on the reserve. This is being done with the authority of the Department.

Deputy Superintendent General,

Department of Indian Affairs,

Activities for the boys of this school are very limited: They get the regular class-room work, but as far as outside work goes there is nothing for them to do besides helping with a few chores, &c., and organized outdoor play amongst the boys is also lacking.

The children all looked well and happy. I checked over the meals they were being served and found that they meet the requirements of the children, evidence of which was shown in their healthy appearance.

I need not describe the building, as I have done this on previous occasions, and you visited it a year ago last August, but as you know it is very dilapidated and I would say the dormitories are hardly fit for the children to sleep in. However, they are probably better than most of the homes on the reserve, so very little can be said about them. The buildings are all kept in as good a state of repair as possible, but you will understand the difficulty of keeping a building of this nature in condition, and in my opinion this is one place where a new school is required.

They raise a good garden, but the potato crop was more or less of a failure this year on account of the wet weather. They had fair success with other garden truck, however.

The school had 60 acres of grain in crop this year,-- wheat, oats and barley, but this was not threshed when I was there as there had been so much wet weather and snow. It is difficult for this institution to get any more land under

- cultivation -

cultivation, as the land is covered with heavy timber, and before any more breaking can be done this bush has to be cleared away. Twenty acres of brushing was done this summer mostly by the staff and Indians from the reservation.

The School have 9 cows, 9 calves, 6 horses, chickens and pigs. It was necessary for them to send the rest of their herd down to Grouard on account of the shortage of feed.

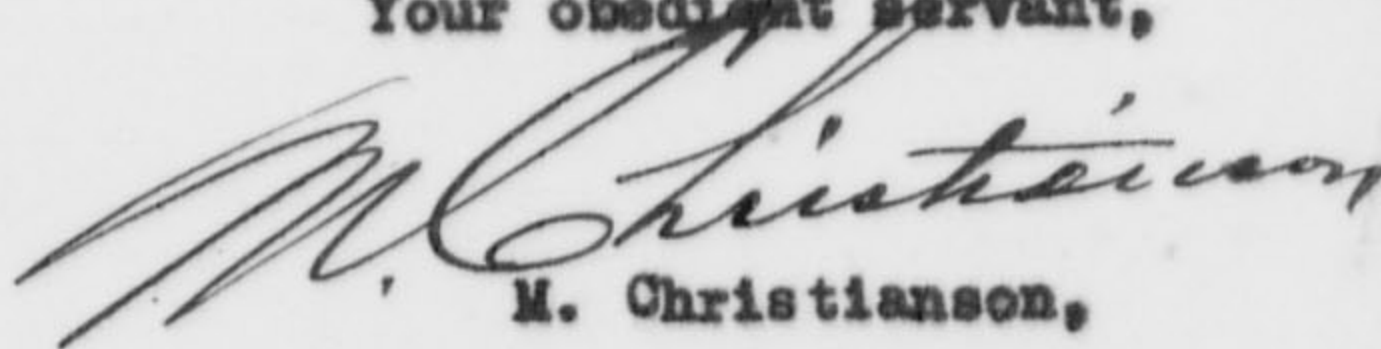

The Staff at this institution consists of Rev. Father Girard, O.M.I., an Assistant Principal, 2 lay brothers and 2 hired men, as well as 11 Sisters of Providence. They seem to be an efficient staff of Sisters, and I believe they practically run the school as I do not think Father Girard takes very much interest in the affairs of this institution, being more concerned with the mission work and the administration of the farm, &c.

The Sister Superior made a few requests which I am forwarding to the Department in a separate letter.

I have the honour to be,

Sir,

Your obedient servant,

M. Christianson,

and in a central position on the north boundary of the Sturgeon Lake Reserve. The closest railway point, at present, is Grande Prairie, which is about 70 miles due west. Until the past year, the road has been a rather difficult one to freight in supplies over during the summer months, and consequently supplies had to be taken in during the winter when the muskegs and lakes were frozen over. Last year a highway was built and bridges put in over the small streams, and it will now be possible to take in supplies at any season of the year. A highway right-of-way is being cut out this winter north east from the school to a point on the railway near High Prairie, and it is expected that a highway will be built during the coming summer. The distance will be about 50 miles, which will not only bring them closer to a railway point, but will save the long freight haul from High Prairie to Grande Prairie.

There were 77 pupils enrolled at the time of my visit, 39 girls and 38 boys. Four classrooms are provided with a teacher in each. The pupils appeared to be bright, and are making good progress in their school work. The Sisters in charge of the classrooms appear to be quite capable teachers, and referring to the Provincial School Inspector's report on their work, which was made last November, it would appear that he entertains a favourable opinion of their ability as teachers.

The pupils presented a healthy and well nourished appearance. It was noted that they were well and warmly clad. Their recreations, during the winter months, are skating and sledding and such outdoor games as are possible, and during the summer months they engage in

outdoor games

outdoor games, the boys being particularly fond of football.

Residential accommodation for the children and Sisters is provided in two separate frame buildings. The boys' building was very recently erected. The upstairs provides a dormitory 25' x 84', with an 11 ft. ceiling. It contains 39 beds. This is a very good, airy, roomy dormitory. Twelve wash basins, and individual towels are provided. One room is set aside for an infirmary. The first floor is divided into classrooms, which are all well lighted. Three hot air furnaces are used for heating purposes.

There are three outside stairways, with easy means of access, provided as a means of escape in the event of fire. Fire extinguishers are placed at convenient points on each floor.

There is a spare room, 25' x 48', with a 10 ft. ceiling, which could be used as a dormitory and would provide room for 20 more beds if required.

The girls and Sisters are housed in what was the original school building. The first building was erected many years ago, and has several additions to it. It provides a chapel, kitchen, dining rooms, Sisters' bedrooms, as well as two spare bedrooms which can be used in an emergency as an infirmary, and a girls' dormitory, 72' x 25' x 9½', pitched roof, ceiled. Ventilation is obtained through the windows. There are 46 beds in the girls' dormitory. Twelve wash basins, and individual towels are provided. It is heated with a hot air furnace and stoves. Coal oil and gasoline lamps are used for lighting purposes. This is not an up-to-date building, and in view of its construction, it is not a very convenient building to work in. It is becoming old, and has served its purpose.

purpose. As soon as circumstances permit, it should be replaced with a more modern building.

Outside stairways are provided for fire escapes, and fire extinguishers are placed at easily accessible places throughout the building.

I found both of these buildings being kept clean and tidy, and in a very creditable condition.

Three outside toilets are provided for the girls and three for the boys. I found the girls' toilets in a clean and sanitary condition, but the boys' toilets were in a disgraceful condition, and showed lack of supervision. I pointed this out to the Principal who said that the condition would be remedied at once.

A small farm is operated; they have 60 acres of land under cultivation. During the past season they had 200 bus. of wheat, 500 bus. of oats, 50 tons of green feed, 800 bus. of potatoes, 140 bus. of turnips, 80 bus. of carrots, and a variety of other vegetables sufficient for their requirements throughout the year. The live stock consisted, at the time of my visit, of 35 cattle, 7 horses, and 8 pigs. They have also a large flock of poultry, and raised 240 chickens last season. They have 11 milch cows, 9 of which are kept milking steadily.

The children, I was informed, get milk to drink. An ample quantity of wholesome food is provided for their meals. They have porridge with milk each morning, and the food is varied; they have soup, meat, vegetables, fish, bread, fruit, and lard. The meat used is principally moose meat, which is easily obtained.

The girls are taught general housework, sewing, knitting, and fancy work. They keep the building clean under

supervision

supervision, and assist the Sisters in taking care of the poultry. The boys assist with the farm work and the care of the stock. They also assist at milking the cows.

The water supply for the school is obtained from the Sturgeon Lake.

The Principal lives in a separate dwelling, and the outbuildings include-a house for the man in charge of the outside work, workshop, storehouse, 2 good stables, hog house, and poultry house. I found the premises in a tidy condition.

The Rev. Father Batte, O.M.I., is in charge as Principal, with Father Giroux as assistant. An adequate staff of Sisters, including the 4 teachers and a trained nurse, take care of the inside work.

I was quite pleased with the manner in which this institution is managed, and I consider that they are doing good work at this school.

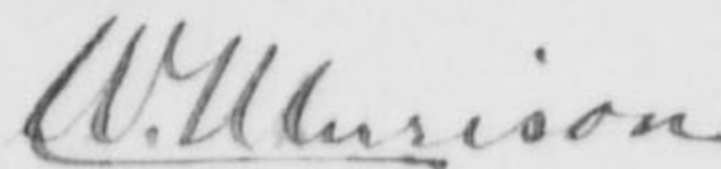

There are a number of other schools in the Agency which I was unable to visit on this trip. I am informed that they have a particularly fine school at Wabasco, which has just been completed.

The foregoing report is respectfully submitted.

I beg to bring to your attention that the Sister Superior at the Sturgeon Lake Indian Residential School in the Lesser Slave Agency asked that they be supplied with a sewing machine of the type used by tailors. One of the machines they have there is completely worn out and they wish to teach the girls how to make men's clothing, &c.

They also desire a half-dozen tape measures for the use of the sewing class and 15 pounds of yarn, red and white.

Dear Sir:

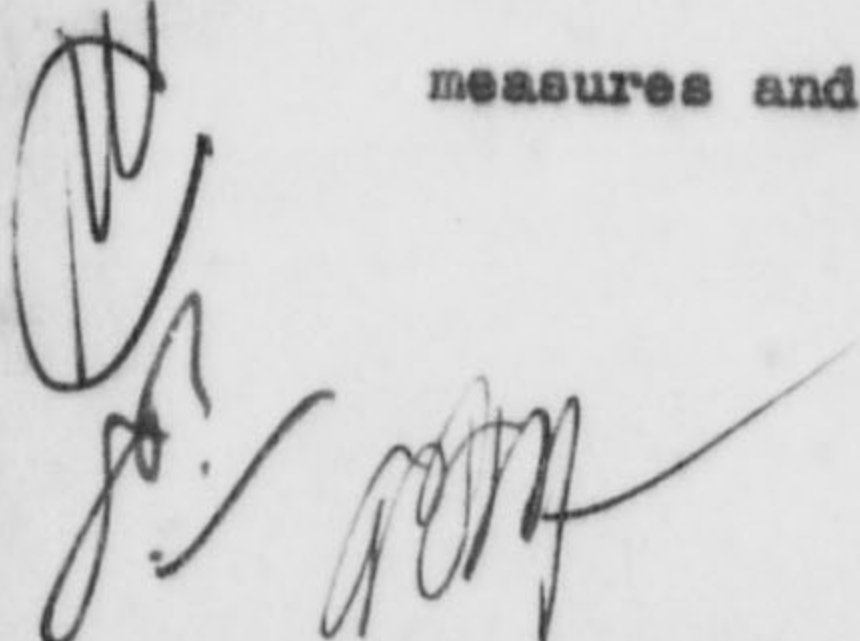

With reference to your letter of the 10th instant, the Department regrets that your letter of November 12th and your report on the Sturgeon Lake Residential School were not previously acknowledged.

Our records show that a tailor's sewing machine was supplied this school last March, at the request of Bishop Guy. It is possible, however, that the machine we supplied was sent to some one of the other Indian schools in Bishop Guy's diocese. As Bishop Guy is expected to visit Ottawa shortly, he will be asked concerning this machine, and, at the same time, he will be informed that you recommend a tailor's sewing machine for Sturgeon Lake. If it is found that the machine previously supplied was sent to some other Indian school, the machine you recommend will be ordered.

The Department does not supply tape measures and yarn to Indian residential schools.

Yours truly,

GROUARD, ALTA
August 20th, 1936

Dear Mr Phelan:-

Could you oblige me by sending to:
Sturgeon Lake School, GROUARD, the following:

✓ 2 Washing Machines with wringers (ordinary hand machines)

2 Singer Sewing Machines (one Tailor). Those machines had been
promised last year by the Indian Agent who probably forgot.
They could be ordered from GRANDE PRAIRIE which is only 65
miles from the school. The agent at that point would certainly
deliver them free.

1 tailor
1 Sewing Machine

With anticipated thanks.

Yours ever truly,

W. G. Grouard

Right Reverend Sir:

Replying to Your Lordship's letter of the 20th ultimo, addressed to Mr. Phelan of this Department, requesting that sewing machines and washing machines be supplied for use at the Sturgeon Lake Indian Residential School, I have to inform you that an order is being placed with the Singer Sewing Machine Company to supply, through the nearest branch agency,-

- 1 Singer sewing machine, household type, and
- 1 " " " (Tailor's).

The account, in triplicate, covering the cost, will be sent you. Upon receipt of the machines, I would request that you will certify the account in the usual manner and forward to the Department for payment.

Regarding the supplying of two washing machines, with wringers (ordinary hand machines), I would suggest that you arrange for the purchase of these machines and forwarding them to the school. The cost of the machines should include any charges for transportation. Please obtain an account, in triplicate, covering the cost, and forward same to the Department for payment.

I have the honour to be,

Right Reverend Sir,

Yours truly,

Mr. M. Christianson,
Inspector of Indian Agencies,
Alberta Inspectorate,
Calgary, Alta.

Dear Sir:

I am referring today to your letter No. 405-11A.R.C. of Sept. 29th 1934 permitting us to have the large girls of the eighth grade who were in their last year to follow a course in Domestic Science, consisting of a course in sewing and lessons in cooking.

You had expressed that in your opinion it was a splendid idea and that it would be a far more profitable training than simply following class and completing the eighth grade.

I wish now to make application for the renewal of this same permission for seven of our large girls who have completed their seventh grade, five of whom are in their last year.

You have visited them at work last year and have some idea of the training they received in the past and so I wish to know if you intend that we continue with the same program as in the past, that is, instead of going to class every morning at nine o'clock these large girls would go to sewing and cooking class till five A.M.

Hoping to receive your visit in the near future, I offer you the very best regards of all the sisters.

I am,

Yours most gratefully,

Sister Superior

Dear Sir:

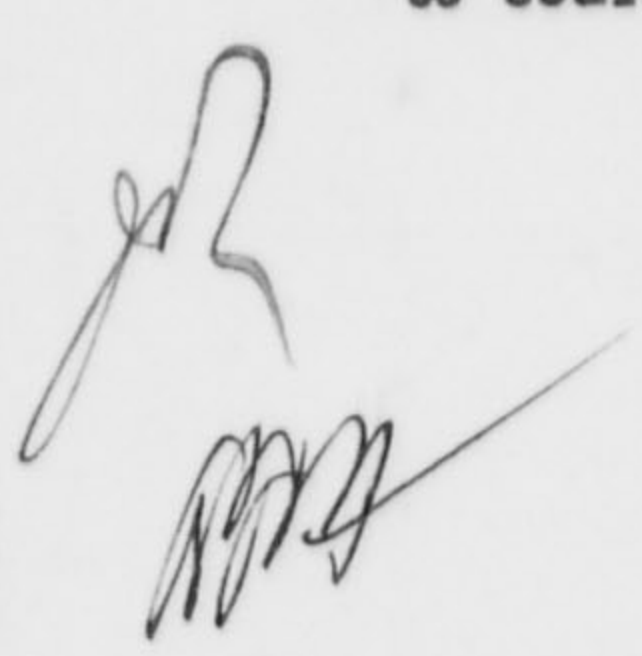

I have your 405-11A R.C. of the 14th instant, enclosing copy of a communication which you received from the Sister Superior of the Sturgeon Lake Indian Residential School, requesting that the larger girls, instead of spending the full period in the classroom, be allowed to give more time to domestic science, sewing and cooking lessons.

The Department considers that it would be in the best interests of the girls for them to devote considerable time in the above mentioned studies, which would be of more service to them in after life. You may therefore inform the Principal that she may arrange that the older girls spend less time in the classroom and devote more of their study to courses in domestic science.

Yours truly,

A. F. MacKensie,

Dear Sir:

I beg to bring to your attention that the Sister Superior of the St. Francis Xavier's Mission, Calais, Alberta, in writing to me about some of the bigger girls there, a matter which has already been taken up with the Department, attached the following requisition for school material and she points out that they require the articles that were not allowed. CERTIFIED TO BE A TRUE COPY OF A MINUTE OF A MEETING OF THE
COMMITTEE OF THE PRIVY COUNCIL, APPROVED BY THE DEPUTY OF
HIS EXCELLENCY THE GOVERNOR GENERAL ON THE 31st March, 1937.

file

The Committee of the Privy Council have had
before them a report, dated 22nd March, 1937, from the
Minister of Mines and Resources, stating that the repairs,
equipment and labour enumerated hereunder have been
authorized at each of the Grouard (St. Bernard's); Joussard
(St. Bruno's); Sturgeon Lake and Vermilion Roman Catholic
Indian Residential Schools, located in the Lesser Slave
Lake Agency, northern Alberta:

Grouard 'St. Bernard's).....	\$2,283.49
Joussard (St Bruno's).....	1,434.97
Sturgeon Lake.....	211.27
Vermilion.....	417.64
	<u>\$4,347.37</u>

The Minister further states that as these
schools are in an isolated locality, it has been found that
the most economical method of arranging for the purchase of
equipment and in carrying our repairs is to place the work
in charge of the Oblate Order, under whose auspices these
schools are conducted;

That all purchases of equipment and the labour
in connection with repairs were approved by the Department
and carried out under the direct supervision of His
Lordship Right Reverend Joseph Guy, O.M.I., Bishop of
Grouard; and

That funds to cover the cost of the above
mentioned equipment and labour are available in the
Appropriation for Indian Education for the current fiscal
year, 1936-37.

The Minister recommends that authority be
granted for the expenditure of the said sum of \$4,347.37
in payment of the cost of supplying the equipment and in
carrying out the labour at the above mentioned schools.

The Committee concur in the foregoing recommend-
ation and submit the same for approval.

E. J. Lemaire.

Clerk of the Privy Council.

EX'D.

Certified to be a true copy of a Minute of a Meeting of the Committee
The Deputy of
of the Privy Council, approved by His Excellency the Governor
General on the 31st MARCH 1937

The Committee of the Privy Council have had before them a report, dated 22nd March, 1937, from the Minister of Mines and Resources, stating that the repairs, equipment and labour enumerated hereunder have been authorized at each of the Grouard (St. Bernard's); Jossard (St. Bruno's); Sturgeon Lake and Vermilion Roman Catholic Indian Residential Schools, located in the Lesser Slave Lake agency, northern Alberta:

Grouard (St. Bernard's)	-	\$2,285.49
Jossard (St. Bruno's)	-	1,454.97
Sturgeon Lake	-	211.27
Vermilion	-	417.64
		<u>\$4,347.37</u>

The Minister further states that as these schools are in an isolated locality, it has been found that the most economical method of arranging for the purchase of equipment and in carrying out repairs is to place the work in charge of the Oblate Order, under whose auspices these schools are conducted;

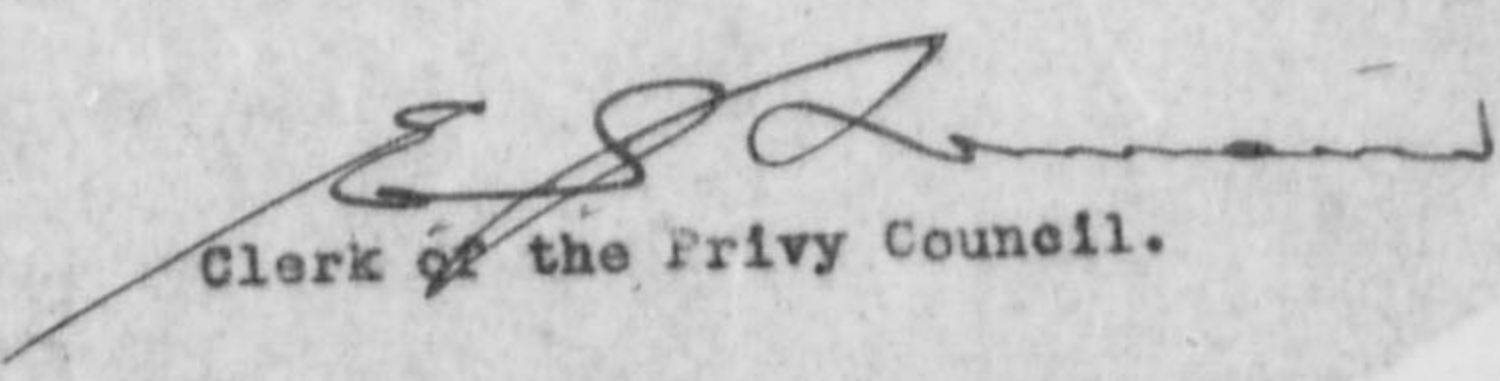

That all purchases of equipment and the labour in connection with repairs were approved by the Department and carried out under the direct supervision of His Lordship Right Reverend Joseph Guy, O.M.I., Bishop of Grouard; and

That funds to cover the cost of the above mentioned equipment and labour are available in the Appropriation for Indian Education for the current fiscal year, 1936-37.

The Minister recommends that authority be granted for the expenditure of the said sum of \$4,347.37 in payment of the cost of supplying the equipment and in carrying out the labour at the above mentioned schools.

The Committee concur in the foregoing recommendation and submit the same for approval.

The Honourable
the Minister of Mines &
Resources.

Clerk of the Privy Council.

In letter dated May 30, 1938
(File 131-1-5) Reverend S. Lajoie, O.M.I., stated
that he desired the amount provided for the
Sturgeon Lake Indian Residential School in the
current year's appropriation expended as follows:-

Appropriation\$1,000.

1. Repairs at foundation \$ 300.
2. Painting of boys' building 700.

In letter dated June 6, 1938,
File 131-1-5, Father Lajoie was advised that, in view
of the present purchasing regulations, it would be
necessary for him to forward full particulars regarding
any material required for repairs and improvements.
He was requested to forward a separate letter for each
of the schools in the diocese of Grouard.

Sturgeon Lake Residential School:

Appropriation \$1,000.00.

Work to be done includes repairs to foundation
of boys' building. Estimated cost : \$ 300.00

About 100 sacks of cement needed.

Should I order this cement or if the Department
will do? For such a small lot, I believe that
we do better locally as we have to pay freight
by the hundred pounds if we have less than a
carload. I am asking for tenders which will be
submitted to the Department if thought advisable.

It is very important that the work be done
during the summer holidays not to disturb classes.
The Principal and the teachers have requested me to
start the work with the first days of July.

Work to be done includes painting of the boys'
building. Estimated cost \$ 700.00

To make a good job, 125 gallons of prepared paint
are requested. Generally, we buy white lead and
suitable oil. We save a lot in that way.

I desire to refer to that portion of your letter of the 6th instant which covers the repairs required at the Sturgeon Lake R. C. Residential School. In order not to delay the work at this school you may order the cement and the white lead and oil.

When forwarding the accounts covering the cost of these articles you should attach a statement setting forth in detail the value that you have received for the money expended.

The total amount expended for material and labour must not exceed \$1000.00.

Dear Sir,

Re: Eave-troughing for
Sturgeon Lake Indian Mission.

Anten
As pointed out in previous correspon-
dance, some work has to be done at Foundations at the
Sturgeon Lake Indian School. I am told ~~that~~ it would be
a loss if we don't take ways to send away from the founda-
tions the water coming from the roofs. It means that we
have to put eave-troughing around all buildings.

Please find enclosed a sheet giving
dimensions and specifications.

Let me point out that all freight
coming from South has to be addressed at High Prairie
Station, Alta. If material bought at Grande Prairie, we
take delivery there.

Dear Sir:

I am in receipt of a request from the Principal of the Sturgeon Lake R.C. Residential School for one year's supply of watchman's clock dial papers. No doubt you can secure these in Calgary and forward them to him.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Dear Sir:

I am in receipt of your voucher No. 67 covering the cost of transporting the trunk from the Sturgeon Lake Residential School to High Prairie. It is considered that this expense should be paid by the school management. The voucher is, therefore, returned unpaid.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

BUILDINGS

Re
The old main building, built of logs in 1907, and covered with spruce siding, is in very poor condition, is sagging badly, and is beyond repair. It is imperative that a new building to replace same be erected in the near future. The old building is occupied by the Sisters and girl pupils. The kitchen, etc., are in this building. The building is heated by a hot-air furnace, a hole -- supposed to be called a cellar -- having been dug under the floor to place the furnace therein. Entrance to this cellar is made through a trap-door. Danger of fire is very great.

Another separate frame building, built in two sections, one in 1922 and one in 1928, joined together, is used for the boys' dormitory, play-room, and three class-rooms. This building is in good repair, but unfortunately, when built, proper attention was not given to the foundations. The building rests on a concrete foundation, which is cracking. In order to install furnaces, long narrow cellars were dug and lined with logs. As it is, the building is beginning to sink, and unless repaired, i.e., heavier foundations and proper supports put under the joists, it will soon be twisted and ruined. The proper thing to do with this building is to put a full-sized basement under same, having solid concrete walls to support the upper structure. This building is well preserved and is worth putting the necessary expense into the foundation to save it.

The Principal and other male members of the staff have separate quarters: The out-buildings, horse stable, cow barn, bakery, garage, implement shed, etc., are all well-built, frame buildings, well cared for and in good repair. The exterior of all buildings was painted last summer, and they present a well cared for and neat appearance. The provincial highway from High Prairie to Grande Prairie passes in front of the buildings, along the shores of Sturgeon Lake.

WATER SUPPLY

In summer, water is pumped from Sturgeon Lake, a pipe-line being laid on the ground. In the winter time, water is hauled in barrels from the lake. This was being done at time of my last visit. I counted seven (7) water barrels in the small kitchen. When a new building is erected, provision should be made for an underground pipe-line to the lake, and proper pressure tanks installed to serve both buildings.

(Sgd.) C. P. Schmidt,
Inspector of Indian Agencies.

Memorandum:

MR. BAILEY

Re: Sturgeon Lake Indian Residential
School

I enclose receipted accounts amounting to \$406.77 covering the cost of material purchased for painting the different buildings at the above-mentioned school.

The total expenditure at this school was \$1162.77 (Material \$406.77 - Wages \$656.00).

Authority to make the payment was requested in our memorandum to the Deputy Minister dated February 20, 1939. This has been approved by the Honourable the Minister.

It would, therefore, be appreciated if you would issue purchase order so that reimbursement may be made to the Grouard Diocese as this is a Church-owned school.

It should be charged to Vote 77-10-691.

Mr. Philip Phelan, Chief, Training Division,

Ottawa, Ont.

Dear Mr Phelan,

Please find enclosed report of labour done at the Sturgeon Lake Indian Residential School during last summer. The purchasing of the material was done according to the directions given by your letter of the 14 th of June last, cf. 131-6-5.

If you wonder why I have reported higher expenses than the appropriations for that work, I will answer that it is not always easy to split bills, and besides it gives to the Department an idea of the expenses we have to go in to keep the buildings in proper shape. I do not hesitate to say that the Sturgeon Lake School is not a disgrace to the Department by its handsome look, by the exterior at least. I wish we could do the same for the interior.

May I add that the expenses reported are far from covering all the monies spent at Sturgeon Lake, this year, for painting and general repairs: sidewalks, stairs, fences, ~~xxxxxx~~ furniture, etc. Let me give an example. I have had to buy mattresses and pillows for over \$300.00 for Sturgeon Lake only. Jousard's bill for mattresses amounts to about \$150.00.

I may seem pessimist, but I wonder how we will manage to rebuild the main building at Sturgeon Lake if the Department does not agree to help us. It is out of question of abandoning this School. It would be a disastrous setback. The school stands in the centre of an homogenous reserve where the population is increasing steadily. This should be weighed before taking a final decision. Mgr Langlois may have taken the question with at his passage through Ottawa.

Yours truly,

S. L. L. L.

Ottawa, Ont., Feb. 15th, 1939.

Hon. T. Crerar, Minister,
Department of Indian Affairs,
Parliament Buildings,
Ottawa, Ont.

Hon. Sir:

I have been charged by His Excellency Mgr. Ubald Langlois, O.M.I., Apostolic Vicar of Grouard, Alta., to lay before you the distressing situation of one of the Indian residential schools of the Vicariate of Grouard, namely the Sturgeon Lake Indian residential school.

This school has been established some thirty years ago for the benefit of a large band of Cree Indians. It is attended by 90 children, all Treaty Indian children. The main building has to be replaced: it is collapsing. (Let me point out that school is a two body construction. The main building which is to be replaced, sheltering the girls and the Sisters in charge; the boys' building, a comparatively new construction and solid yet. It is out of question of demolishing it.)

Since a few years, application for assistance in rebuilding the school at Sturgeon Lake has been made by the former Vicar Apostolic, Mgr. Joseph Guy, O.M.I. Up to now, the Department of Indian Affairs has never found the way clear to do so. Everybody familiar with the situation agrees to say that the main building is getting dangerous and has to be replaced in a short future. The intention is to have the work done during the summer of 1940, not this year.

In the name of the present Vicar Apostolic of Grouard, I hereby apply for assistance from the Department. Our finances do not allow us to go in heavy expenses. The present school has been set up without any contribution from the Department due to the liberality of benefactors, but the financial crisis has killed the flow of donations. We can no longer rely on gifts for such an undertaking.

According to figures made by an architect on a sketch of the projected construction, it will require between \$50,000.00 to \$60,000.00 to do the work. The intention is to build fire-proof. If we could get assurance that financial help will be given by the Department of Indian Affairs, we would start preparing for the summer 1940.

Indian Affairs. (RG 10, Volume 6375, file 765-5, part 2)

Would the Department find it impossible to appropriate a bulk sum to be disbursed in one year. I take on me to suggest the financial help be given by increasing the pupilage on the children attending the school.

Sturgeon Lake being 60 miles away from the railroad, the material will have to be hauled on frozen roads. In order to be ready to start the work early in spring, I hereby request the authorization of having the plans drafted by the architects of the Department. With plans and estimates on hands, it will be easier to have everything ready on due time.

Thanking you for the interview of yesterday as well as for the attention you will give to this question, I remain, Hon. Sir,

Yours very truly,

MEMORANDUM dictated by The Minister

February 16, 1939
5:45 PM

TO - THE DEPUTY MINISTER: Attention - Mr. C.W. Jackson

Father Plourde brought in the Vicar-General of the Diocese of Grouard, in northern Alberta.

The request they had to make was that, in our Estimates for next year, there be included an amount for the building of a fire-proof Indian Residential School at a point known as Sturgeon Lake, about seventy miles southwest of High Prairie.

Father Plourde expressed the opinion that he did not expect it would be possible to have this included in the present year's Estimates and I assured him that, in this respect, he was quite right.

I suggested that the Vicar-General write to me, making his request for consideration next year. I stated that I could not promise favourable consideration but that, if the matter were before the Department, we would be glad to consider it when the Estimates for the following fiscal year were being prepared.

They raised a point as to whether the Department would be willing to prepare the plans for the school and stated that sometime during the summer or early autumn the Vicar-General would submit details, in a general way, of what he had in mind for this school. I stated this would be all right and that in any case, even if it could not be included in the Estimates for the following fiscal year, our Departmental Architects would probably have some slack time in the autumn months in which they might draft tentative plans. I told him to address his letter about plans to Mr. Hoey.

Father Plourde also spoke about the possibility of having dormitory additions to the present Sandy Bay School made fire-proof in character and stated he had already made some enquiries from his colleagues in Manitoba as to the possibility of their providing some funds for this if the Department would be willing to increase its provisions to cover part of the additional cost. He thought the fire-proofing could be done for about approximately Forty Thousand Dollars, which would be twelve to fifteen thousand over the Estimate for frame construction. This he was to take up later by letter with Mr. Jackson.

REPORT on Water Supply Situation at
Sturgeon Lake Residential School

I inspected the water supply situation at Sturgeon Lake School and discussed the matter as fully as possible with the local school authorities on 3rd February, 1939. Previously I had discussed the situation with Mr. S. P. Schmidt, Inspector of Indian Affairs at Calgary.

The school buildings are on a bench about 40 feet above high water level of Sturgeon Lake. During the summer season water is pumped from the lake. This supplies a sufficient quantity which is also suitable except for such times as during high winds, resulting in strong wave action on the lake which fills the water with small pieces of vegetable matter in suspension. As the 1-1/2" water main from the intake to the buildings is laid practically on the ground surface, this system has to be discontinued at the first approach of frost in the fall of the year and cannot be operated until the following spring.

There is no plumbing of any kind in any of the school buildings. The water being pumped to a 120-gallon tank standing outside the kitchen and being carried from this tank to the kitchen by hand in pails. They also employ a temporary system of piping laid on the surface of the ground during the summer months whereby the water flows by gravity from the 120-gallon tank to the other small buildings and the garden.

During the winter months water is carried in drums from a hole in the ice on the lake and stored in drums standing around the kitchen. The toilets are all dry and outside and there is practically no fire protection.

Attempts have been made in the past to find sufficient and suitable water by digging wells, but without much success. They have two wells near the barn, one of which has gone dry and the other has barely enough water for the requirements of the stock. The well water, while being suitable for the stock, is considered to be "too hard" and unsuitable for human use. This, I might say, is the usual experience in this district.

Several of the buildings at this school are very old. That used as the kitchen and girls' dormitory is in a very tumbledown condition and I was given to understand that the school authorities hope to have this replaced by a new building during 1940. The other main building used as the schoolroom and boys' dormitory is a comparatively new frame building on shallow footings and with a shallow dug-out cellar. It is hoped to place a full concrete basement under this building containing suitable space for a furnace room and water reservoir.

Although the condition of the buildings does not come within the scope of this report, yet future building developments should be taken into consideration when laying plans for a water supply system. Consequently, I would recommend that any improvements to the water supply system should be so planned that they would fit in and be adaptable to probable future building plans. In carrying out this idea, the water mains should be laid in a permanent location, while the installations inside the buildings should be temporary and inexpensive but suitable to meet all year round conditions for the time being.

From all indications and the experience of the local authorities, I do not believe that sufficient or suitable water will be found in a well dug near the school buildings. But I do think it most probable that a sufficient and suitable supply will be found in a well dug on the lake shore at or near the present pumphouse. The local authorities seemed to doubt this but I am decidedly of the opinion that this should be tried before any more expensive method is attempted. If water is found in this well, then I would recommend that the following be done:

- a. The pumphouse be rebuilt in a tight and warm enough fashion for winter operation.
- b. The present 290 feet of 1-1/2" galvanized iron pipe from the pumphouse to the main building be buried below frost line and extended into the cellar under the kitchen.
- c. A 440-gallon pressure tank be purchased and placed in the cellar under the kitchen and connected to the 1-1/2" main.
- d. This 440-gallon tank should have a 1-1/4" outlet main from which a 1/2" line can run to the kitchen and temporary connections made during the summer for watering the gardens etc. These connections can be controlled by valves.
- e. The 1-1/2" main to the kitchen be extended to the cellar under the boys' dormitory and connected to the 120-gallon tank which now stands outside the kitchen but which should be moved and installed in this cellar.

.....

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

Estimate of Cost of above recommendations:

Digging and cribbing well near pumphouse	\$ 60.00
Excavating trench and backfilling	315.00
Taking up and relaying 290 feet 1-1/2" pipe, laying 250 ft. new 1-1/2" pipe and making connections	50.00
250 lineal feet 1-1/2" galvanised iron pipe	65.00
Pipe connections and fittings	15.00
Building new pumphouse	150.00
440-gallon Pressure tank	225.00
Freighting 60 miles from High Prairie, Engineering expenses and contingencies	<u>120.00</u>
	<u>\$ 1,000.00</u>

I should point out that there is no electric plant at this school and the present pump is gasoline operated. It may be necessary to change it for a deep well pump or lower it into the well if water is found in the proposed well near the pumphouse.

It is possible that sufficient or suitable water will not be found in this well, in which case it will be necessary to obtain water from the lake. The present intake is 300 feet out in the lake from the pumphouse and the 300 feet of 2" galvanised iron pipe is carried on a light trestle. This, of course, can only operate during the absence of freezing temperature and consequently is used only during the time of year when the lake is at its higher levels. During the winter, the lake water recedes so that it will be necessary to extend the intake a further 350 feet into the lake to reach water during severe freezing weather. This intake pipe should be buried in the lake bed below frost line and the problem is how to do this in this isolated locality without suitable equipment.

The most economical method to do the excavating for the trench is by use of a small dragline. From enquiries made while on this inspection trip, I do not believe there is one nearer than Edmonton, where the Provincial Government have an up-to-date 1/2 cubic yard machine. There is every likelihood that a small dragline could be used on the proposed improvements to the water supply system at Jousard Residential School (see separate report for Jousard); Also the Provincial Government will most likely be using a small dragline in the Peace River and High Prairie districts next summer. This being so, I suggest that at the suitable time an arrangement be made with the Provincial government Dept. of Public Works for the loan of the machine when it is in this vicinity and thereby effecting a saving on cost of freighting by dividing it between the Provincial Government and the jobs at Sturgeon Lake and Jousard.

If it is found necessary to extend the intake out into the lake I believe the most suitable time of the year in which to do the work would be from 1st to 15th October which is when the lake is low and just before freeze-up.

Estimate of additional cost required if it is found necessary to extend the intake a total of 650 feet into the lake from the pumphouse.

350 feet 2" galvanized iron pipe f.o.b. High Prairie, Alberta,	\$ 116.00
Excavating trench in lakebed and back- filling (including an allowance for freighting dragline)	\$ 500.00
Laying pipe	\$ 25.00
Engineering expenses, freighting and contingencies	\$ 59.00
	<u>\$ 700.00</u>

This cost would be additional to the \$1,000.00 mentioned previously, which figure covered the cost of proposed work from the pumphouse to the buildings.

As is the case for the other Residential Schools in the Peace River District, I would recommend that any work done on the water system be left to the local authorities under the Indian Affairs Branch, - our Engineering Service remaining in an advisory capacity only. The prevailing rates of pay are little more than half of what we would pay under the Department of Labour's Fair Wage Scale and it would make it decidedly awkward for the local authorities afterwards if we went in there and paid the higher rates for labour.

Memorandum:

Mr. Wardle

Re: Water Supply Situation at
Sturgeon Lake Residential
School

As instructed in your memorandum of January 20th last, arrangements were made for an inspection of the water situation at the above School. Reports have now been received and are attached in duplicate.

Encls.

It appears that at present during the summer season water is pumped from Sturgeon Lake to a 120 gallon tank and then flows, by gravity, to the buildings and the garden.

In winter the above system is discontinued and water is carried from the Lake and stored in drums near the kitchen.

It appears that attempts have been made in the past to obtain a supply of water by digging wells, but without success.

There is at present no interior plumbing in the buildings but possibility of same being installed, especially in any new buildings that may be constructed shortly, should be taken into account in any present proposals for obtaining a water supply.

Our engineer considers it most probable that a sufficient and suitable supply of water will be found in a well dug on the lake shore. Failing this the alternative is a long pipe line out into the lake. However, as the cost of the first or well experiment would apparently be only \$60.00 it is felt that this method should certainly be tried first.

We therefore recommend the undertaking of work estimated to cost \$1,000.00, as detailed on page 3 of our Engineer's report. It will be noted that except for the \$60.00 item for digging new well on the lake shore, all this expenditure is for enlargement and improvement of the present system, particularly to make it a winter or year-round service.

If sufficient water is not obtained by the above method, then it will be necessary to re lay, in the bed of the lake, the present 300 feet of pipe and also to lay an additional 350 feet, or a total of 650 feet of pipe to be laid below the frost line in the lake bed.

The estimate of our Engineer for this latter work is \$700.00, as detailed on page four of his report. However, owing to the uncertain factors connected with the carrying out of this work, as mentioned in our Engineer's report, we do not feel this estimate can be guaranteed until more definite information is available, and which information could be obtained when it is known if the work is necessary.

All labour costs in the above estimates are based on prevailing rates of pay in the district, as referred to in the last paragraph of our Engineer's report.

Respectfully submitted,

T. S. Mills

Re: Water supply, Sturgeon
Lake residential school.

With reference to the above, we had our Engineer, Mr. C.K. LeCapelain, visit the above school and make an examination into the water situation at that school. A copy of Mr. LeCapelain's report is attached together with a covering memorandum from our Chief Engineer.

It will be noted that two schemes are advanced, the one recommended being the digging of a well near the lake and providing tanks, piping, etc., in connection therewith, the cost totalling an estimated \$1,000.

Should the well prove a failure you will note it is recommended that the intake be extended another 350 feet and laid in such a way as to be usable in the winter season. This will necessitate a further expenditure of \$700.

I enclose receipted accounts amounting to \$406.77 covering the cost of material purchased for painting the different buildings at the above-mentioned school.

The total expenditure at this school was \$1162.77 (Material \$406.77 - Wages \$656.00).

Authority to make the payment was requested in our memorandum to the Deputy Minister dated February 20, 1939. This has been approved by the Honourable the Minister.

It would, therefore, be appreciated if you would issue purchase order so that reimbursement may be made to the Grouard Diocese as this is a Church-owned school.

DIRECTOR

Re: Water supply Sturgeon Lake
Indian Residential School.

In connection with the above I wish to refer to your memorandum of March 10 enclosing report from your engineer Mr. LeCapelain which recommended the digging of a well near the lake and providing tanks, piping etc. in connection therewith at an estimated total cost of \$1000.00.

As your engineer suggested that any work done be accomplished by the school authorities under the control of this Branch and that your engineering service remain entirely in an advisory capacity, I am arranging to forward an amount of \$1000.00 to the Principal of the Sturgeon Lake Indian residential school. I am informing him that he is not to proceed with the work until he receives definite instructions from your engineer with regard to the manner in which the work is to be carried out.

In connection with digging a well at this school I would refer you to the last paragraph of my memorandum of concurrent date in connection with the Jossard school.

I note from the last paragraph of your memorandum that should the above prove unsatisfactory it is recommended that the intake be extended another 350 feet and

laid in such a way as to be useful in the winter season and that your engineer estimates the cost of this work at \$700.00. However, no action need be taken in regard to this recommendation until the first recommendation is tried.

Reverend Sir:

Re: Water Supply Sturgeon Lake
Indian Residential School.

In connection with the above the engineer sent by the Department recommended the digging of a well near the lake and providing tanks, piping etc. in connection therewith at an estimated total cost of \$1000.00.

The engineer suggested that any work done be undertaken by the school authorities under the control of one of our engineers. I am today informed by the Surveys & Engineering Branch that an engineer will visit your school at as early a date as possible and give you the necessary instructions in connection with the work.

Early next week an accountable cheque for \$1000.00 will be forwarded to you. As soon as the work is completed you should forward a voucher in triplicate to which should be attached receipts giving detailed information regarding the manner in which the money was expended. If there is any balance remaining it should be returned to the Department. This is the only manner in which we can properly handle the work from an accounting standpoint.

Re: Water supply for Indian schools at Grouard, Fort
Vermilion, Sturgeon Lake and Jousard.

We have practically no information about the ground water occurrences near the above mentioned schools, but judging from the geology it seems advisable to limit the depth of drilling in some cases.

The chances of getting a water supply near the Sturgeon Lake School are probably good. The district is underlain by the Wapiti formation which contains several sand horizons that carry a good water supply in the Peace River district. I cannot tell to what depth you will have to drill here but it should be no deeper than the top of the black shale which underlies the Wapiti formation.

The chances are probably poor of getting a supply of good water from the bedrock of all the other schools and drilling should be confined to the surface deposits. The bedrock in these places is a black or dark grey shale.

It is impossible to tell exactly where you should drill, without having seen the ground. Usually in searching for water in the surface deposits, gravel ridges and stream valleys are good places to prospect.

We will be very glad to co-operate with you in any way we can, and if you wish to consult us please do so at any time.

If you drill please let us know what results you get in order that we may have the information on file.

It is noted that the chances for securing water near Sturgeon Lake school are good but that in the other cases Mr. Wickenden considers it unlikely that a supply of good water can be obtained from bedrock. Re: Grouard Indian Residential School

Sturgeon Lake Indian Residential School

This week Right Reverend U. Langlois, O.M.I., Bishop of Grouard, visited this Branch and discussed with us the work that is in progress in connection with the water supply system at each of the above-mentioned schools.

As you have previously been informed funds were provided in the current year's appropriation for the improvements suggested by your engineers. However, it appears from the information received from Bishop Langlois that the work has not yet been completed.

No provision is being made in our appropriation for the fiscal year 1940-41 for money required in connection with the water systems at these schools and moreover the Principal of each of the schools is anxious to secure a considerable amount of new equipment if funds available in the current year's appropriation are not being used in connection with the water systems.

The season is advancing and I am extremely anxious to know at the earliest possible date what progress has been made at each of the four schools mentioned above, also when the water systems at these schools will be completed.

Sturgeon Lake System

It is noted that the work done in connection
with this system consists of pipe being laid and connected
in trenches and the installation of pressure tanks and that
there remains to be done the completion of the trench which
may or may not be possible. In the latter case it is
suggested that a well be drilled which would be available
in any case for fire protection and might be considered as
a year round standby. It is estimated that an additional
\$500 will be required if the well is to be drilled.

letter received from the Rt. Rev. U. Langlois, in which he
recommends the employment of Mr. J.L. Gervais, of Montreal,
to locate the exact spot where a well should be drilled.
This matter will be referred to our Engineers and given

Mr. Philip Phelan,
Chief, Training Division,
Ottawa,

Dear Sir;

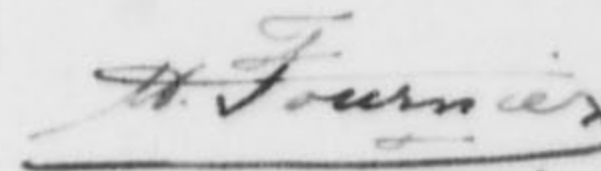

I have been required by Father S. Lajoie, O.M.I. of Grouard, to write to you in connection with the water supply at the Sturgeon Lake Indian School, Calais, Alta.

The first plan was to secure water from the lake by deepening the intake so as to keep it from freezing in winter. This however has not been found feasible without an expensive machine and the digging of a well has been decided. We have been lucky enough as to strike water at the depth of 179 ft. This water is of a good quality as far as we can judge and in a sufficient amount for the needs of the School. It remains to complete the installation with a deep-well pump and accessories, suitable motor new pump-house and laying of pipes to connect the well with the former installation. This of course will require more funds than formerly allocated. Mr. C.M. Walker of the Engineering division at Banff, Alta, estimates the additional cost at \$500.00, provided we use some of the material previously bought for the installation in the lake.

Consequently I would appreciate that you give your attention to that important matter at your earliest convenience as every day brings us new expenses for hauling water from the lake by teams of horses and it is a most difficult proposition at spring. I hope that you will be able to forward me a cheque of \$500.00 in the near future towards these new expenses, for which I thank you in advance.

Truthfully yours;

H. Fournier, O.M.I.

Memorandum:

Mr. Wardle

Re: Water supply systems at Grouard,
Joussard, Fort Vermilion and
Sturgeon Lake Indian Residential
Schools.

Under date of the 13th instant a report has been received from our Supervising Engineer at Banff giving up-to-date information on the above projects as follows:

"Grouard:

The installation at Grouard was, from a report by Father Lajoie, dated January 30th, complete except for a connection to the 3 H.P. centrifugal pump. An ample supply of water has been secured. It has a salty taste. A sample has been sent to the Provincial Analyst to determine its suitability for drinking. The water has been tried in the laundry. Father Lajoie reports "It is far from being truly soft but yet makes fairly good work especially when warm." Also, "The well has solved a serious problem for the winter. There is just mud in the lake and no snow."

Joussard:

At Joussard a flowing well was secured. Water mixed with some gas was obtained at a depth of 262 feet. The free flow is approximately five (5) gallons per minute. A sample has been submitted to Edmonton for analysis. No report received as yet. No report has been received to date on the status of the work at Joussard other than that the well had been completed.

Fort Vermilion:

The installation at Fort Vermilion has been completed according to plans including the construction of an intake into the Peace River. A statement of expenditures, submitted by Father Huguerre, has been approved by this office and forwarded to the Department of Indian Affairs, Ottawa.

Sturgeon Lake:

Father Lajoie of Grouard states that they would like the driller to proceed at once to Sturgeon Lake and drill a well there, as they have not found it possible to extend the present pipe line out into the lake with the construction facilities at their disposal and wish to complete this installation, if possible, by March 31st.

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

I would, therefore, recommend that \$500.00 be made available to Father Lajoie at once for drilling this well, this sum to be additional to the original allotment of \$1,000.00."

Commenting on the above it would appear that the installation at Grouard has been practically finished with an ample supply of water secured, and although this water is reported as having a salty taste, it would seem that this project can be considered as completed at least for the present.

As a flowing well was secured at Joussard, it would seem that the main difficulty at this point has been solved, although no final report as to completion of all work has as yet been received.

The Fort Vermilion project can apparently be taken as closed out, as all work has been completed and our Supervising Engineer advises that statement of expenditure has been forwarded to the Indian Affairs Branch, Ottawa.

With regard to the \$500.00 additional amount recommended by our Supervising Engineer for Sturgeon Lake, I would refer you to our memorandum of December 7th last in which it was then estimated that an additional \$500.00 might be required for this project. It would appear that the Indian Affairs Branch have not taken any action to date with regard to the supplying of Father Lajoie with this amount.

Respectfully submitted,

Dr. H.W. McGill,

When Bishop Langlois, of Grouard, Alberta, was in Ottawa some weeks ago, he discussed again the re-building of the school at Sturgeon Lake. You will recall that this has been mentioned several times by Bishop Breynat during the past few years. I told the Bishop that the matter was one which would have to be brought to the attention of the Minister and that I doubted very much whether Parliament would provide any funds for new residential schools until the war was over. I suggested to him, however, that there would be no harm in sending in a plan showing the old school buildings and also draft plan of the new buildings they would like to construct. I am now enclosing herewith a copy of a letter from Bishop Langlois dated March 14th; also copies of the plan of the old buildings and sketches of the proposed new buildings. I have acknowledged the receipt of the letter and told Bishop Langlois that I would bring the matter to the attention of the Minister on his return from the West.

BISHOP'S RESIDENCE

March 14 - 1940.

Mr. C.W. Jackson,

Ottawa, Ont.

Dear Mr. Jackson,

Here are at last the sketches I long ago promised you of the old buildings of our Indian Residential School at Sturgeon Lake, together with that of the proposed new building for the girls, and that also of the exact location of the old and new buildings on our property. The sketches are under separate cover.

1o - The old buildings: I think that one look at the photos will be sufficient to convince you that it is time something is done to replace and modernize the Indian Residential School the Department of Indian Affairs has at Sturgeon Lake. The buildings are all lg and frame. None of them has a foundation of either concrete, stone or brick material. As I already told you, the Girls' residence is tumbling down, and this is only one of its many inconveniences. The Boy's Residence will stand yet and fill the purpose for a good while, specially if a solid foundation is built and a little fixing up done. The classrooms are all sheltered in the Boys' Residence, and they'll have before very long to be put in a separate building as the number of children increases rapidly. But they'll do for the time being.

2o - The proposed building is that of the Girls' and the Sisters. You will readily see that our plans are not extravagant; but if we obtain their execution we will all be satisfied. You will also notice that the new proposed building contains no chapel for the children and no heating plant. I intend to have the children use the Church we already have on the premises as their chapel, and this is the reason why I propose to move it between the new Girls' Home and the Boys' House. By so doing we will have more room in the new building for other purposes and save on the building cost. - As to the heating plant, I intend to build it on the new site of and underneath the Church. We would then have a central heating plant; actually we are using stoves in the Girls' Residence and a hot air furnace in the Boys'. I would suggest a steam heating plant for our new installation.

3o - The actual buildings are much too close to the main highway from Edmonton to Grande Prairie; Therefore I propose to move them back a little further and dispose them differently. Another reason for their moving is this: The Provincial Government will soon bring the highway to a standard width, and so will of necessity cut a few feet off the frontage of our property. Useless to say that it would be better for the children to have their playgrounds a little distant from the highway. I suggest 200 feet; but we possess enough land to move the buildings further back yet, would you advise it.

4o - Finances: How to finance such a re-conditioning and building project? The estimates we have on the proposed Girls' Residence are between \$45,000 and \$50,000. Now, year in year out, we ordinarily receive from the Department each year a little over \$10,000. for general repairs, odd constructions, improvements, replacements of machinery etc. at our 5 Residential Schools. If the Ministry of Mines & Resources was willing to double, or about, this amount for 4 years in succession, and give me free hands in this reconditioning and building project, I would agree to carry it into execution, under supervision of the Department, and at the same time take care of all the ordinary improvements and repairs in our remaining 4 Residential Schools.

Dear Mr. Jackson, I perfectly realize that you cannot of your own accord take immediate steps in the matter, but I feel confident that you understand the underprivileged situation in which we are at our Sturgeon Lake School. This is the reason why I count so much on your sympathetic intelligence of things.

Dear Sir;

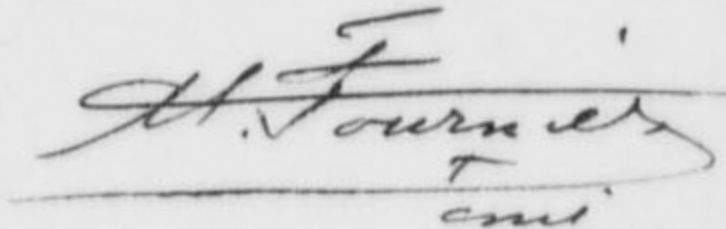

I am sending to the Department a statement of expenses re: Water System at Sturgeon Lake School. The Chief Treasury Officer must have it on hand already. The total amount of expenses to date is: \$ 1634.82; therefore exceeding by \$ 134.82 the total amount of allowances given or promised by the Department, of \$ 1500.00.

Moreover there will be more expenses yet as the water found to date has been found unsuitable for drinking purposes and further digging will have to be made. This future work as well as expenses that it will require, of course do not figure on the statement I forward to the ~~Department~~ Department today.

Please find enclosed herewith copy of the analysis rendered by the laboratories of the University of Edmonton re: the water found in our well at Sturgeon Lake School.

AIR MAIL

EXD.

Dear Father Lajoie:

I enclose copy of letter and statement received from Rev. Father Fournier, Principal of the Sturgeon Lake Indian Residential School.

The statement he forwarded is not sufficient for our purposes as we require receipted accounts for all material purchased and the usual receipted pay lists for any labour.

Father Fournier shows total expenditures of \$1634.82. When you were in the Department it was understood that the cost of the work done at Sturgeon Lake during the current fiscal year would not exceed \$1500.00 and in the transfer of funds this is the total amount available. Of this sum you have already been advanced \$1000.00 and an amount of \$500.00 can still be paid to you.

It would, therefore, be appreciated if you would forward immediately receipted accounts and pay lists to an amount of \$1500.00.

Any accounts unpaid can be retained and will be considered when the 1940-41 appropriation is available.

In forwarding accounts which show charges for freight please make certain that you have a freight receipt. The mention of freight on a receipted account is not sufficient for our Treasury Branch. They require an actual receipt from the transportation company.

Yours truly,

Dear Sir;

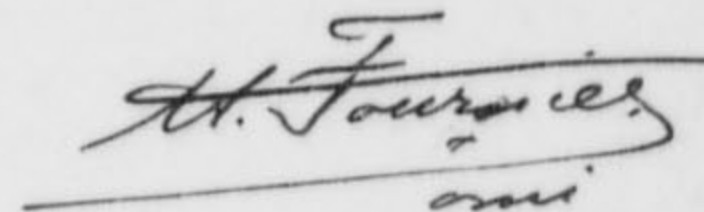

Kindly find enclosed herewith all receipted accounts and pay lists, for the sum of \$ 1500.00, re: Water System at Sturgeon Lake Indian Residential School.

I am sorry to be so late forwarding those accounts, but I could not possibly do better due to uncertain mail service and bad roads. However I trust that the Department will accept them.

Thanking you for your kind advises and help, I remain;

Yours very truly;

Dear Mr. Hoey,

Your message re: Sturgeon Lake Water Accounts
just received. Let me add a few words to the answer going
right away by wire.

As specified in message, all the documents
should be in Ottawa to-day or to-morrow unless they have
been delayed by bad roads. According to a letter from Rev. F.
Fournier, he expected to have all the receipts last Saturday.
A regular service would have allowed him to mail them Monday.
As he was to use Air Mail from Edmonton, it means that the
envelop should have reached Ottawa by now. I hope that they
did. At the worst, they should be in soon.

I deeply regret the trouble we are giving
you with this matter. Useless to say that I highly appreci-
ate your numerous steps for an happy settlement. I have moved
every thing possible to have the documents rushed. For over
two weeks, the only way to make Sturgeon Lake was horse back.
There is no phone, neither telegraph there. Missing a train
means four days delay.

It is obvious that you are making your best
to keep the door open. I hope that all concerned will un-
derstand the situation and will wait a few days more if ne-
cessary.

Thanking you once more, I remain,
Dear Mr. Hoey, Yours truly,

Department of Indian Affairs,
Ottawa, Ont.

Dear Mr. Hoey,

I am advised by Rev. F. H. Fournier, O.M.I., Principal of the Sturgeon Lake Indian School, that they will need space for grain if nothing happens to spoil the coming crop. The prospects are very good. They will need room for two bushels of grain.

Would you allow to get the granaries on the allotment made for Sturgeon Lake?... A granary of one thousand bushel capacity costs around \$125.00. Metallic granaries are the most practical. They are weather and especially mice proof. Wood building costs a little less, but is not so safe.

Due to the fact that the granaries in view should be ready for the coming threshing, the beginning of September, I would appreciate if you would allow me to order directly from the Company. As a rule, I buy similar material from Western Steel Products Corporation. They have a branch in Edmonton and they give good service.

I take the liberty of requesting an answer by Air Mail. It would be embarrassing not to have the granaries ready for the threshing time.

Thanking you for the attention you will give to this matter,

Reverend Sir:

With reference to your letter of the 30th ultimo you may purchase 2 metallic granaries for use at the Sturgeon Lake Indian Residential School. I note that each of these granaries holds 1000 bushels of grain and that you require room for 2000 bushels. Under these circumstances two granaries at a cost of \$125.00 each will meet your requirements.

Dear Mr. Phelan,

Re: Root Cellar at Sturgeon Lake School.

Having been notified by the Principal of the Surgeon Lake School that the root cellar was falling down, I drove there to study the situation. A thorough examination revealed that the cellar root has to be rebuilt. Fortunately, it is possible to secure locally the logs needed for that purpose.

It will take about 250 logs of 20', some of 25' at the average price of .06 a lineal foot. This is surely a very reasonable price. It seems advisable to add a light frame roof to the cellar. The lumber can be secured at the price of \$15.00 a thousand feet. With your authorization, the work will start immediately in order to have the cellar ready to receive the vegetables in September.

The well at Sturgeon Lake is a success for the country. Plenty of soft water containing soda but not to such an extent to be prohibited for drinking. However, it can't be used for cooking vegetables. At least, they get plenty of soft water for laundry and general use. They are extending the pipes according to the directions given by the Engineers..... I wish we had the same at Grouard...

Please find enclosed requisition of equipment for Sturgeon Lake and for Fort Vermilion. This equipment is needed for the opening of the Schools in September.

Thanks for attention..
Yours truly,

Dear Mr. Phelan,

Having been able to secure the services of a very competent man in cement work, we have decided to erect foundations for the Boys' Building at the Sturgeon Lake School. As the plans provide for a full story Basement, it will require 500 sacks of cement, a small carload. Would you please have this car shipped to Sturgeon Lake Indian School, High Prairie, Alta. (The nearest station).

The forms will require a certain quantity of lumber. Would you allow the School buying locally the lumber needed for forms and installation of the building at the following price: \$15.00 a thousand feet for rough lumber and \$19.00 for prepared lumber delivered on the grounds.

Dear Father Lajoie:

In response to the request contained in your letter of the 21st instant I am today sending forward to the Purchasing Agent a requisition for 500 sacks of cement to be delivered at High Prairie, Alta., for use at the Sturgeon Lake Residential School.

It is my understanding that this cement will be used for the construction of a basement at the boys' building and not for the construction of a new building. Bishop Langlois, in a letter dated March 14, 1940, addressed to the Chief Executive Assistant, Mr. C. W. Jackson, states:

"As I already told you the girls' residence is tumbling down and this is only one of its many inconveniences. The boys' residence, however, will stand yet and fill the purpose for a good while, especially if a solid foundation is built and a little fixing up done."

I regret to state that I cannot authorize you to purchase lumber locally. If, however, you send forward the amount of lumber required I shall be glad to do everything possible here to expedite its purchase.

Mr. R.A. Hoey, Supt. of Welfare & Training,
Department of Indian Affairs,
Parliament Buildings,
Ottawa, Ont.

Dear Mr. Hoey,

I regret to have been unable to answer
sooner yours of August 26 th. uitâmo due to absence and
to surplus of business at the opening of schools.

The carload of cement referred to has
been delivered last week. We have been fortunate enough
to do the hauling in dry weather. Many thanks for prompt
attention.

As to the lumber I was asking authoriza-
tion to get locally, I had forgotten to mention that this
lumber has been cut at our own expenses in the past winters
in order to be ready to do the work at Sturgeon Lake. As
there is no Lumber Yard within a radius of 65 miles, it is
out of question to buy lumber from dealers. Let me tell
you frankly that it would releive me if you accept to allow
us using this lumber at price given in my letter, the cost
price. If it is not feasible, let me know. To order from out-
side would mean a trip to Sturgeon Lake in order to get
all specifications and delay in work.

Hoping that you will find possible to
grant the requested authorization, I remain, Dear Mr.
Hoey,

Yours truly,

Reverend Sir:

With reference to your letter of the 14th instant you may secure the lumber required at Sturgeon Lake from the supply which you cut last winter. It is noted that the cost will be \$15.00 a thousand for rough lumber and \$19.00 a thousand for prepared lumber delivered at the school.

I regret that you did not state the number of feet of each kind of lumber required. However, in order that the work may not be unduly delayed authority is being given for local purchase.

HOUSE OF COMMONS
Canada

OTTAWA,
November 7th, 1940,

Hon. T.A. Crerar,
Minister of Mines and Resources,
O T T A W A.

Dear Mr. Crerar:

Re: Sturgeon Lake Indian Residential School

I had a number of interviews this fall with Rev. H. Fournier, O.M.I., the Principal of the above school and with Dr. E.L. Little of Grande Prairie, the medical doctor at that point for the Indian Department, in connection with the Residential School.

I feel very strongly that there should be a new school building at Sturgeon Lake. The present building is 25 or 30 years old, being partially log, boarded over, and has been built in sections. In the original part, some rather poor, local lumber was used. It is a three-story building and is heated by numerous stoves. The roof leaks and pans have to be set out to catch the rain. It is really in a most deplorable condition and a very dangerous fire-trap. You will appreciate that it is impossible to heat such a building as this with stoves, unless terrific fires are kept on. Unquestionably, the building should be condemned, and I feel that the Department is taking a very grave risk in continuing to use it.

A Residential School is urgently required at this point and the need will tend to increase rather than diminish. A day school would not serve the situation and would be quite inadequate. This residential school is doing exceptionally good work and should be continued.

I appreciate the need for economy at the present time, but I have no hesitation in urging that the construction of a new Residential School at Sturgeon Lake should be proceeded with at once. I feel indeed that I would be negligent in my duty if I did not, in the interest of the health and safety of these Indian children, do my utmost to impress upon the Department the urgency of this situation.

Yours very truly,

The last we have on file concerning the proposed construction of a new school at Sturgeon Lake is that information had been furnished by the Engineering and Construction Service in March 1939 that nothing could be done regarding the preparation of plans for the building until that Fall.

Please note specially the representations now submitted by Mr. J.H. Sissons, M.P., in his letter to the Minister of Nov. 7th, copy of which is attached.

As we have no record of the present standing of the proposed construction of a new School at Sturgeon Lake, will you please furnish a report for the Minister's information, together with a draft letter to Mr. Sissons for the Minister's signature.

Re: Sturgeon Lake
Indian Residential School.

Dear Mr. Sissons:

I have for acknowledgment your letter of November 7, in which you submit, for my consideration, the claims of a group of Indians for the rebuilding of a residential school at Sturgeon Lake.

The Sturgeon Lake School is a church-owned institution and is operated and administered by the Oblate Order. The Department pays an annual per capita grant at the rate of \$180 and the enrolment at this date consists of 80 pupils.

Our school building program and the repairs most urgently needed at Indian day and residential schools are carefully reviewed from year to year by the officials of the Department, in co-operation with representatives of the Churches. The claims of the Sturgeon Lake Indians for a new residential school have been carefully reviewed from time to time. I regret to state, however, that it was not possible to include in the estimates of this year the sum necessary for the construction of a new building at that point.

I have just learned that last year a water system was installed by the Department at the Sturgeon Lake School, at a cost of \$1,500. This year a carload of cement and the lumber necessary for the construction

of a basement at the boys' wing of the building has been supplied.

It would appear that the construction of a school at Sturgeon Lake is inseparably bound up with the construction of schools at Tebasca, Whitefish Lake and Holy Angels. In view of this fact and the existing war conditions, it is not at all likely that the money necessary for the construction of these schools will be available at any time in the immediate future. An attempt will be made by the Department to keep these buildings in the best possible state of repair.

Memorandum:

DEPUTY MINISTER.

Re: Sturgeon Lake
Indian Residential School.

The Sturgeon Lake Residential School is a church-owned school, operated by the Department in co-operation with the Oblate Order. This school has an enrolment at this date of 90 pupils.

The school buildings at Sturgeon Lake are of log construction. Reports on file would indicate that the buildings, particularly the girls' wing, are in a dilapidated condition. This building is heated by stoves and has been for a number of years an acute fire hazard. It will be noted, from a letter sent forward for the signature of the Minister, that \$1,500 was spent last year in providing an adequate water supply for these buildings and that this year the lumber and cement necessary for the construction of a foundation at the boys' wing have been supplied. The desirability of proceeding with the construction of a new school at Sturgeon Lake has been reviewed from time to time and Bishop Langlois has been particularly insistent in his requests for a new building at this point during his recent visits to Ottawa. In response to a request received from Mr. Jackson, Bishop Langlois forwarded sketch plans of a new building to the Department about three months ago. In this connection I may refer to Mr. Jackson's memorandum to me, dated March 19, 1940.

It should be borne in mind that the construction of a new school at Sturgeon Lake, the cost of which

would -

would in all probability exceed \$150,000, if the building is to be fully modern and fireproof throughout, is inseparably bound up with requests that have been before the Department for a number of years with respect to the construction of an Anglican school at Wabasca, an Anglican school at Whitefish Lake and a Roman Catholic school at Holy Angels requested by Bishop Breynat. It should be borne in mind also that the Anglican school destroyed about two years ago at Carcross, Yukon Territory, has not yet been rebuilt and that the United Church school at Round Lake, Crooked Lakes Agency, Saskatchewan, is in an appalling condition and has been condemned by the Saskatchewan Government Sanitary Inspector.

No provision has been made in the estimates of this year for the building of an Indian day or residential school anywhere in the Dominion. In view of existing war conditions and the apparent desire on the part of the Government to keep expenditures in the regular services at the lowest possible figure, it is not considered either by the officials or by myself advisable to submit items for the construction of new buildings during the coming fiscal year.

Dear Sir:

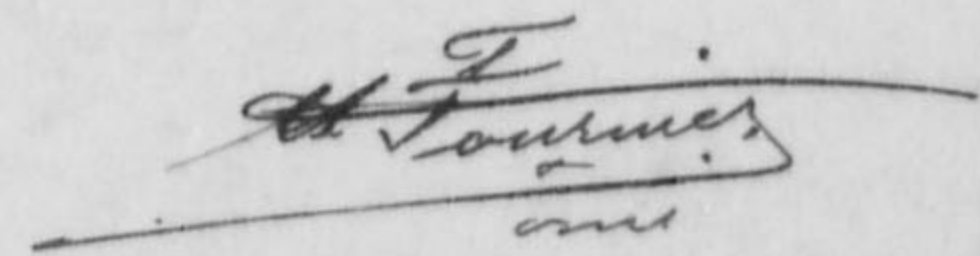

Re: your letter 131-6-5. of November 8th, which I have just received, I am sorry to say that I have not received any account for the 500 sacs of cement forwarded to the Sturgeon Lake School. A copy of the Purchase order No. 3417 has reached me and the cement was duly received. I do not know whether the account has been forwarded to Father Lajoie at Grouard, I don't think it has. It may have been sent to Mr. N.P. L'heureux, Agent at Driftpile, I am writing him to ascertain the matter, and will eventually forward this account as soon as it reaches me.

Kindly find herewith the account for 24 beds and mattresses ordered by the Department and received by the Sturgeon Lake School.

I hereby acknowledge also receipt of 6 complete desks and 1 rear desk. The order of Purchase 3605, provides that accounts for same be forwarded to Agent N.P. L'Heureux at Driftpile, Alta; I trust that he will send them to me or directly to the Department.

HOUSE OF COMMONS
Canada

OTTAWA,
December 3rd, 1940.

Honourable T.A. Crerar,
Minister of Mines and Resources,
O t t a w a.

Dear Mr. Crerar:

Re: Sturgeon Lake Indian Residential School

I have your favour of November 15th with reference to the above School. With all due respect, I feel that this school at Sturgeon Lake is not quite in the same category as schools at Wabasca, Whitefish Lake and Holy Angels.

The building which it is desired to replace at Sturgeon Lake is actually falling down and it would really be a waste of money to attempt to put it in a state of repair. I know that officers of your department have inspected the premises, and I am confident that they must be of the same opinion.

I have had an interview in this connection with His Excellency, Bishop Langlois, who is taking a very keen interest in educational work among the Indians of that area. He is very anxiously concerned over the situation at Sturgeon Lake and, knowing something of the situation, I share his concern.

I am very much afraid that if this matter is delayed, considerable harm will be done and I would therefore urge that before next year's building programme is determined, further consideration be given to the possibility of erecting this new building.

Yours very truly,

signed) J.H. Sissons

Re: Sturgeon Lake
Indian Residential School.

Dear Mr. Sissons:

I have for acknowledgment your letter of December 3, in which you again urge the necessity of constructing at the earliest possible date an Indian residential school at Sturgeon Lake.

There is little that I can add to the information contained in my letter to you dated November 15, 1940. I regret to state that owing to the critical period in which we find ourselves no provision has been made in the 1941-42 estimates for the construction of Indian day or residential schools anywhere in the Dominion.

I have been reminded by the officials of the Indian Affairs Branch that two of our residential schools - the Roman Catholic Residential School at Albany, Ontario, and the Anglican Residential School at Carcross, Yukon Territory - were destroyed by fire about a year ago and that neither of these schools has been replaced. It is scarcely necessary to assure you that, should conditions change at any time in the immediate future, the claims of these schools and your claim for the construction of the Sturgeon Lake School will be very carefully and very sympathetically reviewed by the Department.

Yours sincerely,

J. H. Sissons, Esq., M.P.,

Dear Mr. Hoey,

Having been told by Rev. F. Fournier, O.M.I., Principal at our Sturgeon Lake Indian School, that you were requesting certified copies of invoice covering carload of Cement shipped by Canada Cement Co. Ltd. to High Prairie for Sturgeon Lake School, I had to apply to the Company for this invoice as it had never been received neither by myself, neither by Rev. F. Fournier. There's the delay.

Enclosed four certified copies of this invoice. Let me point out that the Company is willing to grant the discount of 10 c a barrel even if the 20 days delay is expired.

Let me point out that we have experienced some trouble this year with the handling of the goods ordered by the Department for us. All the material destined to the Jous-sard Indian School has been shipped to the Station of Grouard. It means that we had to haul this stuff from Grouard Station to Jous-sard, 16 miles, besides the fact that the freight rate is higher to Grouard than to Jous-sard. Having notified the Railway Company to stop the carload of Cement destined to Jous-sard at Jous-sard Station instead of Grouard according to the address, we were charged \$12.00 extra for doing so. I would highly appreciate the Purchasing Agency always pointing out very clearly where the goods should be delivered.

The present is going by Air Mail in order to save time.

Thanking you once more for the attention you give to our problems, I remain, Dear Mr. Hoey,

Yours truly,

MR. BAILEY

Re: Sturgeon Lake Indian
Residential School

I submit the under-mentioned accounts in order that you may issue purchase orders for them:

1. Western Steel Products\$ 247.60

Purchase of these was authorized in view of the fact that the Principal wrote to us early in August stating that the grain prospects at the school were so good that additional granary accommodation would be necessary and he stated that metallic granaries are the most practical as they are weather and mice proof.

2. J.L. Paquin\$ 75.00
M. Mathis 234.00

These two accounts cover the cost of material purchased for building a root cellar at this school. You will note that the logs were secured at an average price of 6¢ a lineal foot. They were purchased locally and consequently there was no expense incurred for transportation.

As these accounts have already been paid by the school management purchase orders should be issued in favour of Rev. H. Fournier, O.M.I., Principal, Sturgeon Lake Indian Residential School, Calais, Alta.

The coding on these accounts is 765-77-10-691.

Dear Mr. Pnelan,

Re: Sturgeon Lake School
Accounts.

As expected, the last mail has brought me the accounts of the Sturgeon Lake Mission for the work done during the last season.

According to your statement dated Dec. 9 th. ultimo, there was a balance of \$1,579.86 left on the allotment made for Sturgeon Lake. A sum of \$156.32 being needed to cover the bill of Fort Vermilion, the balance of Sturgeon Lake is reduced to \$1,423.54. Enclosed account for same amount.

The two granaries charged have been bought through authority granted by the Department, of Yours August 5, 1940. Lumber purchasing is covered by Mr. Hoey's letter dated August 17 th.

As pointed out in my last letter, Dec. 28 th ultimo, I would appreciate receiving settlement of this account without delay.

I understand that His Excellency Mgr. U. Langlois, O.M.I. has paid you a visit. I hope he is coming back with goods news.

Yours very truly,

Re: Sturgeon Lake Indian
Residential School

I submit the under-mentioned accounts in order that you may issue purchase orders for them:

1. Western Steel Products\$ 247.60

Purchase of these was authorized in view of the fact that the Principal wrote to us early in August stating that the grain prospects at the school were so good that additional granary accommodation would be necessary and he stated that metallic granaries are the most practical as they are weather and mice proof.

2. J.L. Paquin\$ 75.00
M. Mathis 234.00

These two accounts cover the cost of material purchased for building a root cellar at this school. You will note that the logs were secured at an average price of 6¢ a lineal foot. They were purchased locally and consequently there was no expense incurred for transportation.

As these accounts have already been paid by the school management purchase orders should be issued in favour of Rev. H. Fournier, O.M.I., Principal, Sturgeon Lake Indian Residential School, Calais, Alta.

The coding on these accounts is 765-77-

Reverend Sir:

The Department recently forwarded to you a cheque for \$556.60 in connection with repairs to the Sturgeon Lake Indian Residential School during the summer of 1940. The above cheque included an account of Michel Mathis. This account read as follows:

Calais, Alberta.

Sept. 17th, 1940.

The Sturgeon Lake Indian Residential School in account with M. Mathis:

24 logs, 24 ft. each, 960 ft. @ .06 per lin. ft.	\$ 57.60
105 " 28 " " 2940 " " " " "	<u>176.40</u>

Total: \$234.00

Paid in full.

In connection with the first item on the account I would point out that 24 logs each of which is 24' long would amount to 576'. Mr. Mathis charged for 960'. If the number of logs, namely, 24, is correct there has been an overpayment of \$23.04. Please let me hear from you in regard to this matter at once and in the event of an overpayment it would be appreciated if you would forward your cheque for \$23.04.

Dear Sir:

Upon reception of your letter of May 6th., your
file:131-6-5, I have been in touch with Michel Mathis about
the above mentioned account. The amount of \$234.00, paid in
regard to that matter is correct and the error made in the
writing of the account is a material one, the writer having
apparently been confused by the length of the logs: 24 ft.
and written 24 logs instead of the real number of logs used
in the work, namely 40 logs, 24 ft. long.

I am sorry that I did not check closely enough
on this account myself when it was presented to me for
payment and caused this trouble to your Department. To avoid
further trouble to you, I have asked Mr. Michel Mathis to
draw a new account, correcting the faulty one sent to the
Department.

Trusting that this will be found satisfactory,

Attention Mr. Hoey

Dear Mr. Hoey:

I received, a few weeks ago, a very pressing letter from His Excellency Bishop Langlois of Grouard, Alberta, regarding the condition of the Sturgeon Lake Residential School.

As you are aware, this is one of the oldest Church-owned school buildings in Northern Alberta. For reasons which it is not necessary to enumerate in this letter, this school was very sadly neglected in past years when the Department was able to spend large sums of money on new buildings as well as on substantial repairs to old structures. As a consequence it is in such a condition that something must be done immediately if the Bishop is to continue to authorize his Missionaries to conduct a school for the Indians of the district.

Would it be possible to secure the permission of your Department to spend, during the present fiscal year, on substantial repairs to the Sturgeon Lake School, at least 80% of the total amount provided for the five schools under the jurisdiction of Bishop Langlois? I understand that this would mean placing at his disposal about \$6000.00. This latter sum is not large but if spent judiciously, and if the Church authorities are able to supply, as they think they will be, most of the labour free of charge, the repairs undertaken might be substantial enough to place this school, at least temporarily, in a condition which would enable the Church authorities to continue operating it as a residential school.

Your immediate attention to this matter would be greatly appreciated as Sturgeon Lake is not easily accessible

and the freighting of all building materials takes a good deal of time. If the Bishop could be advised on or about July 20 that he is authorized to carry out his plans it is likely that most of the work which will be judged necessary to place the school in a livable condition could be done before the winter sets in.

Yours very truly,

Memorandum:

DEPUTY MINISTER

Re: Sturgeon Lake Indian
Residential School.

I desire to refer you to my memorandum of November 15, 1940, and subsequent correspondence with Mr. J. H. Sissons, M.P., with reference to the above named school.

I enclose a copy of a letter recently received from Rev. J. O. Plourde, O.M.I., who writes on behalf of His Excellency Right Rev. U. Langlois, O.M.I., Bishop of Grouard.

In the current year's appropriation an amount of \$6,700.00 is provided for repairs, improvements and purchase of new equipment at the five Indian residential schools (Grouard, Jousard, Sturgeon Lake, Vermilion and Wabasca) situated in the Diocese of Grouard.

 You will note that the proposal made by the church authorities is that the Department allow approximately \$6,000.00 of this amount to be expended at the Sturgeon Lake School in order to make substantial repairs to it. The greater part of this amount will be expended for material as the school authorities expect to be in a position to supply most of the labour free of charge.

From reports we have received there is no doubt that extensive improvements are required at Sturgeon

Lake -

Lake. While the amount that we have available this year would not place the school in first-class condition, I believe that, if the school is to be kept in operation, some attempt should be made to keep it reasonably habitable.

I would therefore appreciate the Minister approving the request made by Bishop Langlois.

Dear Father Plourde:

I desire to refer to your letter of the 5th ultimo, with regard to the request of His Excellency Bishop Langlois, that the major portion of the amount provided in the current year's estimates for repairs and improvements at the five schools in his diocese be used to repair the Sturgeon Lake Indian Residential School.

This request was submitted to the Minister's office and from the reply received I quote as follows:-

"I discussed the matter with the Minister this morning and he thought that it would not be wise to carry out the proposed suggestion, in view of the fact that the repairs and improvements to the other four schools are necessary and should be carried out this year. If they are put off, to that extent larger sums would have to be provided next year for them".

In view of the above decision, I urge that His Excellency Bishop Langlois forward at once his recommendations in connection with the requirements at the five schools in his diocese. In the event of any material being required, full details should be given in order that purchase may be made through our Purchasing

Memorandum to:

Mr. R.A. Hoey,
Acting Director,
Indian Affairs Branch

Re Sturgeon Lake Indian Residential School.

Will you please refer to your memorandum of the 21st instant, file No. 131-6-5, to which was attached a copy of a letter from the Rev. Father Plourde, suggesting that the money provided in the current year's appropriation for the five Roman Catholic Schools in Northern Alberta should be used principally to make a start on the construction of some new buildings at Sturgeon Lake.

I discussed the matter with the Minister this morning and he thought that it would not be wise to carry out the proposed suggestion, in view of the fact that the repairs and improvements to the other four schools are necessary and should be carried out this year. If they are put off, to that extent larger sums would have to be provided next year for them.

The Minister appreciates that many representations have been made to the Branch and to himself in regard to the condition of the buildings at Sturgeon Lake and as to the necessity of new buildings being constructed, the cost of which might be in excess of \$50,000. He pointed out that the proposed expenditure of \$6,000 towards the cost of one building would only be of temporary help and would probably not be of any permanent benefit. He stated that so long as the war continued and probably for a few years afterwards at least, there would be very little likelihood of any items being included in the Estimates for the building or repairing of Residential Schools. In view of this he thought that it might be advisable for you to take the matter up with the church authorities

to see if it might not be possible to close this school and establish a day school in one of the buildings now belonging to the Residential School.

into consideration the amount of
and amounts paid for annual repairs
school supplies. The cost so far as
concerned is very close to \$200 per pupil
which includes feeding and clothing the child.
It should be kept in mind that the average cost
of an Indian child in the day schools is about
\$100 which is less than one quarter of the cost.
If one compares the cost per pupil in rural white
schools in Alberta, which averages about \$60 a year, the question
arises as to the extent to which the taxpayers of Canada
should be asked to contribute to the cost of educating
Indian children in residential schools when the amount
is much higher than what they pay for educating their
own children. There are, of course, many facts which
make a comparison of this kind difficult, due to the fact
that a good many of the Indian bands are more or less
nomadic in their habits.

However, as I mentioned before, the whole
problem is one which will have to be given serious
consideration. I think we should explore the possibility
of establishing day schools in the Sturgeon Lake Reserve
and operating them during the periods in the year when
the Indians are on the Reserve.

In conclusion may I say that the Government
is very appreciative of the burdens assumed by the churches
of all denominations in connection with our Indian
educational problem and the contributions, financial and
otherwise, that they have made in the past in assisting
the Department in carrying out this responsibility.

Yours sincerely,

W. G. J. G. J. G.

expect to carry on all our institutions in the same way and on the same scale as we did prior to the outbreak of war. There may have to be changes in many of them, even in those that have been established for a long time and which, over a period of years, have been considered to be more or less permanent. Therefore we must keep all these things in mind in dealing with problems which though pressing at the moment may involve further expenditures of money. ||

This brings me to the request you have made that authority should be given to divert funds that have been provided for ordinary repairs to your other schools in Alberta in order that a start can be made on the construction of new and more permanent buildings involving much larger expenditures in the future amounting to approximately \$50,000.

I would not be frank if I did not say that due to the war and what will follow after the war, I think the time has arrived when further consideration will have to be given to the cost of carrying on the present Indian educational system. We must of necessity consider carefully making further capital expenditures on a number of the existing residential schools. I do not wish to suggest that there is not a need for residential schools in connection with the welfare of the Indians, but I think you will agree that that need is greater or less, depending upon where they are situated and the extent to which they provide the necessary educational facilities at a reasonable cost.

There are in the Sturgeon Lake Reserve approximately 350 Indians. The attendance in the Sturgeon Lake school during the past few years has averaged between 80 and 90. With two or three exceptions all of the children come from families belonging to this Reserve. I am informed that the school was started about the year 1913, in which year the grant was \$2,500. In the year 1922-23 the grant had increased to about \$5,000. In the year 1932-33 it had increased to \$11,000, and last year it had increased to nearly \$15,000. Although your church constructed the buildings during this period the Department made considerable annual expenditures for repairs and in 1929 made a grant of \$3,000 towards the cost of construction of a new building. At the same time we have paid the cost of the night watchman.

My dear Bishop Langlois,

I have your letter of the 18th instant in which you refer to the Sturgeon Lake Indian Residential School and to the proposal Father Plourde made that the sum of \$6,000 should be taken from the amount that had been allocated in this year's estimates for repairs to your schools in Northern Alberta and used for the purpose of making a start on construction of new buildings at Sturgeon Lake.

I have no hesitation in saying that the matter is one which has given me a great deal of worry and the decision communicated to Father Plourde was reached only after the problem had been considered very thoroughly and from every angle.

I know it is not necessary for me to point out to you the enormous burdens Canada has assumed in connection with our war effort and which will increase as the war continues. The longer it lasts the more serious will be the consequences afterwards. We are now, as you know, spending at the rate of one and a half billion dollars a year for war purposes. In addition we have to provide for the ordinary expense of running the Government machine. Further, we must find funds to assist Great Britain in making purchases in this country to the extent of almost another billion dollars. The providing of these large sums during each year the war continues is a very great task. When the war is over it will be a more difficult one to pay back the money we have borrowed. Undoubtedly there will have to be a very drastic curtailment in all government spending. Many of the privileges we have enjoyed and the benefits we have received at this expense will be cancelled or reduced. We cannot

Ottawa, January 6, 1942.

My dear Bishop Langlois:

It is my understanding that during your recent visit to Ottawa you discussed with the Chief Executive Assistant the dilapidated and insanitary condition of the Sturgeon Lake Residential School and ways and means whereby in your judgment this school could be reconstructed.

You also discussed with me at the time of your visit the condition of this school and the necessity of certain repairs which were urgently required if the school were to remain in operation.

The condition of the Sturgeon Lake School has been carefully reviewed by the officials and the Minister of this Department on a number of occasions during the last two or three years. In this connection may I refer to the Minister's letter to you, dated August 25, 1941. In this letter the Minister takes the position that in view of war conditions he is not prepared to commit the Government to the rebuilding of the school at Sturgeon Lake. However, we have been greatly disturbed by the statements made by you in respect to the actual condition of the girls' wing of the school and particularly the fire hazards that now exist. We are personally convinced, therefore, that the building should be either reconstructed or abandoned. With the limited funds at our disposal and the building program suspended, the abandonment of the school at this particular time is not in our judgment a practical proposal.

It has been decided, therefore, that steps should be taken toward the reconstruction of the

building -

building, and with this object in mind, the Minister is prepared to recommend that an order-in-council be passed, transferring to the Sturgeon Lake School certain unexpended balances of the Grouard, Jousard and Vermilion Schools. These unexpended balances amount to approximately \$5,000. In your conversation with me you intimated that it was of the utmost importance that certain building supplies should go in by winter freight, and it is our hope that the amount of money now re-allocated will enable you to purchase these supplies.

You can readily appreciate how difficult it is for a government to undertake commitments that involve the expenditure of money, other than the amounts actually contained in the appropriations voted annually by Parliament. It is just possible, however, that an amount, approximately equal to the amount spent for repairs at the five schools in your diocese, might during the next four or five years be spent on the reconstruction of the girls' wing. This could only be done, of course, on the understanding that the Church would assume full responsibility for the repairs needed during this period at the other four schools and on the understanding also that the total amount spent by the Government at Sturgeon Lake would not exceed \$25,000. In the course of your interview with me, you intimated that it was the intention of the Church to spend an amount equal to the amount spent by the Government in supplying labour and materials for the reconstruction work at Sturgeon Lake. If I am mistaken in this conclusion, you might state in your reply the extent to which the Church is prepared to contribute to this project.

The plans of the new building, prepared by you and submitted to the Department for consideration a couple of years ago, appear to be satisfactory. In the work of reconstruction every effort should be made to make the building as fireproof as possible. The work will of course be subject to departmental inspection and approval from time to time.

In conclusion, may I refer again to the Minister's letter of August 25, last, in which he referred

generally to the advisability of reviewing our residential school policy in order that the cost of this method of education might be reduced. In approving of the expenditures at Sturgeon Lake it must be understood that we are doing so only because of the general insanitary condition of the building and the acute fire hazards to which I have already referred, and that we must still keep in mind the substitution of day schools for residential schools where local conditions render such action on our part at all possible. It must be understood also that the reconstruction of the Sturgeon Lake School cannot commit the Department in any way to an increase of pupils at the institution at any time in the years immediately ahead of us.

Yours very truly,

Acting Director.

Dear Sir:

With reference to official letter of the 3rd instant, regarding the transfer of surplus equipment for the Sturgeon Lake Residential School, I enclose copy of Salvage Minute 18503 S.3223 of February 7, authorizing transfer of certain material from the Public Works, Dawson Creek, B.C., for the use of the above-mentioned school.

In writing to the Department on January 26 Rt. Rev. U. Langlois, O.M.I., Bishop of Grouard, stated that he had gone to Dawson Creek to inspect the material and expressed the opinion that it would be suitable for the Sturgeon Lake School.

It would be appreciated if you would make immediate arrangements for the shipment of the material shown on the attached Minute from Dawson Creek to Grande Prairie, Alta. The cost of the transportation of the material will be paid on receipt from you of a certified account in triplicate. Funds for this purpose are available in the current year's appropriation and consequently it will be necessary for you to have the account covering the cost of the transportation reach us before March 31.

Bishop Langlois also asked for certain millwork that was stored at Postal Station C, Vancouver. These items are no longer available as they were previously disposed of.

Dear Mr. Hoey:

I duly received your letter of the 6th instant which I perused with great interest.

I appreciate highly the steps that both Mr. Phelan and yourself have taken towards obtaining the authorization of the reconstruction of the girls' wing of the Indian School at Sturgeon Lake. Though there are many conditions, nevertheless the most important point has been decided upon, and I am very grateful for the success obtained.

May I thank you, dear Mr. Hoey, not only in the name of the Indians who will above all benefit by your decision: but also in the name of the pupils who will at last have more sanitary quarters; and in that of the Sisters who co-operate unceasingly with the Canadian Government for the promotion of civilization.

I infer from your letter that I am authorized by an Order-in-Council to purchase at once the materials required for the reconstruction of this house to an amount of approximately \$5,000. I shall proceed immediately so that the building supplies may go in by winter freight, and that you may receive all invoices before the end of your fiscal year.

The proposition I had made to the Department was as follows, viz: That La Corporation Episcopale C.R. de Grouard would supply the labour, providing the Government would purchase the materials required for the construction.

I note your desire to have the building as free from fire-hazards as possible and wish to assure you, in this connection, that your Building Inspector will be welcome at all times.

The work will be done as economically as possible and the Government will have no reason to regret neither the money expended nor the confidence shown us in authorizing our making the purchases for this construction.

Kindly accept, Dear Mr. Hoey, my appreciation for your decision in the matter.

Dear Sir:

At Dawson Creek, B.C., there is a considerable quantity of cut stone which was intended to be used for a proposed public building to be erected at that point. However, it has been decided not to proceed with this building and the stone is available for free distribution to some other Department.

At the present time authorization has been given for considerable repairs to the Sturgeon Lake Indian Residential School and it has been suggested that this cut stone might be useful.

I am advised that Mr. Dawson, the resident architect of the Public Works Department, Vancouver, has plans of the proposed building at Dawson Creek and is also aware of the quantity of cut stone that is on the site. It would be appreciated if you would interview him immediately and ascertain if he believes that this cut stone could be used for foundation purposes or in some other part of the building at Sturgeon Lake. We would also like to know the quantity of stone available. Possibly you could also ascertain the approximate weight of the stone and what it would cost to transport it from Dawson Creek, B.C., to Grande Prairie, Alta. Both these stations are on the Alberta Great Eastern Railway.

An early reply would be appreciated.

Repayment of the cost of transportation will be made to you upon receipt of a voucher to which should be attached a receipt from the railway company. Ottawa, Ont.

Dear Sir:

After administering to the "Pale faces" for the past six months, I have been appointed by His Excellency Bishop Langlois to succeed Rev. Father Lajoie, who was obliged to tender his resignation, owing to ill-health. It is hoped that our relations will be most cordial as in the past.

I am directed by Father Lajoie to acknowledge receipt of your letter of March 3rd addressed to him personally; please rest assured that the contents of your confidential letter will not be divulged. You are endeavouring to arrange the payment of cost-of-living bonus to all schools; that is encouraging news and it is hoped that you will succeed in the carrying out of your plan.

I am pleased to hear that you are prepared to pay material purchased for the Sturgeon Lake School. Enclosed herewith accounts amounting to the sum of \$5576.55. made up as follows:

803.22	✓ Western Steel Products	\$803.22
430.93	✓	\$430.93
331.50	✓ Canada Cement Co.	\$331.50
2207.00	Freight on cement	\$189.00
<u>3772.65</u>	G. Laurin, trucking material surplus to requirements at Dawson Creek, from Dawson Creek to Calais	\$167.85
	✓ A. Belanger, Lumber	\$2207.00
	✓ L. Gaucher, trucking gravel, cement and Western Steel products.	\$1447.05
		<u>\$5576.55</u>

Trusting that the rendering of the above accounts is satisfactory to you.

With kindest personal regards,

Yours sincerely,

Total -				\$3,772.65

In connection with the above I would refer you to our memorandum to the Minister's office dated January 2, 1942, recommending transfer of funds to the Sturgeon Lake School and also recommending that purchase of materials be made by Bishop Langlois. The recommendations made in this memorandum were accepted by the Minister's office and I would, therefore, appreciate your issuing purchase orders so that the above accounts may be paid. Purchase orders should be issued in favour of the R.C. Episcopal Corporation of Grouard, as you will note that all the accounts have been paid. The coding is as follows: 765-77-10-691.

Reverend Sir:

I have your letter of the 7th instant enclosing accounts in connection with the repairs to the Sturgeon Lake Indian Residential School. The following statement indicates the amount of money available in the current year's appropriation:

Sturgeon Lake Indian Residential School

Amount provided in current year's appropriation	\$ 1,800.00
Less expenditures for tools	<u>83.00</u>
Net amount left	\$ 1,717.00

Transfers from other schools

Grouard Residential School	\$ 1,890.80
Joussard "	1,232.90
Vermilion "	<u>490.40</u>
Total amount transferred	\$ <u>3,614.10</u>
Total amount available	\$ 5,331.10

The above amount will permit payment of the following:

Western Steel Products	\$ 803.22
" " "	430.93
Canada Cement Company	331.50
A. Belanger	<u>2,207.00</u>
Total	\$ <u>3,772.65</u>

You have submitted three accounts for transportation as follows:

L.R. Gaucher	\$ 1,447.05
G. Laurin	167.85
Northern Alberta Railways	<u>189.00</u>
	\$ 1,803.90

Of this amount we will only be able to pay from the current year's appropriation the sum of \$1,558.45.

There were no funds available for transfer from the Wabasca R.C. School appropriation to the Sturgeon Lake School. This is due to the fact that there was \$1200.00 provided in the current year's appropriation for repairs, improvements and purchase of new equipment at the Wabasca R.C. School and this amount has been totally expended.

Reverend Sir:

I desire to refer you to my letter of the 20th ultimo with reference to payments in connection with the repairs to the Sturgeon Lake Indian Residential School. I explained to you in that letter that we could only pay \$1,558.45 on the transportation account which totalled \$1,803.90. For some unknown reason the Canadian Bank of Commerce has returned the cheque to us and I, therefore, enclose that cheque with this letter, also the letter from the Canadian Bank of Commerce.

In order that there will be no misunderstanding in the matter I attach, for your information, copy of my letter of March 20.

AIR MAIL

EX'D.

Dear Bishop Langlois:

In writing to you yesterday regarding the work at Sturgeon Lake I forgot to mention that we have had several requests for linoleum for the boys' playroom at the Grouard School. This room is used, I understand, for special training that is being given to the boys and apparently they are having considerable trouble with dust rising from the floor.

Of course you understand that if we purchase the linoleum it will mean less money for other expenditures as the amount provided in the current year's appropriation cannot be exceeded. However, I thought it advisable to bring the matter to your attention as you might like to have this linoleum supplied. If so, you should advise me exactly what quantity is needed.

Yours truly,

R.A. Hoey,

Dear Bishop Langlois:

I have been expecting to hear from you with reference to the work that you are doing at the Sturgeon Lake School this summer. The season is advancing and I should like to have detailed information regarding any materials that you need. It is extremely difficult to secure materials at the present time and, as a result, the sooner the order is placed the better for all parties concerned. As you are aware, we are required to make all purchases through our Purchasing Branch.

Yours truly,

R.A. Hoey,

In connection with the above I would refer you to our memorandum to the Minister's office dated January 2, 1942, recommending transfer of funds to the Sturgeon Lake School and also recommending that purchase of materials be made by Bishop Langlois. The recommendations made in this memorandum were accepted by the Minister's office and I would, therefore, appreciate your issuing purchase orders so that the above accounts may be paid. Purchase orders should be issued in favour of the R.C. Episcopal Corporation of Grouard, as you will note that all the accounts have been paid. The coding is as follows: 765-77-10-691.

AIR MAIL

Dear Bishop Langlois:

I have your telegram of July 18, in reply to our telegram of July 17, regarding I-beams, and it is noted that you intend to use all the lengths you have.

For our records I should appreciate very much receiving from you definite assurance to the effect that all the material which was transferred to the Sturgeon Lake School from Dawson Creek, B.C., last March will be used in the reconstruction of the Sturgeon Lake Residential School.

I also wish to take advantage of this opportunity to refer you to official letters of June 17 and June 18. The Department is very anxious to know, at the earliest possible date, the extent of the work that is being done at Sturgeon Lake this year. As pointed out in those letters, any material required should be purchased immediately, but before we can do this we will have to have detailed information from you so that purchase can be made through our Purchasing Branch.

Yours truly,

Philip Phelan,
Chief, Training Division.

Dear Father Plourde:

With reference to the request of His Excellency Rt. Rev. U. Langlois, O.M.I., for authority to purchase additional materials for the rebuilding of the Sturgeon Lake School, the Minister has now approved local purchase by Bishop Langlois of materials at a cost not exceeding \$5,450.00. This amount represents the balance remaining in the current year's appropriation from the amounts provided for the five schools in the Diocese of Grouard.

As you are aware, the accounts covering the cost of the purchases must reach this office before the end of March in order that payment can be made from the current year's appropriation.

I understand that construction of this building has not yet commenced, but, if my memory is correct, Bishop Langlois stated that he expected to begin next summer. I am not exactly certain regarding the size of the building which the Bishop proposes to erect, but I should appreciate it if you would definitely inform him that in building it he should keep in mind the fact that the Department will be unable to allow a larger pupilage than that at present authorized. Consequently there will be no advantage in erecting a building larger than one that would meet present requirements.

Yours truly,

Memorandum:

DEPUTY MINISTER

With further reference to memorandum of October 17, regarding transferring certain amounts to the Sturgeon Lake Indian Residential School, I would direct your attention to official letter of January 6, 1942, addressed to Rt. Rev. U. Langlois, O.M.I., Bishop of Grouard. For your information I attach copy of this letter. You will note that he was definitely informed that the total amount that the Government would expend at Sturgeon Lake would be \$25,000.00.

During the fiscal year 1941-42 we expended an amount of \$5,331.10. In memorandum of October 17 it was requested that the amount of \$3,450.00 would be transferred to the Sturgeon Lake School and this has been done by Treasury Board No. T 232514 B, October 29. This makes a total amount available for expenditure of \$5,450.00, or a total for the two years of \$12,781.10. If this latter expenditure is approved, it would mean that the balance of the \$25,000.00 would be made available in subsequent fiscal years.

Construction of the building has not yet actually commenced but it is intended to do so in the summer of 1943. Last year we authorized Bishop Langlois to make necessary purchases to the amount available and he has secured materials which have been carefully stored. He requests the same authority this year in order that additional materials can be obtained and shipped to the school during the winter freighting season. It is my intention to write to him and advise him that in erecting the school it should be kept in mind that it is not the intention of the Department to increase the pupilage allowed.

Dear Mr. Hay,

I am still under treatment for high blood pressure, and although I am feeling a little better, I do not know when I'll be able to leave the hospital for good.

I went to Ottawa two weeks ago and I tried to have an appointment with you because I wanted to discuss the matters you referred to in your letter of the 5th inst.

You understand that my situation does not make it very easy for me to obtain all the detailed information you would require. But be patient and kind enough as not to lose your sympathetic interest in our poor Sturgeon Lake Residential School.

With best personal regards.

Dear Bishop Langlois:

I have your letter of the 12th instant, with reference to additional materials required for the Sturgeon Lake Indian Residential School. In view of the regulations concerning purchasing, the following additional information will have to be supplied:

1. Doors, windows and floors

I note that you estimate the cost of these at \$3600.00. It will be necessary to give more detailed information regarding what you can secure for this amount and also the name and address of the firm, or firms, from whom purchase could be made.

2. One carload of bricks

What has been said about the doors, windows and floors applies also in this case.

3. Nails and other hardware

More detailed information will have to be supplied.

I note that you also require a carload of cement. Is it your desire that we arrange purchase of this about the first of December in order that, if secured, it may reach the school early in the new year before winter freighting discontinues?

Mr. Philip Phelan,

Indian Affairs,
Ottawa, Ont.

Dear Mr. Phelan,

May I take this opportunity to give you by writing definite assurance to the effect that all the material which was transferred from Dawson Creek to the Sturgeon Lake School will be used in the reconstruction of the aforesaid School.

As you know, there will be no work done on the new School this year, because we haven't got the essentials to make a good start on the building yet. Of course, a certain amount of material was bought out of last year's appropriations; but the reconstruction of this School will demand a good deal more. Therefore may I hope that you will be able to increase by a small margin this year's appropriations over last year's so as to permit the purchase of the following material at the following approximate cost (the material and the cost have been estimated by a regular Contractor) :

Doors, windows and floors (fir), approximately.....	\$3,600.00
One carload of bricks.....	325.00
200 yards of gravel, at \$3.85 a yard.....	770.00
One carload of cement.....	500.00
Nails and other hardware.....	500.00
	5,695.00
Plus transportation cost,.....about.....	1,500.00
	7,195.00

Dear Mr. Phelan, if, through your sympathetic assistance, we could get, during the present fiscal exercise, the sum of money and consequently the above mentioned material, I presume that, by the Fall of 1943, it would be possible to have the new School put up, covered and closed in for the winter season.

The appropriations for the following year would easily, it seems to me, take care of the heating plant and the stucco or imitation of brick material, which ever would be found preferable, for the outside finish. And so, by 1945, the Sturgeon Lake School would have at its disposal good and comfortable buildings; buildings that should certainly be a credit to your Department.

With best personal regards,

Dear Father Beuglet:

 I have your letter of the 11th instant, enclosing accounts amounting to \$5613.50 covering the cost of materials purchased for repairs to the Sturgeon Lake Indian Residential School. As you were informed in official letter of the 17th ultimo, when the matter was first discussed the Department had available an amount of \$5450.00. However, two small payments made since then for athletic equipment and an extra amount when the engine was exchanged at the Wabasca R.C. School have reduced the amount available by \$58.70. As a consequence the balance remaining in the vote which we can pay this year is \$5391.30 and I hope to be able to forward you a cheque for this amount in the near future.

DEPARTMENTAL PURCHASING AGENT

I attach accounts covering the cost of materials purchased for repairs to the Sturgeon Lake Indian Residential School. In memorandum of November 16, 1942, submitted to the Deputy Minister, it was recommended that the Church authorities be allowed to purchase materials at a cost not exceeding \$5450.00. This recommendation was approved by the Minister and the attached voucher covers the expenditures incurred.

ms
At the time the memorandum was prepared an amount of \$5450.00 was available, but subsequent small payments made since that time have reduced the amount available to the sum mentioned on the voucher; namely, \$5391.30. It would be appreciated if you would issue purchase order for the amount just stated in order that the account may be paid. As the attached accounts are receipted, the purchase order should be issued in favour of the Diocese of Grouard. The coding is as follows: 765-77-10-691.

AIR MAIL

Dear Father Beuglet:

On December 2 last I wrote to Father Plourde advising him that the Minister had approved local purchase of materials at a cost not exceeding \$5,450.00 to be used in the rebuilding of the Sturgeon Lake Indian Residential School.

Owing to illness Father Plourde has left Ottawa and I understand will not return for several months. Under the circumstances I am anxious to know if the purchases have been made, or if they will be completed within the next few weeks. As you are aware, the amount stated above is provided in our current year's appropriation which expires at the end of March and consequently accounts covering all expenditures will have to reach my office before that date. I should appreciate hearing from you in regard to this matter as soon as possible.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Rev. L. Beuglet, O.M.I.,
Administrator,
Diocese of Grouard,
Grouard, Alta.

Memorandum:

DEPARTMENTAL PURCHASING AGENT

I attach accounts covering the cost of materials purchased for repairs to the Sturgeon Lake Indian Residential School. In memorandum of November 16, 1942, submitted to the Deputy Minister, it was recommended that the Church authorities be allowed to purchase materials at a cost not exceeding \$5450.00. This recommendation was approved by the Minister and the attached voucher covers the expenditures incurred.

At the time the memorandum was prepared an amount of \$5450.00 was available, but subsequent small payments made since that time have reduced the amount available to the sum mentioned on the voucher; namely, \$5391.30. It would be appreciated if you would issue purchase order for the amount just stated in order that the account may be paid. As the attached accounts are receipted, the purchase order should be issued in favour of the Diocese of Grouard. The coding is as follows: 765-77-10-691.

Dear Bishop Langlois:

I am pleased to know that you have been able to resume duties at Grouard and I trust that your health will show continued improvement.

We have not received any recent information regarding the work that may be proceeding at the Sturgeon Lake Residential School. I would, therefore, like to know if you have started on the construction of the building and, if so, the progress that is being made and any other information that you consider would be interesting to us.

EX'D.

Dear Mr. Schofield:

I have for acknowledgment your letter of May 26 and also copy of an application form received by you from the Reverend L. Beuglet, O.M.I., Administrator of the Diocese of Grouard, attached thereto.

There is at Sturgeon Lake an Indian residential school with an enrolment at this date of 90 pupils. This school is administered under the direction of the Roman Catholic Bishop of Grouard. Grants are paid by this Department at the rate of \$180.00 per pupil per annum.

The residential school at Sturgeon Lake is an old, dilapidated and insanitary building. It has been during the last two or three years unfit for the purpose for which it has been used. The insanitary condition of this school building has been brought to our attention frequently by the Bishop of Grouard. It was finally decided that we would contribute an amount not exceeding \$25,000.00 for the purchase of material and supplies, on the understanding that the church authorities would supply the labour necessary for the reconstruction of the building, without cost to the Government. Authority to enter into this agreement was received by this Branch from the Minister in a memorandum dated November 16, 1942. It was further agreed that the church authorities would forgo certain repairs at the other four schools operated by them, thus enabling the Department to effect certain savings in

The Vicariat of Grouard has 5 Indian schools-boarding schools-administered by the Bishop of McLennan.

1. We have made representations during a number of years to the Department of Indian Affairs relative to the construction of an Indian Boarding-school at Sturgeon Lake in the Vicariat of Grouard which is falling to ruin and has become a source of danger for the health of Indian children as well as a fire hazard. As early as 1941 the Department authorized the collection of material for the carrying out of this project. It was decided therefore to build with wood; the size would be 106 feet long by 50 feet wide, with cellar, ground floor a second story which would be heated by steam and running water. We have all the building supplies on hand except the steam heating system; the plumbing and electrical material would still have to be obtained.

3. \$35,000.00
6. As explained above this school was built a long time ago and is going to ruin.

On sanitary grounds it was decided to build this school to protect the health of the children some of whom died last winter and this was attributed to the lack of comfort as this house is very difficult to heat. It is also a very serious fire hazard because the heating system is not all it should be.

That is why the Indian Affairs Department, having realized the absolute necessity of bettering the situation, decided that at all cost, in spite of present war conditions, to re-build this school.

Reverend Sir:

I have your letter of the 27th ultimo, enclosing account covering the cost of transportation charges on pillows recently received at the Sturgeon Lake Residential School. These pillows were supplied free of charge, as they were surplus to requirements at one of the Air Force camps. As you are aware, the Department does not usually supply such articles to residential schools and as these pillows are stated to be in good condition I feel that the school management is obtaining them at a very reasonable cost if they pay the transportation charges. Under the circumstances we do not feel it advisable to refund the amount.

Dear sir:

In reply to your letter of August 3rd addressed to Bishop Langlois, I wish to assure you that His Excellency's health is gradually improving and allows him to resume satisfactorily part of his former duties.

I was getting ready to write to you regarding our Sturgeon Lake project when your kindly letter came in. As poor road conditions prevented us from starting the construction before mid-July, I had little to report until now.

The construction of what we might call the "Girls' Hall" at the Sturgeon Lake Indian School is well under way by now. The foundation has been laid and the walls are being erected. We presume that the building will be completed exteriorly in early September.

Quite recently, the contractor in charge at Sturgeon Lake brought to our notice a logical fact, namely, that the installation of the heating and electrical systems should normally be started at the present time, presuming that the work can be continued during the colder months. Otherwise, the construction will have to be suspended as soon as the frame-work of the building is up, in September.

Before requesting estimates and Permits with regard to the installation of said "systems", I should like to know if the Department (according to the existing special agreement) would later refund our expenses, should we find the means to go ahead on our own and arrange immediately for said installation. - Your prompt reply would be greatly appreciated.

With best wishes and kind personal regards, I remain,

Yours truly,

Re: Sturgeon Lake Indian Residential School,
Lesser Slave Lake Indian Agency.

In connection with the above I would direct your attention to official letter of January 6, 1942, addressed to Right Reverend U. Langlois, O.M.I., Bishop of Grouard, also to my memorandum of November 16, 1942.

Owing to illness and absence from his Diocese, Bishop Langlois has not previously written to us this year in regard to the new buildings that he is erecting at Sturgeon Lake. However, I am today in receipt of a letter dated August 10, 1943, from Reverend L. Beuglet, O.M.I., Administrator of the Grouard Diocese, in which he states that poor road conditions prevented them from starting construction before mid-July. The construction of one wing of the building is well under way. The foundation has been laid and the walls are being erected and it is hoped to have the exterior of the building completed early in September.

On behalf of the Bishop the Administrator advises that it is now necessary to give consideration to the installation of the heating and electrical systems and he requests authority to proceed with the installation of these systems.

In the letter mentioned in the first paragraph of this memorandum Bishop Langlois was definitely informed that the total amount that the Government would expend at Sturgeon Lake would be \$25,000.00. During the fiscal year 1941-42 we expended an amount of \$5,331.10. During the fiscal year 1942-43 the amount of \$5,450.00 was expended. This makes a total expenditure so far of \$10,781.10. In the current year's appropriation an amount of \$5,500.00 was provided for repairs and improvements at the Sturgeon Lake School and I would, therefore, appreciate your authority to advise Bishop Langlois to proceed with the purchase of the heating and electrical systems, on the understanding that during the current fiscal year the Department can only allow an amount of \$5,500.00.

MP
As you were informed in my memorandum of November 16, 1942, the Bishop was advised that in erecting the school it should be kept in mind that it is not the intention of the Department to increase the pupilage allowed. In view of the contents of official letter of January 6, 1942, and also of the letter just mentioned, I feel that we are fully protecting ourselves.

Mr. R. A. Hoey,
Supt. of Welfare & Training,
Dept. of Mines & Resources,
Indian Affairs Branch,
OTTAWA, ONT.

Dear Mr. Hoey:

Although short of help owing to existing conditions, I may say that the construction of the new Indian School at Sturgeon Lake is progressing favourably. The building is completed exteriorly. The asbestos shingle siding which was used for the outside walls has a very fine appearance. The carpenters are now working inside sheathing the ceilings and walls with gyproc. The plumbing is practically completed, and the boiler is already installed, but the plumbers are waiting for shipment of radiation to complete the heating system.

The contract for plumbing and heating amounts to \$ 12,269.
According to receipts, you will see that I have paid ----- 4,840.93
leaving a balance of ----- \$ 7,428.07
I have also on hand paid accounts for lumber, bricks, cement, gyproc, forming a total of \$5000. Therefore, I would ask you to kindly include in next year's appropriation an amount of \$12,000. to pay the balance of plumbing and heating and other accounts, as stated above.

All the passers-by stop to admire the building and speak of it highly. The personnel and children are anxious to move into it. In fact, it is quite a contrast with the dilapidated building! The Department is to be complimented for the financial assistance given and for the interest manifested in the fostering of this urgent project.

With every good wish and kind personal regards, I remain,

Yours very truly,

L. Beuglet. o.m.s.
Administrator.

Reverend Sir:

I have your letters of the 25th ultimo, enclosing accounts in connection with the expenditure at the Sturgeon Lake Residential School. On checking these accounts it is found that those from the Canadian General Electric Company provide a discount of 1% if the account is paid within ten days. Present regulations require us to take advantage of all discounts. Consequently, as the total of the Canadian General Electric accounts was \$579.01, we have deducted \$5.79, or 1%, making the net amount refundable to you in connection with these Canadian General Electric Company accounts \$573.22. With the addition of the payments you made to the Northern Alberta Railways, J.H. Ashdown Hardware and Lockerbie and Hole Limited, the total we can allow is \$5,494.21, a cheque for which amount will go forward under separate cover to the Canadian Bank of Commerce, Edmonton, Alberta.

I also note from your letters that the total contract for plumbing and heating amounts to \$12,269.00 and that with the payment made this year there is still a balance due that firm of \$7,428.07. I also note that you have additional accounts on hand of \$5,000.00. With regard to your request that the total of these, approximately \$12,000.00, be provided in the appropriation for the fiscal year 1944-45, I regret that at the present time I cannot see how we can provide this amount. However, we will be prepared to make another payment of approximately \$5,500.00. If you submit a request for a payment of approximately

\$5,500.00 about the middle of May, 1944, we can handle the matter at that time. When forwarding a request for this payment you should, of course, attach receipted accounts to this amount.

In connection with repairs and improvements at the Sturgeon Lake School, I would refer you to official letter of January 6, 1942, addressed to Bishop Langlois, and direct your special attention to paragraph 5 of that letter in which it was intimated that the payment by the Department would be spread over a period of four or five years and that the total amount we promised to allow would not exceed \$25,000.00.

CATHOLIC BOARDING SCHOOL AT STURGEON LAKE FINE BUILDING

Review is

Dominating the cluster of buildings on the north end of Sturgeon Lake and the whole country side, stands the Catholic Mission boarding school for girls and sisters, started last year and nearing completion.

Father A. Alac, who built the first Catholic Church at Grande Prairie, is in charge of the Mission and is assisted by Father Giguère.

Sister Saturnine is the Mother Superior who is assisted by ten other Sisters.

There are 85 pupils on the roll, all Indians.

Practically all the work has been done by the Brothers.

The building was designed by Brother Laurin of Montreal, who is in charge of the work. Brother Allie of Quebec City is responsible for the painting; Brother Létourneau of Montreal, for brickwork, Brothers Belcourt and Dumas are also assisting in the construction. Brother Michael Mathis, who has been attached to the Mission for many years, has also made valuable contributions to the construction of this magnificent structure.

The old dormitory, built in 1907, will be later torn down, other buildings moved back, which will allow for more pleasing surroundings.

Description of Building

The building which is 120 x 50 feet is two storeys with a high, full cement basement, and an attic which can later be utilized.

The top floor contains recreation hall for girls, chapel for the Sisters, parlor for visitors, offices and infirmary for boys, parlor for Indian visitors, two dining rooms for Sisters and Fathers, room for those visiting the Sisters, sewing room, medicine room, recreation hall for the Sisters.

The basement contains a large kitchen, 2 dining rooms, one for boys and one for girls; laundry, bakery, store room, dining room for workers, milk room, pantry and steam bath room.

The building will be heated and electrically lighted from a central system located in a fire-proof building.

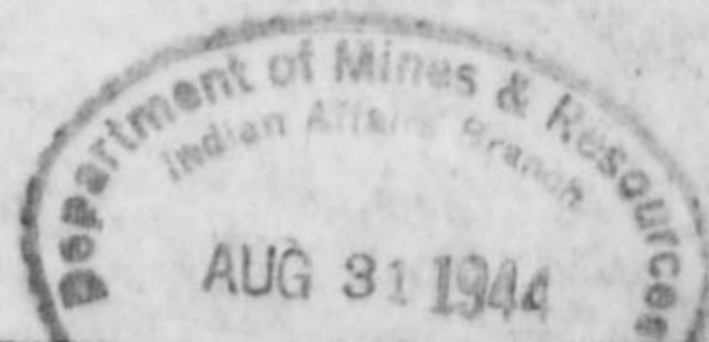

The entrance is artistically designed and in keeping with the general design of the building. The finest fir has been used in the floors.

The predominant colors throughout the building are white, cream and blue.

A good part of the machinery for the construction was carried by the truck of the Grouard Mission. The driver, Brother Gaucher, is also a member of the Oblate Fathers. The gravel, over six hundred yards, used in the building, was hauled from the Little Smoky. The lumber was planed by one of the Brothers at the Wabasca Mission, who came especially for the purpose, with his planer.

The construction of the building has been carried on successfully and rapidly in spite of the fact that the Mission is 60 miles from a railway and wartime conditions, due to the energy and skill of Revd. Father M.I., of Grouard, whose only purpose and desire was to provide for the Indians and children a convenient and suitable building for the

Dear Mr. Phelan:

While in Ottawa last September, I called at your office and explained that the Sturgeon Lake Indian School needed a set of batteries and I gave you all the particulars regarding same. As you can obtain these batteries much cheaper than we can, I asked you to procure them and send me the account which I would refund to the Department. The construction is now completed and the principal is waiting for the batteries to transfer the staff and children from the old building to the new school.

Would you please advise me at your earliest convenience if the batteries were ordered and shipped. I shall appreciate your giving this matter your kind and immediate attention.

Memorandum:

DEPUTY MINISTER

Re: Sturgeon Lake Indian Residential School,
Lesser Slave Lake Indian Agency.

In connection with the above, I would direct your attention to official letter of January 6, 1942, addressed to Right Reverend U. Langlois, O.M.I., Bishop of Grouard, also to memoranda from this office of November 6, 1942, and August 26, 1943.

In the latter memorandum attention was directed to the necessity for the installation of the heating and electrical systems and the Minister granted authority for the expenditure of \$5,500.00 from the appropriation for the fiscal year 1943-44.

In letter of January 6, 1942, addressed to Bishop Langlois, he was definitely informed that the total amount that the Government would expend at Sturgeon Lake would be \$25,000.00. The following expenditures have already been made:

1941-42	\$ 5,331.10
1942-43	5,450.00
1943-44	<u>5,494.21</u>
TOTAL	<u>\$16,275.31</u>

This leaves an amount of \$8,724.69 to bring our total grant to the sum originally promised; namely, \$25,000.00. We have now received a further

account in connection with the reconstruction of this school amounting to \$5,500.00. This amount was included in the current year's appropriation and, as its payment will not exceed the balance of the grant promised, I would appreciate your authority to make this payment.

Dear Father Routhier:

With reference to your telegram of November 30, I enclose copy of purchase order 28038 for the set of batteries which you require at the Sturgeon Lake R.C. Residential School. It would be appreciated if you would forward, at the earliest possible date, a cheque for \$331.52. You will note that in addition there will be the freight charges from Edmonton to High Prairie, which I presume will be paid by the Principal of the school.

Yours truly,

Memorandum:

DEPUTY MINISTER

Re: Sturgeon Lake Indian Residential School,
Lesser Slave Lake Indian Agency.

In connection with the above, I would direct your attention to official letter of January 6, 1942, addressed to Right Reverend U. Langlois, O.M.I., Bishop of Grouard, also to memoranda from this office of November 6, 1942, and August 26, 1943.

In the latter memorandum attention was directed to the necessity for the installation of the heating and electrical systems and the Minister granted authority for the expenditure of \$5,500.00 from the appropriation for the fiscal year 1943-44.

In letter of January 6, 1942, addressed to Bishop Langlois, he was definitely informed that the total amount that the Government would expend at Sturgeon Lake would be \$25,000.00. The following expenditures have already been made:

1941-42	\$ 5,331.10
1942-43	5,450.00
1943-44	<u>5,494.21</u>
TOTAL	<u>\$16,275.31</u>

This leaves an amount of \$8,724.69 to bring our total grant to the sum originally promised; namely, \$25,000.00. We have now received a further

account in connection with the reconstruction of this school amounting to \$5,500.00. This amount was included in the current year's appropriation and, as its payment will not exceed the balance of the grant promised, I would appreciate your authority to make this payment.

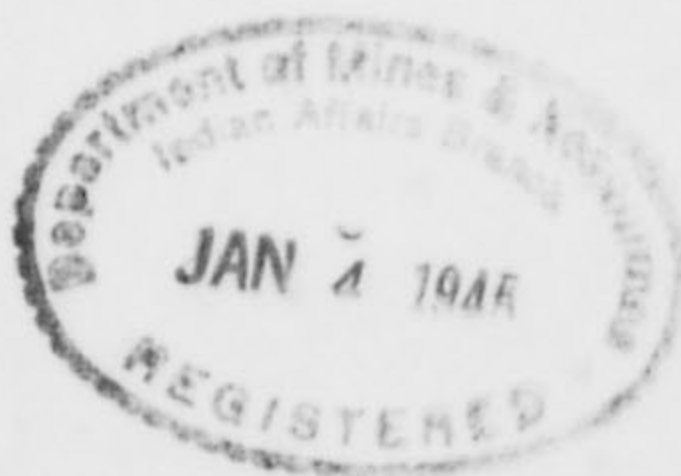

Acting Director.

PP

MR. HOEY -

In reference to the above, it is thought the Minister would like to have now a statement from the church authorities showing the total expenditures that have been made to date on the school building and the amount that will be required to complete it, the above to include the contribution that the church has made to the building so far constructed.

AIR MAIL

Dear Father Beuglet:

In connection with your request for a further payment of \$5,500.00 toward the cost of the erection of the new Sturgeon Lake Indian Residential School, the Department would like to have the following information:

1. What has been the total expenditure on the erection of the new building?
2. Is the building complete and, if not, what amount will be required to complete it?
3. Our records show that we have made the following payments toward the cost of the building:

1941-42	\$ 5,331.10
1942-43	5,450.00
1943-44	<u>5,494.21</u>
TOTAL	<u>\$16,275.31</u>

We would like to know what amount the Oblate Order has already expended toward the cost of this building.

An early reply would be appreciated.

The Secretary,
Indian Affairs Branch,
Ottawa, Ont.

Gentlemen:

In response to your inquiry regarding the cost and present condition of the Sturgeon Lake Residential School to the construction of which you were good enough to contribute a rather large amount, I wish to make the following statement:

- (1) The school has cost to date, that is to January 1st, 1945, \$66,212.82.
- (2) There is still to be done some painting and carpenter work.
- (3) These two items will not cost over \$500.00.
- (4) The furnishing of the school has only cost \$601.32. The reason of this small expenditure is that the furniture of the old school was used for the most part. Of course it must be understood that, when conditions warrant it, the Department will supply such quantities of new furniture as it may be deemed necessary to place this school on a footing equal to that of other Departmental institutions.
- (5) The diocesan authorities have contributed to date \$49,937.51 and the Department \$16,275.31. When the Department has fulfilled its pledge, this latter amount will be increased to about \$25,000.00 unless it is deemed advisable, and justifiable as well, to contribute a larger amount than was at first promised by the Department. This would only be, in our estimation, just and fair as there was a large increase in building costs between the date of the promise made by the Department and the final completion of the building.

The school measures 120 x 50 feet, has two storeys and a full basement. This basement has a 9 feet ceiling, the ground floor 10, and the second story 9. There is moreover an annex for the boiler room which measures 20' x 40', with a 9' ceiling. This

Indian Affairs. (RG 10, Volume 6375, file 765-5, part 3)

would give a total cubage of 175,200 feet. At the low cost of \$0.40 per cubic foot, and we consider this to be a very low price due to the very high cost of transportation between Sturgeon Lake and supply centers, this new school would be worth \$70,080.00.

I am enclosing a photograph taken just before the outside scaffolding was taken down, which gives a fair idea of the size and appearance of the building, but a more up-to-date photograph will shortly be forwarded to you.

Yours truly,

Dear Father Beuglet:

I desire to refer to your letter of the 15th instant and previous correspondence with reference to the payment made by this Branch towards the cost of a new building at Sturgeon Lake.

We have just reviewed very carefully the accounts forwarded under cover of your letter of August 3, 1944. The total shown in your letter was \$5,500.34. As you were previously informed, an amount of \$5,500.00 was provided in the current year's appropriation. The additional amount of 34¢ is very small, but, unfortunately, we will have to confine our total payment to \$5,500.00.

On reviewing the accounts which you submitted, it is found that the following freight receipts were not attached:-

1.	Account of Hayward Lumber Co., Ltd., dated January 4, 1944,	\$22.50	✓
2.	Account of Hayward Lumber Co., Ltd., dated January 11, 1944,	2.75	✓
3.	Hayward Lumber Co., Ltd., January 15, 1944, balance on freight	25.20	✓
4.	Hayward Lumber Co., Ltd., April 12, 1944, Freight	77.69	✓

Dear Father Beuglet:

With reference to your recent visit to the Department, you requested a kitchen range for the Sturgeon Lake Residential School. We have recently purchased the following for another residential school where the enrolment is 130:-

- 1 Kitchen Range (No. L.H. 224-1) (General Steel Wares, Ltd.)
2 oven - high closet - no reservoir,
coal or wood burning.
cooking surface 77" x 31" - left hand fire box
smoke collar 8"
Weight - 1375 lbs.

The above can be secured for slightly under \$200.00.
Please let me know if the type of range mentioned above would suit the Sturgeon Lake School.

Yours sincerely,

Philip Phelan,
Chief, Training Division.

Dear Mr. Phelan,

I have your letter of March 2nd in which you give the description of kitchen range which you suggest for the Sturgeon Lake Indian Residential School. I think that the type of range mentioned in your letter will answer the purpose of the Sturgeon Lake School; I will appreciate it if you will kindly have same shipped at your convenience. Please accept my sincere thanks for the suggestion. Kindly have shipment addressed as follows:

Sturgeon Lake Indian Res. School,
Railway station: High Prairie, Alberta.

While in Edmonton, I sent you a telegram asking you to let me know how matter stands regarding order for 400 sacks of cement for the Wabasca R.C. Indian School for the construction of a root-cellar, but received no reply as yet; if the Department has not ordered same, I would suggest that you permit me to handle the matter so I can hasten delivery before the snow roads go. Apparently it appears as though we will have a early Spring. Therefore, the matter is urgent. You will remember that I discuss this project with you during my recent visit to the Department.

Yours very sincerely,

As far as the kitchen range for the Sturgeon Lake Residential School is concerned, I presume that it will be in order to apply this expense to the year 1945-1946 appropriation. If I remember well, we arrived at that decision together when I was in to see you at your office.

Gentlemen:

I have your letter of the 3rd instant, with reference to a balance of \$25.77 due your firm on your invoice No. 19631.

There was no receipt for the railway charges attached to the account, and consequently this item could not be paid. However, we communicated with Rev. L. Beuglet, O.M.I., Bishop's Residence, McLennan, Alberta, pointing out this fact to him and requesting him to forward you a cheque from school funds. I am certain that Father Beuglet will give this matter his immediate attention, but, in any case, I am forwarding to him a copy of this letter, and if you have not already received the payment, I believe you will have it very soon.

1. This month the residential schools at Calais, Joussard and Whitefish Lake were advised that containers for samples of drinking water would arrive and that bacteriological examination of the water would be done by the Provincial laboratory in Edmonton. The following results have been received to date:

Drilled well - Calis:

The water represented by this sample does not show the presence of organisms indicating unfavorable contamination but gives a high bacterial count for such a deep well which, we think, indicates the entrance of surface water either over the head of the well or down the side of the casing. This should be excluded,

Tap in building - Sturgeon Lake:

The water represented by this sample does not show any bacterial evidence unfavorable contamination.

Results from the other two schools are not yet in.

Reverend Sir:

On March 21st, 1945, we forwarded to you copy of Purchase Order No. 1780 covering new kitchen range for the Sturgeon Lake Indian Residential School. At the time the order was placed, the firm was directed to forward the account to you in order that you could certify it and submit same to this office for payment.

We have not yet received the account although General Steel Wares advise they shipped the range on June 7th. I enclose copy of the account and if the range has been received, you should certify the account and return for payment. If the range has not yet reached you, please let me know.

Yours very truly,

Dear Father Beuglet:

I have your letter of the 25th ultimo, with reference to the voucher which you forwarded for the expenditure in connection with the Sturgeon Lake Residential School.

Our Appropriation for the current fiscal year was voted for only five months previous to the Election, and since the House resumed all the Appropriation has not yet been voted. There may be a delay of a month or so before the payment can be made, but I can assure you I have not lost sight of it, and a cheque will be issued as soon as we can do so.

Yours sincerely,

Philip Phelan,

Gentlemen:

I have your letter of the 20th instant, with reference to invoice of June 7, 1945, covering a range shipped to the Sturgeon Lake Indian Residential School.

In this connection I would refer you to my letter of October 19, in which you were advised that your account 7C 365 includes an item of \$24.65 for transportation charges. Our regulations provide that a receipt must be obtained from the transportation company before payment of this particular item can be made. We have not yet received this receipt and consequently would appreciate your forwarding it as soon as possible. When it arrives I will arrange to have cheque issued immediately.

The other two accounts which you forwarded with your letter of the 20th instant do not pertain to this Branch. Evidently they were shipped to the Storekeeper, Bureau of Mines, 552 Booth Street, Ottawa, and I am sending these accounts to him.

Re: Sturgeon Lake Indian Residential School,
Lesser Slave Lake Indian Agency.

In connection with the above, I would draw your attention to official letter of January 6, 1942, addressed to Right Reverend U. Langlois, O.M.I., Bishop of Grouard, also to memoranda from this office of November 16, 1942, August 26, 1943, December 28, 1944, and January 23, 1945.

In letter of January 6, 1942, addressed to Bishop Langlois, he was informed that the total amount that the Government would expend at Sturgeon Lake would be \$25,000.00. The following expenditures have already been made:-

1941-42	-	\$ 5,331.10
1942-43	-	5,450.00
1943-44	-	5,494.21
1944-45	-	5,499.99
Total	-	\$21,775.30

This leaves an amount of \$3,224.70 to bring our total grant to the sum originally promised, namely, \$25,000.00. We have now received a further account in connection with the reconstruction of this school, amounting to \$5,500.66. This account is supported by receipted accounts from the firms from whom the supplies were purchased.

In the current year's appropriation we have included an amount which will enable us to pay the balance of \$3,224.70, and I would appreciate your authority to make this payment.

Dear Father Beuglet:

I desire to refer to your letter of the 27th ultimo and previous correspondence with reference to the statement you forwarded, showing accounts to the amount of \$5,500.66 in connection with the Sturgeon Lake School.

In letter of January 6, 1942, His Excellency Bishop Langlois was advised that this Department would allow \$25,000.00 towards the cost of the Sturgeon Lake School. We have previously paid the following amounts:-

1941-42	-	\$5,331.10
1942-43	-	5,450.00
1943-44	-	5,494.21

In regard to school attendance, it was found that there were very few who had not voluntarily placed their children in the nearby boarding school, and it was the desire of the Chief that all physically fit children of school age should attend. I explained in some detail the proper procedure and stated that no child should enter a school until it had been examined by a doctor, and found fit to attend. If, in the opinion of the doctor, it was not fit to attend, then nobody at the agency or at the school had any authority to force the child's attendance; and the parents or guardian should receive Family Allowances for such child.

GENERAL

We worked into our itinerary a visit to the Bishop's Palace at McLennan, where it was our good fortune to meet His Lordship, Bishop U. Langlois. His secretary, Rev. L. Beuglet, stated that the new school at Sturgeon Lake had cost \$70,000.00 and wished me to report my impressions of this institution as it was his understanding that the Branch had offered to pay 50% of the cost.

This new school is a very well constructed building. It is modern and well planned; I was particularly impressed with the dormitories. I can quite believe it cost \$70,000.00 since material and labour were higher in War years than previously. I would say that good value was received at that cost.

This school is situated on the shores of a beautiful lake and the Alaska Highway passes between it and the lake. It will attract the attention of tourists from all parts of the World, and it is hoped that the grounds and buildings can always be kept in a good state of repair, and attractive, because the many who will see it will get their impression of our educational institutions from what they see here.

Generalities were the topic of conversation with His Lordship and I left him impressed with the idea that he will co-operate with an open mind on all questions that will arise.

Re: Supplies wanted by the Sturgeon Lake
Indian Residential School, Calais, P.O.

ATTENTION: Mr. P. Phelan.

My dear Mr. Phelan:

The Reverend Mother Superior in charge of the
above school, has requested the following articles for
the classroom and the school children.

It may not be the practice of the Department
to supply some of these, but I hope that you will forward
as many as possible.

- (1) Paint for three classrooms, about 25 gallons,
colour white.
- (2) Rhythm Band pieces for 25 children, including
six mouth organs in key of "C".
- (3) One small typewriter for office use.
- (4) One electric hair clipper. (I consider the
supplying of this, a very essential commodity
in any Indian School.)
- (5) One electric sewing machine.
- (6) Complete softball outfit.

Mr. Doucet bought a certain quantity of carpentry tools for that school but due to the scarcity of some of these tools, the sets are not complete. Would you ask him to buy what is necessary to bring these sets up to standard?

Thanking you in anticipation I remain,

Very truly yours.

Ottawa, January 6, 1942.

My dear Bishop Langlois:

It is my understanding that during your recent visit to Ottawa you discussed with the Chief Executive Assistant the dilapidated and insanitary condition of the Sturgeon Lake Residential School and ways and means whereby in your judgment this school could be reconstructed.

You also discussed with me at the time of your visit the condition of this school and the necessity of certain repairs which were urgently required if the school were to remain in operation.

The condition of the Sturgeon Lake School has been carefully reviewed by the officials and the Minister of this Department on a number of occasions during the last two or three years. In this connection may I refer to the Minister's letter to you, dated August 25, 1941. In this letter the Minister takes the position that in view of war conditions he is not prepared to commit the Government to the rebuilding of the school at Sturgeon Lake. However, we have been greatly disturbed by the statements made by you in respect to the actual condition of the girls' wing of the school and particularly the fire hazards that now exist. We are personally convinced, therefore, that the building should be either reconstructed or abandoned. With the limited funds at our disposal and the building program suspended, the abandonment of the school at this particular time is not in our judgment a practical proposal.

It has been decided, therefore, that steps should be taken toward the reconstruction of the building

and with this object in mind, the Minister is prepared to recommend that an order-in-council be passed, transferring to the Sturgeon Lake School certain unexpended balances of the Grouard, Joussard and Vermilion Schools. These unexpended balances amount to approximately \$5,000. In your conversation with me you intimated that it was of the utmost importance that certain building supplies should go in by winter freight, and it is our hope that the amount of money now re-allocated will enable you to purchase these supplies.

You can readily appreciate how difficult it is for a government to undertake commitments that involve the expenditure of money, other than the amounts actually contained in the appropriations voted annually by Parliament. It is just possible, however, that an amount, approximately equal to the amount spent for repairs at the five schools in your diocese, might during the next four or five years be spent on the reconstruction of the girls' wing. This could only be done, of course, on the understanding that the Church would assume full responsibility for the repairs needed during this period at the other four schools and on the understanding also that the total amount spent by the Government at Sturgeon Lake would not exceed \$25,000. In the course of your interview with me, you intimated that it was the intention of the Church to spend an amount equal to the amount spent by the Government in supplying labour and materials for the reconstruction work at Sturgeon Lake. If I am mistaken in this conclusion, you might state in your reply the extent to which the Church is prepared to contribute to this project.

The plans of the new building, prepared by you and submitted to the Department for consideration a couple of years ago, appear to be satisfactory. In the work of reconstruction every effort should be made to make the building as fireproof as possible. The work will of course be subject to departmental inspection and approval from time to time.

In conclusion, may I refer again to the Minister's letter of August 25, last, in which he referred generally

to the advisability of reviewing our residential school policy in order that the cost of this method of education might be reduced. In approving of the expenditures at Sturgeon Lake it must be understood that we are doing so only because of the general insanitary condition of the building and the acute fire hazards to which I have already referred, and that we must still keep in mind the substitution of day schools for residential schools where local conditions render such action on our part at all possible. It must be understood also that the reconstruction of the Sturgeon Lake School cannot commit the Department in any way to an increase of pupils at the institution at any time in the years immediately ahead of us.

Yours very truly,

Acting Director.

Ottawa, August 25, 1941.

My dear Bishop Langlois,

I have your letter of the 12th instant in which you refer to the Sturgeon Lake Indian Residential School and to the proposal Father Plourde made that the sum of \$6,000 should be taken from the amount that had been allocated in this year's estimates for repairs to your schools in Northern Alberta and used for the purpose of making a start on construction of new buildings at Sturgeon Lake.

I have no hesitation in saying that the matter is one which has given me a great deal of worry and the decision communicated to Father Plourde was reached only after the problem had been considered very thoroughly and from every angle.

I know it is not necessary for me to point out to you the enormous burdens Canada has assumed in connection with our war effort and which will increase as the war continues. The longer it lasts the more serious will be the consequences afterwards. We are now, as you know, spending at the rate of one and a half billion dollars a year for war purposes. In addition we have to provide for the ordinary expense of running the Government machine. Further, we must find funds to assist Great Britain in making purchases in this country to the extent of almost another billion dollars. The providing of these large sums during each year the war continues is a very great task. When the war is over it will be a more difficult one to pay back the money we have borrowed. Undoubtedly there will have to be a very drastic curtailment in all government spending. Many of the privileges that we have enjoyed and the benefits we have received at public expense will be cancelled or reduced. We cannot expect to carry on all our institutions in the same way and on the same scale as we did prior to the outbreak of war. There may have to be changes in many of them, even in those that have been established for a

long time and which, over a period of years, have been considered to be more or less permanent. Therefore we must keep all these things in mind in dealing with problems which though pressing at the moment may involve further expenditures of money.

This brings me to the request you have made that authority should be given to divert funds that have been provided for ordinary repairs to your other schools in Alberta in order that a start can be made on the construction of new and more permanent buildings involving much larger expenditures in the future amounting to approximately \$50,000.

I would not be frank if I did not say that due to the war and what will follow after the war, I think the time has arrived when further consideration will have to be given to the cost of carrying on the present Indian educational system. We must of necessity consider carefully making further capital expenditures on a number of the existing residential schools. I do not wish to suggest that there is not a need for residential schools in connection with the welfare of the Indians, but I think you will agree that that need is greater or less, depending upon where they are situated and the extent to which they provide the necessary educational facilities at a reasonable cost.

There are in the Sturgeon Lake Reserve approximately 350 Indians. The attendance in the Sturgeon Lake School during the past few years has averaged between 80 and 90. With two or three exceptions all of the children come from families belonging to this Reserve. I am informed that the school was started about the year 1912, in which year the grant was \$2,500. In the year 1922-23 the grant had increased to about \$5,600. In the year 1932-33 it had increased to \$11,000. and last year it had increased to nearly \$15,000. Although your church constructed the buildings during this period the Department made considerable annual expenditures for repairs and in 1929 made a grant of \$3,000 towards the cost of construction of a new building. At the same time we have paid the cost of the night watchman.

It would appear, therefore, that, taking into consideration the amount of the per capita grant and amounts paid for annual repairs, text books and school supplies,

the cost so far as the Government is concerned is very close to \$200. per pupil. While this cost includes feeding and clothing the children, it should be kept in mind that the average cost of educating an Indian child in the day schools is about \$45. per annum, which is less than one quarter of the cost. Again, when one compares the cost per pupil in rural white schools in Alberta, which averages about \$60. a year, the question arises as to the extent to which the taxpayers of Canada should be asked to contribute to the cost of educating Indian children in residential schools when the amount is much higher than what they pay for educating their own children. There are, of course, many facts which make a comparison of this kind difficult, due to the fact that a good many of the Indian bands are more or less nomadic in their habits.

However, as I mentioned before, the whole problem is one which will have to be given serious consideration. I think we should explore the possibility of establishing day schools in the Sturgeon Lake Reserve and operating them during the periods in the year when the Indians are on the Reserve.

In conclusion may I say that the Government is very appreciative of the burdens assumed by the churches of all denominations in connection with our Indian educational problem and the contributions, financial and otherwise, that they have made in the past in assisting the Department in carrying out this responsibility.

My dear Bishop Langlois,

I have your letter of the 12th instant in which you refer to the Sturgeon Lake Indian Residential School and to the proposal Father Plourde made that the sum of \$6,000 should be taken from the amount that had been allocated in this year's estimates for repairs to your schools in Northern Alberta and used for the purpose of making a start on construction of new buildings at Sturgeon Lake.

I have no hesitation in saying that the matter is one which has given me a great deal of worry and the decision communicated to Father Plourde was reached only after the problem had been considered very thoroughly and from every angle.

I know it is not necessary for me to point out to you the enormous burdens Canada has assumed in connection with our war effort and which will increase as the war continues. The longer it lasts the more serious will be the consequences afterwards. We are now, as you know, spending at the rate of one and a half billion dollars a year for war purposes. In addition we have to provide for the ordinary expense of running the Government machine. Further, we must find funds to assist Great Britain in making purchases in this country to the extent of almost another billion dollars. The providing of these large sums during each year the war continues is a very great task. When the war is over it will be a more difficult one to pay back the money we have borrowed. Undoubtedly there will have to be a very drastic curtailment in all government spending. Many of the privileges that we have enjoyed and the benefits we have received at public expense will be cancelled or reduced. We cannot expect to carry on all our institutions in the same way and on the same scale as we did prior to the outbreak of war. There may have to be changes in many of them, even in those that have been established for a

Ottawa, January 18, 1945.

The Secretary,
Indian Affairs Branch,
Ottawa, Ont.

Gentlemen:-

In response to your inquiry regarding the cost and present condition of the Sturgeon Lake Residential School to the construction of which you were good enough to contribute a rather large amount, I wish to make the following statement:

(1) The school has cost to date, that is to January 1st, 1945, \$66,212.82.

(2) There is still to be done some painting and carpenter work.

(3) These two items will not cost over \$500.00

(4) The furnishing of the school has only cost \$601.32. The reason of this small expenditure is that the furniture of the old school was used for the most part. Of course it must be understood that, when conditions warrant it, the Department will supply such quantities of new furniture as it may be deemed necessary to place this school on a footing equal to that of other Departmental institutions.

(5) The diocesan authorities have contributed to date \$49,937.51 and the Department \$16,275.31. When the Department has fulfilled its pledge, this latter amount will be increased to about \$25,000.00 unless it is deemed advisable, and justifiable as well, to contribute a larger amount than was at first promised by the Department. This would only be, in our estimation, just and fair as there was a large increase in building costs between the date of the promise made by the Department and the final completion of the building.

The school measures 120 x 50 feet, has two storeys and a full basement. This basement has a 9 feet ceiling, the ground floor 10, and the second storey 9. There is moreover an annex for the boilerroom which measures 20' x 40', with a 9' ceiling. This would give a total cubage of 175,200 feet. At the low cost of \$0.40 per cubic foot, and we consider this to be a very low price due to the very high cost of transportation between Sturgeon Lake and supply centers, this new school would be worth \$70,080.00.

I am enclosing a photograph taken just before the outside scaffolding was taken down, which gives a fair idea of the size and appearance of the building, but a more up-to-date photograph will shortly be forwarded to you.

Yours truly,

(Signed) J.O. Plourde, O.M.I.

Mr. Hoey:

A few days ago Bishop Routhier and Father Plourde discussed with the Minister the request that had previously been made for the Department to share in the additional amount required to complete the Sturgeon Lake Indian Residential School, Alberta. While the Minister did not make any promise, he stated he would be glad to consider the matter again when the time came to approve of the Supplementary Estimates for 1947-48. Will you please bring the matter up for consideration at that time.

Memorandum:DEPUTY MINISTERRe: Sturgeon Lake Residential School.

In memorandum dated March 19th, Mr. Jackson advised this office that the Minister had discussed with Bishop Routhier and Father Plourde, their request for an additional payment towards the cost of the above mentioned school.

In memorandum from this office to the Deputy Minister on January 23rd, 1945, we forwarded a copy of a letter dated January 18th, 1945 from Rev. J.O. Plourde, O.M.I., in which he stated that Sturgeon Lake School had cost the church, to January 1st, 1945, \$66,212.82. The Department had previously contributed an amount of \$25,000.00 towards the cost of the above school. In order to make this payment, the Department reduced the amounts allowed to the other Indian Residential Schools in the Diocese of Grouard.

In Mr. Jackson's memorandum referred to above, it is stated that the Minister wished to consider the matter when our supplementary estimates for 1947-48 were being considered.

I would appreciate it if you would let me know the Minister's wishes with regard to the request for an additional payment towards the cost of the above school.

Re: Reimbursement - \$10,000. for construction at Sturgeon Lake School

I quote from a letter that I addressed to Hon. Mr. J. Allison Glen,
on May 15th, 1946

"You will remember that when I pleaded for an additional grant of \$10,000.00 for the construction of the new Sturgeon Lake School, I stated that a letter from Mr. Hoey mentioned the intention of spending a sum by the Church equal to the amount to be supplied by the Government. This letter of Jan. 6th 1942 of Mr. Hoey to Bishop Langlois runs thus: "In the course of your interview with me, you intimated that it was the intention of the Church to spend an amount equal to the amount spent by the Government in supplying labour and material for the construction work at Sturgeon Lake". You must have this on file. You must well realize that the building of this school was a Government responsibility and that if the Church after pleading for years before the war and during the war finally consented to pay for this construction it was because the state of the old building created a constant threat to the health not to mention the comfort of the children and staff. Perhaps Mr. Jackson does not realize this sufficiently. In my mind for years previous to the war, the Department of Indian Affairs did not attend sufficiently to its duty of providing itself the schools in practically the whole of Northern Canada, and had it not been for the Churches no schools would have been built. In the present case of the Sturgeon Lake School, because through no fault of ours we had to spend a sum of \$50,000.00 Mr. Jackson tells us that we have no basis on which to claim any additional help because we have spent more. It appears to me that a sympathetic understanding of the case would of itself suggest that help, when we in the first place gave far more for the School than was our bounden duty because the Department could not then build. Would you therefore be good enough to reconsider your attitude, and let me know your decision."

I fear that my arguments were not brought out in a sufficiently clear light and I would be extremely anxious that next year the reasonableness of our plea be stressed and the very heavy burden that was unduly placed upon our shoulders be lightened by reimbursing our Episcopal Corporation.

With kind regards to yourself and the other members of your Department, I remain.

Mr. B.F. Neary,
Supt. of Welfare & Training,
Dept. of Indian Affairs,
Ottawa, Canada.

Dear Mr. Neary,

Re purchase of Bake Oven for the Sturgeon Lake
Residential School.

The Sturgeon Lake Residential School, being interested in obtaining a Bake Oven having a capacity of 72 loaves, I enclose herewith a copy of Brantford oven catalogue and you will see illustrated on page five the Brantford two deck portable oven, either coal or wood fired, having a capacity of the size wanted. Enclosed also a letter from the Brantford Oven & Rack Company, quoting a price of \$629.00 f.o.b. their factory.

In your letter, file 131-9-5 (WT), dated June 6th, 1947, you advised that the amount of \$350.00 has been provided in the current year's appropriation for the purchase of a dough mixer and Bake Oven.

I fail to understand how both a dough mixer and bake oven can be bought for the amount of \$350.00, when a bake oven alone having the required capacity will cost \$629.00, f.o.b. the factory. I feel assured that the matter of the cost of this equipment was not given careful consideration. Will you please advise how the Department can reconcile the amount of \$350. which was provided for this expenditure with the cost of the equipment.

However, I wish to reiterate that the size of Bake Oven required at the Sturgeon Lake Res. School is a 72 loaves capacity and I would recommend the No. 2 Oven, offered by the Brantford Oven & Rack Company. As the Company states that the approximate delivery on this oven would be three months, it is hoped that the Purchasing Department will attend to this matter as soon as possible.

Memorandum:

DEPUTY MINISTER

EX'D.

Re: Sturgeon Lake Indian Residential School

This is a church-owned school and in the current year's appropriation we provided an amount of \$3,000. for a new root house.

Following the usual custom, the school management has constructed a root cellar and they advise that the work has been well done. Incidentally, they also advise that they raised sufficient vegetables to fill the root house and consequently these vegetables will be available for food for the children during the current winter.

They forwarded the attached accounts amounting to \$3,314.79. Of this amount, \$882.60 covers labour and the balance (\$2,432.19) covers the cost of materials and transportation of same. All accounts have been paid.

We have already obtained an Order in Council (see P.C. 65/4200 of October 18, 1947) authorizing payments of amounts provided in Vote 182.

I would appreciate having your authority to forward to the Episcopal Corporation of Grouard payment of \$3,000. on this account. This is the amount provided in the current year's appropriation as mentioned above.

Re: Purchase Order #24189

We received your letter of January 22nd in which you stated that the bake oven ordered on the above requisition would not be shipped until about April 26th.

As previously stated, we wish to pay for this bake oven, if at all possible, from our current year's appropriation and our fiscal year ends on March 31st. Unless the bake oven is shipped before that date, payment cannot be made from this year's appropriation.

In spite of the information given in your letter of January 22nd, we are writing you again in the hope that you can arrange shipment before the end of this month.

Yours sincerely,

Re: Sturgeon Lake.

At Sturgeon Lake, a new cow and horse barn is required to replace the old dilapidated log one which threatens to cave in. It is the intention of the Principal to build this new barn in 1949. If \$2000.00 were available immediately from the 1948-49 appropriation the lumber could be bought this fall so that construction of the building may begin early in the spring of 1949, and a further amount made available from the estimates of 1948-49 to carry out the project.

I believe, Mr. Neary, that the above requisitions are legitimate and trust that you will give them your very careful consideration.

Dear Mr. Neary:

30m. With reference to your letter of September 18th,
file 131-6-5 (E.1) re: construction of barn at the Sturgeon Lake
Residential School, I wish to advise that last fall I was able to
purchase locally a quantity of spruce lumber at the reasonable price
of \$50.00 per M. F.O.B. School
Would it be in order for me to have some of this lumber
delivered to the Sturgeon Lake Residential School for the amount of \$2000.00
which was provided for this project, and send you invoice for same?

With cordial greetings for a MERRY CHRISTMAS and a

HAPPY NEW YEAR.

Yours sincerely,

Rev. L. Beuglet, O.M.I.

You no doubt have on file a letter from
the Superintendent of Education, addressed to Mr. Landry,
file 131-6-6 (E.) and dated April 19th, 1948, in which
reference is made to the poor lighting facilities in the
classrooms in the above school. We are now in receipt of
a letter from Dr. E. L. Stone, copy of which is attached
hereto and is self-explanatory.

Will you please carry out the improve-

Re: Lighting - Sturgeon Lake Residential School

Reference is made to your letter of March 3rd, file 765-5 (E.1) regarding the cost of carrying out the improvements suggested by Dr. E.L. Stone to the lighting in the classrooms of the Sturgeon Lake Residential School.

The Vanderaegen Hardware of High Prairie will supply fifteen opalescent glass shades and fifteen 60 Watt bulbs for a total of \$54.75, prices subject to change without notice.

Mr. A. Engbretson, a local electrician, stated today that, considering the fact that Sturgeon Lake is sixty miles from High Prairie, the cost of installation of the fifteen shades would be \$25.00. Therefore the total cost of carrying out the improvements would be approximately \$80.00.

Reverend Father Roue, Principal of the School, has informed me that the capacity of the power plant at the school is very limited and that it is doubtful if the increased load could be carried should 60 Watt bulbs be installed. Father Roue states also that the teachers plan the work so that activities that do not strain the eyes are used when the classrooms are insufficiently lighted.

We have your letter of the 10th instant regarding the improvements suggested by Dr. E.L. Stone to the lighting in the classrooms of the Sturgeon Lake Indian Residential School.

In view of the contents of the last paragraph of your letter, it is felt that it would not be to much advantage in supplying the extra lamps recommended by Dr. Stone. However, you should discuss the matter again with the Reverend Principal, and if you ascertain that the increased load can be carried by the present power plant, authority is granted for an expenditure not exceeding \$80.00.

Re: Barn for the Sturgeon Lake I.R.S.

Dear Mr Phelan:

I had occasion about a week ago to mention to you the necessity of building a new barn at the Sturgeon Lake Indian Residential School.

You stated that you would forward immediately 600 sacks of cement and asked me to write to the Principal about the quantity of lumber needed and for an estimate of the cost of labor.

For a building 106' long by 36' wide, large enough for 20 cows, 1 sire, 4 calf stalls, 4 teams of horses and possibly a legume compartment, the lumber needed exclusive of that which the school has on hand, will be as follows:

62 ft. 2 x 10 x 14	
124 ft. 2 x 10 x 12	
100 ft. 2 x 10 x 16.....	6270 ft.
450 ft. 2 x 6 x 14.....	6188 ft
Shiplap.....	23000 ft

Total 35458 ft.

The above lumber can be supplied by Mr. John Tingstad of Valleyview Alta., for the price of \$50.00 per 1000 ft including sales tax and delivery to the school.

The labor for the above will cost \$1440.
This estimate is based on 40 working days for 6 carpenters

Indian Affairs. (RG 10, Volume 6375, file 765-5, part 3)

who have agreed to work for \$6.00 a day. This estimate is within the \$4000.00 which I am told can now be used for this project. The building will not be fully completed, but there will only be the cement floor and installations of stalls for the sire and calves which can be completed when the balance of the amount has been voted by your department.

I therefore hope that you will be able to authorize the purchase of the lumber immediately so that the work can be proceeded with during the holydays. We are giving you the name of Mr. Tingstad as a possible source for the lumber supply but you are at liberty to buy it from other merchants if you so desire.

Yours sincerely,

Dear Sir:

I wish to thank you very sincerely for the grant in favour of our school toward the construction of a barn. This construction was necessary and for a good many years we intended to have it built, but the finances of the school did not permit to realize our project. Now thanks to the Department we can start to build. The cement and lumber have already been received. There is something that we still need before we can start building, it is a supply of nails. We have tried everywhere in Edmonton and so far have not been able to get any. They tell us might have some in a month but nothing definite. Would you be willing to buy what we need through your purchasing Agent, as undoubtedly he has more chance than we have to secure this item. If you decide that we should pay the cost of nails we are quite willing to do so as long as we get them, and I hope it would not take too long. Enclosed is a list of nails required for the construction.

With sincere thanks

Yours very truly,

N. Roue

Re: Diesel Engine and Batteries for the
Sturgeon Lake Indian Residential School.

Dear Mr. Phelan:

The above school is very much in need of a new engine and new set of batteries. I saw their present equipment when I had occasion to visit their school last September. I found it so inadequate that I doubt very much if it will last over the winter.

If there is not sufficient funds standing to the credit of the school, would you authorize His Excellency Bishop Routhier to advance the money for this purchase? The Department might reimburse His Excellency when the Indian estimates for 1950-51 have been approved by Parliament.

Thanking you in anticipation, I remain,

J.O. Plourde O.M.I.

Re: Sturgeon Lake Indian Residential School

Reference is made to previous correspondence regarding
lighting in the classrooms at the Sturgeon Lake Residential School,
your file 765-5 (E.1).

Mr. J.R.S. Hambly, Inspector of Schools, Grande Prairie,
has again stated that the lighting facilities in the classrooms
in the Sturgeon Lake School are completely inadequate and that
there will almost certainly be serious damage to the children's
eyes if the lighting is not improved.

*around

time*

Reverend N. Roue, principal of the school has informed
me that the capacity of his present lighting plant is only
3 KWH and that it is much too small to light the buildings at the
school. Father Roue would be willing to install one of the two
large A.C. Diesel plants which will not be needed at the Wabasca
C.E. Residential School. I therefore recommend that one of the
plants be moved from Wabasca to Sturgeon Lake immediately so that
the classrooms may be properly lighted.

It would also be necessary to supply the Sturgeon Lake
school with a small A.C. plant of about 3 KWH capacity for use
at night when little power is needed.

Dear Sir:

Your letter of November 16th was only handed to me this morning, in connection with an error on our Invoice dated October 5th, for paint shipped to the Sturgeon Lake Indian Residential School.

The third item on the account which read:

1 Gal. Moore's Semi gloss White \$ 4.40

Should have read

10 Gals. Moore's Semi Gloss White @ 4.40 \$ 44.00

Our extension was right and our error was a typographical one, and as you have passed the order for payment, we are enclosing herewith an additional invoice for \$ 39.60 which we trust you will find in order and arrange to pass for payment at your early convenience.

Very truly yours,

Re: Sturgeon Lake Residential School

Reference is made to your letter of February 23rd, 1949, file 131-4B-2 and to our letter of November 7th, file 131-4-2.

Mr. J.R.S. Hambly, Inspector of Schools, Grande Prairie, has again brought to my attention the fact that the lighting facilities in the classrooms in the Sturgeon Lake School are completely inadequate and that there will almost certainly be serious damage to the children's eyes if the lighting is not improved.

When I visited the school on November 22nd I asked Reverend N. Roue, Principal, if his present lighting plant had sufficient capacity to allow installation of more lights and larger bulbs in the classrooms. He stated that the lighting plant is in very poor condition and that it has insufficient capacity as it is rated at only 3 KWH. Since the Sturgeon Lake school has several buildings the lighting plant at best was completely inadequate.

I asked Father Roue if he would be interested in an A.C. diesel plant such as those at the Wabasca C.E. School. After studying his needs Father Roue came to see me today and stated that he would be in favour of installing such a plant. Therefore I strongly recommend that one of the two plants at the Wabasca C.E. School be brought to Sturgeon Lake and installed immediately.

A small A.C. diesel plant of about 3 KWH capacity should be purchased for the Sturgeon Lake school for use at night when little power is needed.

Re: Sturgeon Lake Residential School.

I Am attaching copy of a letter received from Mr. Lapp which brings up the question of the lighting in the above school. On a previous occasion the Superintendent of Indian Health Services commented on the poor lighting facilities in this school.

Apparently there are two identical power plants in the new dormitory block at the Wabasca Church of England School. They are powered by D6 International Diesel Motors which apparently consume considerable fuel and hence are considered too expensive to operate during the evenings. Also since the residence recently erected for our assistant at Wabasca is dependent upon the school plant for electricity, this residence is likely to be without light during the evening hours because the school plant will be too expensive to operate continually.

It is assumed that the two identical plants were provided at Wabasca so that power would always be available should one of the machines break down. Mr. Lapp suggests the following to remedy conditions existing at Sturgeon Lake and Wabasca:

1. Transfer one of the D6 units from Wabasca to Sturgeon Lake to improve lighting facilities at Sturgeon Lake; the present plant does not supply sufficient power.

2. Purchase a small 3 K.W.H. plant to replace the large unit taken from Wabasca. This small plant could be operated at night and assure power for the assistant agent's residence and the school, should the large one break down.

Mr. Lapp also suggests that we purchase a small unit for Sturgeon Lake but I do not consider this necessary because they can continue to use the old unit when needed.

I believe you are familiar with the type of plants supplied to these schools and if the arrangement is satisfactory to you and the funds are available, I recommend the purchase of the small unit for Wabasca and the transfer of one of the large units to Sturgeon Lake. You realize of course, that the Sturgeon Lake School is a church owned building.

I am sending a copy of this letter to Mr. Pratt as he will be interested in it so far as it concerns the assistant agent's residence at Wabasca.

If shipment of this equipment can be carried out now, we would be taking advantage of the lower winter freight rates.

Dear Mr. Phelan:

Enclosed please find returns of labour
in the amount of \$1693.15. These have all been paid and I
hope that you will be able to have a cheque issued to the
Principal as soon as possible.

In a letter accompanying these returns, Father Roué
says that the barn is completely finished with the exception
of laying of the roofing materials which you have not yet
sent him, and the cement flooring.

As soon as the weather allows it and the balance of
the materials arrived, Father Roué intends to proceed with
the work.

Thanking you in anticipation, I remain,

Sir:

I have your letter of the 13th instant, enclosing applications and certificates of health for the admission of eight children to the Sturgeon Lake (St. Francis Xavier) Indian Residential School. The admission of the following is approved:

Bertha Tchowis	Albert Moosoos
Bella Papastesis	Geo. G. Martineau
John F. Goodswimmer	Napoleon Mustus
Nicolas Baptiste	Francois C. Sauteau.

Regarding the applications which you forwarded for two half-breed children, Leo Bellecourt and Joseph Island, I have to say it is noted that these boys have been living the Indian mode of life with their parents on the reserve. Please state why they are living on a reserve and also the name of the reserve on which they reside. The admission of these boys will be withheld until we have further information regarding their case. I would point out that this Department is not responsible for the education of half-breeds, although an exception is made where the parents have been allowed to reside on a reserve and when living the Indian mode of life thereon.

The Department will approve of the discharge of the following pupils for the reasons stated:

No. 081 - Alice Awasis,
No. 0104 - Agnes Awasis,
No. 0106 - Elsie Standing Ribbon
No. 0107 - Bella Tchowis.

The death of pupils Nos. 129, Narcisse Tchowis, and 0108, Emma Musus, is regretted.

Sir,-

With reference to your letter of the 28th. ultimo No. 131-6-10 regarding the application for two half-breed children, Leo Bellecourt and Joseph Island for admission to the St. Francis Xavier's School at Sturgeon Lake Calais, Alta.

To my knowledge, the parents of these children are not living on Sturgeon Lake Reserve but are living the Indian mode of life in the vicinity of the Reserve, and as they are destitute and living too far from other schools, the Mission has given these two children board and schooling for two years now.

Sir,

Replying to your letter of the 1st inst., No. 131-6-10, I beg to inform you that the discharge of A. Mestanask, - No. 154 - Sturgeon Lake Indian Residential School is not recommended by the Principal.

The name of this pupil was dropped from the March quarter return through a mistake in compiling the list. When the return was made out, official approval of his admission had not been received yet, although the child had been attending school since October.

The admission of this pupil as grant-earning having later been approved, I have informed the Reverend Principal to have the name restored on the June quarter return and mention made on it that the grant claimed for covers the period January 1st to June 30th.

Should my instructions to the Principal not meet with your approval, I pray you to notify me in due course, specifying the proper procedure to be followed in the case.

Sir:

I beg to bring to your attention that I have just had a letter from the St. Francis-Xavier Indian Boarding School at Sturgeon Lake, Calais P. O., submitting the following:

That there are six girls in Grade VIII and two in lower grades who are nearly 16 years of age, and this will probably be their last year in school. The Sister Superior has suggested that instead of keeping the above-mentioned girls in the classroom all the time, they be kept out of the classroom the greater part of the day and receive added training in household science, such as cooking, sewing, &c. Personally I think this is an excellent idea, but before replying to the Sister Superior, I shall be glad to have the Department's opinion in the matter.

Sir:

With reference to your 405-11A.R.O. of the 17th instant, I beg to say that the Department approves of the Principal of the Sturgeon Lake Indian Residential School keeping the eight girls mentioned in your letter out of the classroom during the academic year 1934-35 in order that they may receive more training in household science. It is noted that all of these girls are about 16 years of age and that this will likely be their last year in school.

Dear Mr. L'Heureux,

I wish to make application for two poor children, Michael and Albert Ministikwabiskus. They are two bright intelligent boys of 11 and 8 years old. The family is unable to provide any education for them on account of their extreme poverty and I am hoping that the Government would accept them on the ordinary school grant.

Hoping to receive a favourable reply,

I am, dear Sir,

Yours most sincerely,

Dear Sir:-

As you are probably aware my step-daughter
Mary Rose Hoesky is still in Treaty.

I am contemplating a move to Fort Vermillion
next summer and shall naturally be obliged
to take her with me where she could continue
her studies at the Mission there.

Under the circumstances I see no advantage
in the girl remaining a charge on the Government
when I am well able to provide for her.

I should therefore be obliged if you would take
the necessary steps to have the girl's name taken
from the Treaty list. She is nearly sixteen years
of age and was originally placed in Treaty because
her father was unable to provide for her.

Dear Sir,

I beg to submit herewith applications for the admission in Sturgeon Lake Indian Residential School of Julie, Margaret, Alfred and Thomas Gaucher, children of halfbreed Henry Gaucher of the Sturgeon Lake District.

The father of these children has made an application to join in the membership of the Sturgeon Lake Band of Indians. I have information that the Band is to pass the necessary resolution at their next meeting which resolution will then be passed on to the Department for a decision.

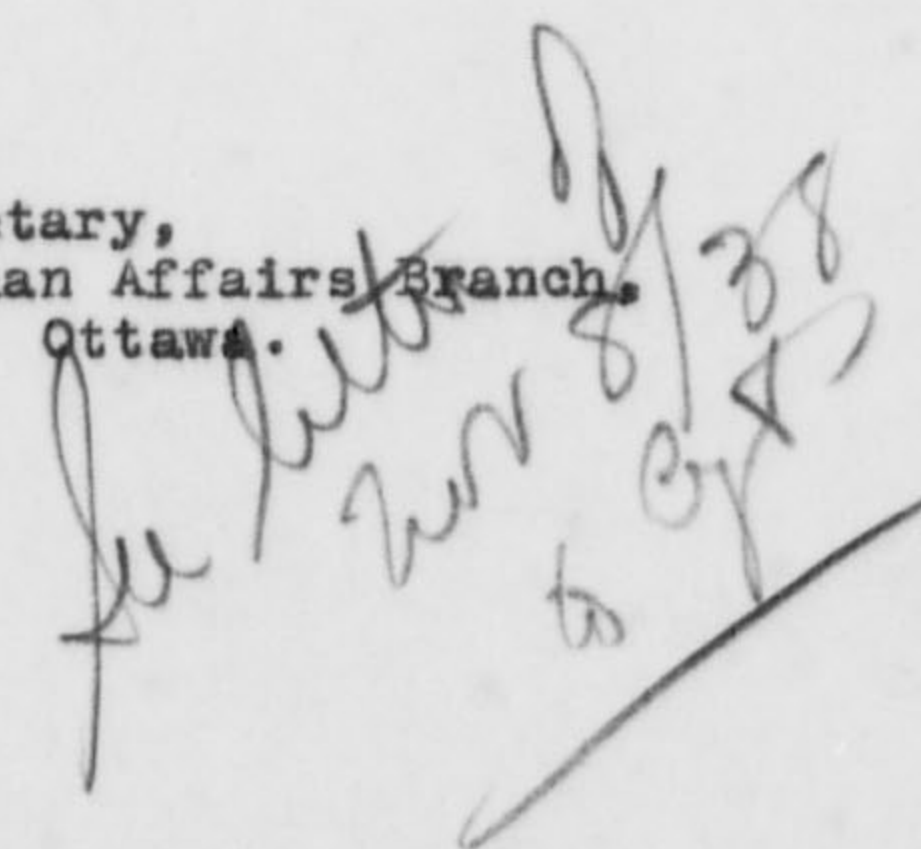

In the meantime these children will be in school and the Principal has made a request that they be grant earning. As this family resides on an Indian Reserve and since they live the Indian mode of life, I would recommend their admission.

Yours faithfully,

N. P. L'Heureux,

Driftpile, Alberta,
October 21st, 1938.

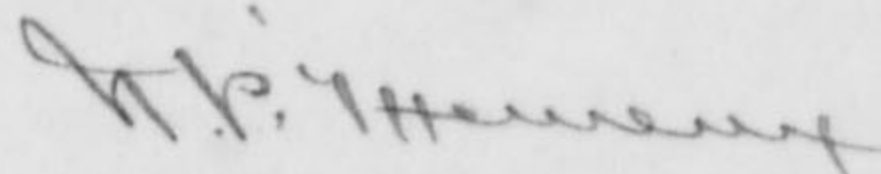

Dear Sir,

Herewith the application of Mrs. Elise Badger, No. 35 Sturgeon Lake Band, widow of Alex Badger, halfbreed, for the admission in the Sturgeon Lake Indian Residential School of her children Maria Clarisse and Noel.

The Principal writes: " These children whose mother is paid under No. 35 at Sturgeon Lake, lost their father who died last summer. The mother is unable to support ~~their~~ children; consequently she has made application for their admission in this school. These children have no disease which would make them unsuitable candidates for admission. Moreover, it is the opinion of the Doctor, that these children should be kept away from home and from their older brother, 19 years old, who suffers from pulmonary tuberculosis and is a real danger to the children. The family has always followed the Indian mode of life and since the father's death, has resided on the Reserve."

In view of the above I would recommend their admission as grant earning pupils.

Yours faithfully,

N. P. L'Heureux,
Indian Agent.

The Secretary,
Indian Affairs Branch,
OTTAWA.

INDIAN AFFAIRS BRANCH

PLEASE QUOTE
FILE 5-120

Driftpile, Alberta,
October 21st, 1938.

Dear Sir,

I beg to enclose herewith application for the admission of a halfbreed child, Lucy Noskiye, aged 9, the daughter of a treaty Indian woman, Marian Noskiye, No. 72, Sturgeon Lake Band.

The Principal of the Sturgeon Lake R.C. Residential School has written:

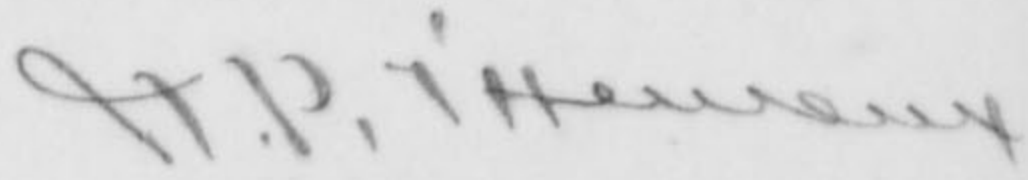

"The parents of this child, whose mother is paid under No. 72 Sturgeon Lake, are living apart; the mother being with another man. The child has been left with her father who cannot take care of her properly. Consequently she must be considered as a neglected child. Her father has put her at the Mission after his wife left him and made application for her admission at Sturgeon Lake Indian Residential School and whom I could only accept as a grant earning pupil. The family has always followed the Indian mode of life.

Sgd: H. Fournier, Principal."

I also have the information that the above child is a sister of 0154, Delphine Kiyawasew, aged 12, a grant-earning pupil in the same school. I also have been informed that the mother of this child has left her home to go and live with another halfbreed named Badger. The application by Alfred Noskiye has been made at the request of Headman Pierre Baptist of Sturgeon Lake Band.

In view of the facts submitted I will recommend to the Department to admit the child as a grant-earning pupil in Sturgeon Lake R. C. Residential School.

Yours faithfully,

N. P. L'Heureux,
Indian Agent.

The Secretary,
Indian Affairs Branch,

Dear Sir:

I desire to acknowledge the receipt of your letter of the 21st ultimo applying for the admission of Maria and Joseph Badger to the Sturgeon Lake Residential School. According to the ruling contained in official letter of December 10, 1937, copy of which is enclosed, it would not appear that these children are eligible for admission as grant earning pupils and at the present time the Department is not prepared to allow grant for them. You might let me have further information regarding Alex Badger stating where he resided while living.

As you are aware there have been numerous applications for the admission of halfbreeds to the Sturgeon Lake School. The Department does not understand why the Principal does not concentrate his recruiting efforts among the treaty Indian children. Copies of the recent ruling regarding halfbreeds were forwarded to all Indian Agents and all Principals of schools last December. You are being forwarded additional copies at this time. You should again point out to the Principals that they must conform strictly with the rulings regarding halfbreeds

Dear Sir:

With reference to your letter of the 21st ultimo you may inform the Principal of the Sturgeon Lake Residential School that the admission of the following children is approved:

Norman Susus
Eve Standing Ribbon
Collin Sauteux
William J. Nabew
Julien Goodswimmer
Daniel Goodswimmer
Iva Tchawis

Collin Mitchell
Louis Manitos
Jimmie Larocque
Frank Larocque
Sophie Kiyawasew
Gabriel Kiyawasew

With regard to the application for Lucy Noskiye it is noted that she is a halfbreed. Under the terms of the ruling dated December 10, 1937, a copy of which is enclosed, it is not considered that this girl is eligible for admission as a grant earning pupil to an Indian Residential School. You might, however, let me know whether her father, Alfred Noskiye, is an Indian or a white man. You state that this girl is a sister of Delphine Kiyawasew, No. 0154. The original application form for this latter girl which was forwarded to the Department under cover of your letter of October 19, 1932, stated that her father was Pierre Kahawahsoo, No. 24 of the Sturgeon Lake Band. If the information given at that time was correct Delphine would be eligible for admission. Please let me know if Mary Noskiye, mother of Lucy Noskiye, was previously married to Pierre Kahawahsoo.

Dear Sir:

I desire to refer to your letter of the 21st ultimo enclosing applications and certificates of health for the admission of the 3 children of Henry Gaucher to the Sturgeon Lake Indian Residential School.

In view of the ruling contained in official letter of December 10, 1937, copies of which are enclosed, these children are not eligible for admission to an Indian Residential School.

If, at a later date, the Department approves the admission of Henry Gaucher and his family to the Sturgeon Lake Band another application may then be made for their admission. In the meantime it will not be possible for the Department to allow per capita grant for them.

Driftpile, Alta.

Cher Monsieur;

Veillez avoir l'amabilité de soumettre au Département des Indiens
ma demande d'autorisation de garder à l'école les trois enfants dont les
noms suivent:

Mary Musus. No. 0126.

Florence Kiyawasew. No. 0135.

Sarah Kiyawasew. No. 0142.

La raison qui me fait demander l'autorisation de garder ces jeunes filles
à l'école, bien qu'elles aient atteint 16 ans est la même pour les trois;
c'est qu'elles sont en danger au point de vue moral dans leur familles,
deux d'entre elles ont même du venir se réfugier à l'école pendant les vacances
pour échapper à la mauvaise influence de leur entourage; la troisième,
Sarah Kiyawasew, étant orpheline de mère ne serait pas non plus en sûreté chez
son père et n'a pas d'autre place où être reçue.

Recevez, Cher Monsieur, l'assurance de mes sentiments distingués.

H. Fournier. O.M.I., Principal.

Sir,

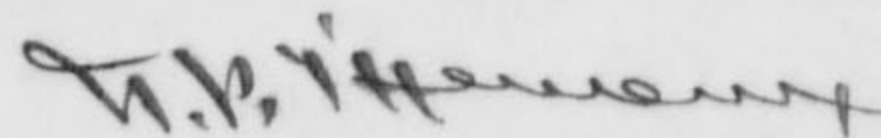

I beg to enclose herewith original of letter from the Principal of Sturgeon Lake Indian Residential School requesting that the three following pupils, who have reached the age of 16 years, be allowed to remain in the school as grant-earning pupils for a further period:

No. 0126 - Mary Musus
No. 0135 - Florence Kiyawasew
No. 0142 - Sarah Kiyawasew.

The reasons given for this request are that the first two girls are morally endangered if allowed to go in their families and similarly for the third one who is orphaned of her mother.

I recommend their remaining in school until they attain the age of 18.

Yours faithfully,

N. P. L'Heureux,
Indian Agent.

Dear Sir:

With reference to your letter of the 9th instant the Department approves the under-mentioned pupils remaining in the Sturgeon Lake Residential School for another year:

No. 0126 Mary Musus
" 0135 Florence Kiyawasew
" 0142 Sarah Kiyawasew

If at the end of that time it is considered advisable by the school management for these girls to remain for a further period another application should be forwarded.

Yours truly,

Philip Phelan,

Sturgeon Lake Ind. Res. School, Calais, Alta.

January 8th. 1939.

Statement of Lucy Noskiye.

The parents of this child, whose mother, Mary Noskiye, is paid under No. 72, at Sturgeon Lake, are living apart; the mother being with another man. The child has been placed by her father, Alfred Noskiye, a non-treaty Indian at the Sturgeon Lake Ind. Res. School, as he could not take care of her properly, after his wife left him. This family has never owned any property whatsoever and has always lived an Indian mode of life. Alfred Noskiye has made application for his daughter's admission at the Sturgeon Lake Ind. Res. School, as a grant earning pupil, last October. This admission has been ~~deferred~~ deferred by the Department, till new information be given about Alfred Noskiye and Delphine Kiyawasew #0154.

The information, about the former, is given above.

Delphine Kiyawasew #0154 has been reported as daughter of Mary Noskiye and sister of Lucy Noskiye. This statement is right. She is also a daughter of Alfred Noskiye, but has been adopted by Pierre Kiyawasew No. 24 of the Sturgeon Lake band. It is a known fact that some old people adopt children of their relatives, whether treaty or non-treaty. Such is the case for ~~Delphine~~ Delphine, a daughter of Alfred Noskiye and Mary Noskiye, who has been adopted by Pierre Kiyawasew, previous to her admission at the Sturgeon Lake Ind. Res. School.

It follows that Mary Noskiye, mother of both children, has never been married to Pierre Kiyawasew.

In regards of school we have send our children
in those boarding schools, a place called Sturgeon Landing.
I do not believe in that, as we are so far away from it and
there is times our children takes sick and die and we don't
see them further more they dont seem to pick up in their
learning. I would sooner have a day school in my
reserve where we could look after our own children also
a nurse who understand medicine and who can look after
the people in this reserve.

October 4th. 1939.

Statement of Marie, Lucy Martineau.

This child, 3 years old, was brought by her father Elzear Martineau, to the Joussard Ind. School, when his wife died last summer.

whereas:

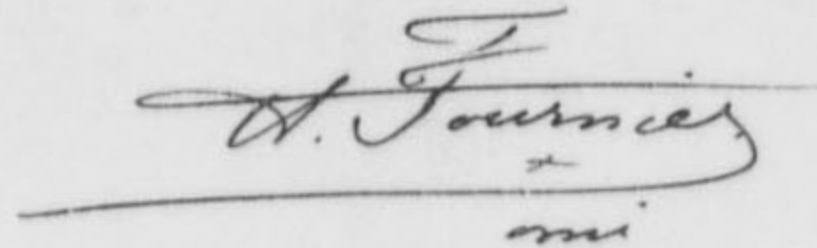

The father is unable to care properly for that child,
No suitable home has been found for her,
No room was available at the Joussard Indian School,
All the children of this family have been raised at the Sturgeon Lake Ind. School, and live actually on the Sturgeon Lake Reserve,

The Principal of the Joussard Indian School, has sent the child to the Sturgeon Lake School, with the consent of her father.

I, therefore, send an application to the Indian Department, for admission of Marie Lucy Martineau at the Sturgeon Lake Indian School as a grant earning pupil.

The reason why the signature of the father does not appear on the application is obvious, as this man does not live on the Sturgeon Lake Reserve, but on the Sucker Creek Reserve, 80 miles away.

Dear Sir,

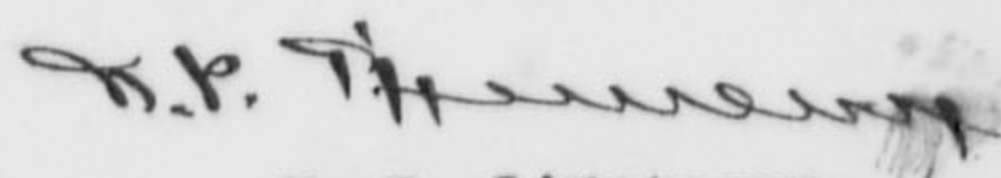

With reference to the application for the admission of Marie Lucy Martineau, aged 3, to Sturgeon Lake Indian Residential School.

This child's mother dies last August and it has to be admitted that the father is unable to care for her. Up to the present I have found no recommendable families willing to adopt the girl and except for the offer of the Sturgeon Lake Residential School, there is no prospect of my being able to place her with a reliable family before the winter.

I am therefore recommending that she be placed in the Sturgeon Lake School but not under the school "per diem" grant; her age would not permit her to attend to the classroom. Rather a monthly grant of \$7.50 monthly, payable every quarter, should be paid to the Mission from Vote 75, allotment 946: Maintenance of aged and indigent Indians, and this is recommended.

If this girl can ^{eventually} be placed in a family at a cheaper rate, the matter will be submitted to you again.

Yours very truly,

N. P. L'Heureux,
Indian Agent.

Dear Sir,

The Principal of Rturgeon Lake Indian Residential school requests permission to keep at his school for another year the following pupils who are of age to be discharged:-

0126 - Mary Musus, aged 17, Treaty #42,
0140 - Nancy Mikustikwan, aged 16, Treaty #16
0142 - Sarah Kiyawasew, aged 16, Treaty #67.

He states: "These three young girls have no mother and their stepmothers are not very recommendable and are certainly not qualified to keep these young girls."

I am aware that the women referred to, have in the past, at one period or another, led an immoral life and I concur with the principal in recommending that the pupils mentioned be kept in school for another year.

Dear Sir:

In view of the information contained in your letter of the 20th instant you may inform the Principal of the Sturgeon Lake residential school that the under-mentioned pupils may remain in the school until the end of the current academic year; namely, June 30 next:

No. 0126 Mary Musus
" 0140 Nancy Mikustikwan
" 0142 Sarah Kiyawasew

If at that time it is desired to retain any of these three pupils for a further period permission must be requested.

In connection with the September quarter return of this school you may inform the Principal that the discharge of the following pupils is approved:

Dear Sir:

I am in receipt of your letter of the 19th instant with reference to Marie Lucy Martineau.

In your letter you state that the father is unable to care for this girl. Please let me know why he cannot provide for her maintenance. Is he working and has he other children for whom he is caring? Upon receipt of your reply the request for her admission to the Sturgeon Lake school will receive further consideration but I may say that the Department would much prefer having this girl placed with some Indian rather than in a residential school at such a tender age.

ROYAL CANADIAN MOUNTED POLICE

Division "K" Sub-Division PEACE RIVER Detachment CALAIS
 Province ALBERTA Date September 20th, 1940.

File References: Frank KALAISSON, Age 13 }
 Jimmy KALAISSON, Age 12 8 }
 Peter MUSUS, Age 13 } Runaway Indian Children
 William SUNSHINE, Age 12 }
 Johnny SUNSHINE, Age 9 } Calais, Alta.

Headquarters 1. On this date Father FOURNIER of the Roman Catholic Mission, Calais, informed me that the above boys had run away from the School about 7:00 p.m. of the 19-9-40. The two KALAISSON boys had run away about a week ago but had been picked up about 3 miles east of Debolt. Father FOURNIER informed me that some of the other school children told him that these boys were headed for Grande Prairie as the step-father of the KALAISSON boys was working in the harvest in the Kleskun Lake district.

Sub-Division 2. I left the Detachment at 10:00 a.m. via P.C. 8159, accompanied by Father FOURNIER and Henry LAROCQUE. Patrol went as far as Moody's Crossing enquiring from everybody along the highway, but the children had not been seen. At Moody's Crossing, the shore of the Smoky River was examined for two miles in both directions for tracks or signs of building a raft, as Mr. MOODY, the Ferryman, would not take these children across, and of course the children knew this, and we suspected they would build a raft and try to cross that way as the river is quite narrow at this point. However, nothing of this nature was discovered, and the patrol returned to Calais making further enquiries all along the way, but still nobody had seen the children. Arrived at the Detachment at 4:30 p.m.

Detachment 3. At about 6:00 p.m. this date Grant McMILLAN, Manager of the Hudson's Bay Co. Post, Calais, brought four of the children to the Detachment, and stated he had picked them up about 2 miles west of Clarkson Valley, but that Frank KALAISSON had run into the bush and got away. These four children were returned to the Mission, and the writer accompanied by Henry LAROCQUE, left for Clarkson Valley at 6:30 p.m. The bush was searched, but it was impossible to follow his trail due to the leaves on the ground. Patrol continued as far as Crooked Creek but no trace of the boy could be found. Patrol returned to the Detachment at 8:30 p.m.

P. C. R. 4. I do not believe this boy went very far after being seen by Mr. McMILLAN, but simply hid in the bush as he no doubt was scared. It is quite likely he will be picked up by somebody before very much longer as everybody from Calais to Moody's Crossing is on the lookout for him. Further report will be submitted when this boy is located.

January 16, 1941.

Dear Sir:

With reference to the December quarter return of the Sturgeon Lake Residential School it is noted that the names of Helen Galliot, No. 0150, and Eva Hamelin, No. 0157, are not shown, although their names appeared on the September quarter return and no application has been received for their discharge. Please advise regarding these girls.

You should point out to the Principal that in preparing the returns in future the totals of boys and girls and the totals in each class should be shown on the last page of all returns.

Yours truly,

Philip Phelan,
Chief, Training Division.

Dear Sir:

With reference to the December quarter return of the Sturgeon Lake Residential School you may inform the Principal that the admission of Florestine Tchewis is approved.

Mabel Kingawasew, No. 0168, is stated to have died on December 8 but we have not yet received the form which should be completed whenever a pupil of a residential school dies at the school. I enclose copies of this form, also copies of circular letter of April 17, 1935. You should arrange with the Principal to have one of these forms completed and forwarded to the Department whenever a pupil dies at a residential school in your Agency.

Ottawa,
October 15, 1942.

Dear Sir:

I am in receipt of the September quarter return of the Sturgeon Lake Residential School. It is noted that 9 new pupils are shown to have entered the school on September 1. However, in requesting grant the Principal asks for 92 days' grant for each of them. The school is only entitled to 30 days' grant; namely, for the month of September. For the quarter during which the pupil enters a residential school for the first time grant should only be requested for the period from the date of entry to the end of the quarter. The application forms and certificates of health for these 9 pupils have not yet been received and should be forwarded at once.

You may inform the Principal that the Department approves the discharge of the pupils numbered as follows:

With reference to the December quarter return of the Sturgeon Lake Residential School, 8 pupils are shown as absent without authority. I presume that these were allowed home on holidays and have not returned. I should appreciate knowing what action you have taken to assist the Principal in having these children returned to the school.

On computing the return it is found that the correct average attendance for the quarter was 83.02 for which number grant is being paid.

I have just received the March quarter return of the Sturgeon Lake Residential School and I find that no reply has been received to my letter of January 23 requesting information regarding 8 pupils who are shown on the return as absent without authority. Please let me have a reply to this letter at once.

William Calliot, No. 155, is now 16 years of age and consequently the Principal should either apply for his discharge or request that he remain in the school for a longer period. In the latter event full particulars should be given regarding the reasons for wishing him to stay.

Re: Tuam Indian children-
Sturgeon Lake Residential School.

In reply to your letters dated January 23rd and
April 12th.

The eight pupils shown as absent without authority,
on both December and March Returns, are children of parents
who have been found of non-Indian status last Summer, con-
sequently, no action has been taken to press those people
to send their children back to school in September. The fol-
lowing are the Treaty ticket numbers under which those fa-
milies were formerly recorded:

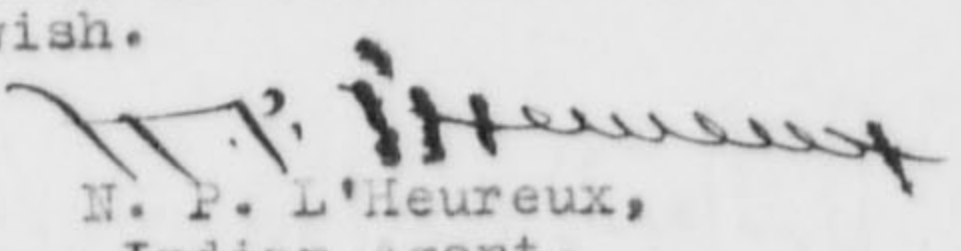

153 - Albert Larocque, Treaty No. 85
158 - Joseph Nooskiye " " 98
159 - Norbert (Constance) Badger No. 94
168 - Albert Ministikwahiskas, non-Indian
169 - Albert Nooskiye Treaty No. 98
0170 - Angelle (Williams) L'Hirondelle Treaty No. 37
0176 - Mary Larocque, Treaty No. 85
0179 - Bella (Constance) Badger " " 94

A few more are also showing as absent on the March
Quarterly. They are :

0162 - Genevieve Mitchell - Treaty No. 103, non-Indian
0194 - Delphine M. Tchewis - Ill at home.
T. B. case. Principal should apply for discharge.
165 - Geremie Goodswimmer- Treaty No. 53.
Same remark as No. 0194
172 - Johnny Kyahwahsoo - Treaty No. 67.
Same remark as 0194 and 165.
177 - Norman Susas - Treaty No. 35 Driftpile Band.
At home, T. B., should be discharged.

The Rev. Father Principal is being advised re-
garding No. 155 William (Galliot) Kakinoosit and is being re-
quested to apply for the discharge of T. B. pupils as well as
for the non- Indian pupils who have not returned to school
last September.

I regret the delay in answering your letters
and trust that the action taken in this matter is in accord-
ance with the Department's wish.

Ottawa, October 18, 1943.

Mr. N. P. L'Heureux, Indian Agent, Driftpile, Alberta.

With reference to the September Quarter return of the Sturgeon Lake Indian Residential School, the Department approves the discharge of the following pupils:

No. 146	No. 158	No. 0164
155	159	0176
156	169	0179
157	0163	0194

The enclosed applications for admission are being returned for your signature.

In checking the September return we note that 92 days has been requested for No. 196 Roger Tchawis, under remarks it states "absence authorized sickness" we take from this that the pupil must have been absent for the entire quarter. No grant is being allowed. Nos. 204, 205, 206 and 207 being new pupils are shown as having entered September 2nd. They have attended 29 days and not 92. Grant is being allowed for 29 days.

Nos. 0214, 0215, 0216, 0217, 0218, 0219, 0220 and 0221 entered September 1st, 30 days grant is allowed. Kindly inform the Principal.

The Indian Affairs Br., Dept. of Mines & Resources, OTTAWA, Ont.,

I am in receipt of the letter of the Chief of the Training Division of the 19-10-43 regarding the application for admission of Albert Joseph Awasis, No. 207, to the Sturgeon Lake Residential School. In my letter of the 14th Inst. Ult. I advised the department of my findings when checking the applications against the records in the Agency Annuity Paylists. It may well be that the boy is 7 years old, but in 1940, when the census was taken of the Indians in this agency the parents stated that the boy was 2 years of age.

I am not very familiar with the handling of the School returns, this being done in the past by Mrs. N.P.L'Heureux, the former agent's wife, but I presumed that before the forms were sent to the Department that they were to be checked here for details as to eligibility for admission. This I did and then forwarded with my report to the Department. I have not seen the parents as they reside some 160 miles from here and the application was made to the Principal of the school and forwarded here in the usual way.

Recruiting at Sturgeon Lake
Attention: Mr. Philip Phelan

My dear Mr. Phelan,

I have had on my desk for a considerable time a long letter from Rev. Father Guimont of the Sturgeon Lake School, in which he dwells at length on the difficulties of recruiting which he has experienced this year.

It must be admitted, of course, that these difficulties are due in great part to war conditions and that some of them will disappear when peace is signed; but others are of a special nature and should be called to your attention.

Before doing so, however, I must insist again on the advisability of Indian agents being advised early in May or June that it is imperative for them to cooperate with school principals in recruiting when they themselves have difficulties in doing so. I have already called your attention to several cases where recruiting would have been made much easier, if the agents had taken an active part in it. I know, of course, that the agents are all very busy, and that most of them wish to cooperate with our principals, but a timely reminder on your part will always be useful.

The special difficulties with which the Sturgeon Lake School is confronted come from the assistance of pupils at Public Schools who normally should go to Sturgeon Lake. I am not aware of any clause in the Indian Act forbidding Indian children from attending Public Schools, and, on general principle, I can not myself object to such a course; but as a matter of fact, most Indian parents desire their children to attend these schools so that they will be relieved of all supervision from the Indian agent, and free to keep their children at home whenever they wish to do so.

Indian Affairs. (RG10, Volume 6376, file 765-10, part 2)

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

In support of the above, I wish you to bear in mind the following:

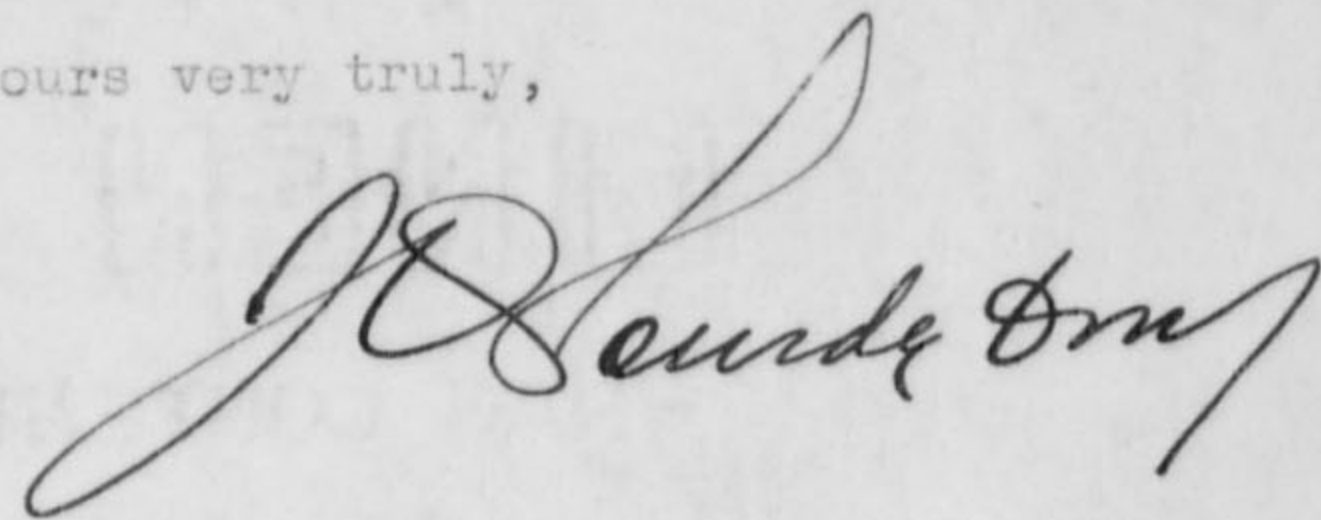

1. Indian parents are totally indifferent to the education of their children.

2. Their traditional indolence and poverty make it impossible for them to clothe their children properly. They have no conception of a daily assistance at school and, as a consequence, the attendance of these Indian children in Public Schools is even lower than the attendance in Indian Day-schools.

3. Indians desiring to send their children to Public Schools live on the outskirts of towns and villages, at distances ranging from three to five miles. Such distances preclude regular school attendance.

With the above in mind, I can only conclude that in almost all cases Indian parents who enroll their children in Public Schools, do so because they wish to keep them at home. This also brings me to the conclusion that Indian children who are enrolled at the Calling Lake Day-school should be transferred to the Sturgeon Lake School as soon as possible.

Yours very truly,

Indian Affairs. (RG10, Volume 6376, file 765-10, part 2)

Dear Father Plourde:

I have your letter of the 22nd instant, with reference to recruiting for the Sturgeon Lake Indian Residential School.

We have carefully considered the statements made in your letter, and it is my intention to communicate with the Indian Agent, drawing special attention to your suggestion that pupils attending the Calling Lake White School should be placed in the Sturgeon Lake Indian Residential School.

Yours sincerely,

Mr. P. J. Demers, Indian Agent, Driftpile,
via Kinuso, Alberta.

The Department is in receipt of information to the effect that the Principal of the Sturgeon Lake Indian Residential School has had considerable difficulty in recruiting pupils during the past year. We realize that some of these difficulties are due to present conditions, but at the same time I would like to have your assurance that you have supported the Principal in every possible manner in securing new pupils and in returning pupils who were allowed home on summer holidays and delayed their return.

 I am also informed that some Indian parents have been placing their children in white day schools. As you know, these schools are located some distance from the place where the Indian resides and in the ordinary course of events I doubt very much if the children attend regularly. I have in mind particularly the Calling Lake White School. I would like to know how many Indian children are enrolled at that school and I would also like to know the average attendance of these children from September 1 to the Christmas holidays. If the attendance has been as irregular as I suspect, I would like your opinion regarding the possibility of having these children placed in the Sturgeon Lake Residential School, where they would receive regular training and proper care and attention.

Philip Phelan,
Chief, Training Division.

Mr. P. J. Demers, Indian Agent,
Driftpile, Alberta.

With reference to the June quarter return of the Sturgeon Lake Residential School, application forms should be forwarded for pupils numbered 212 and 0228. Both of these pupils are under the age for admission and a letter should be forwarded stating why it was found necessary to place them in a residential school at such an early age.

SD
Pupil No. 0172 is shown as 15 years of age. Our records indicate that this girl must be over 16 years of age. Besides, she has been absent from the school for over a year. If she is not likely to return in the near future, application should be made for her discharge, in order that her name may be removed from the return.

Ottawa, July 19th, 1947.

Dear Father Roue:-

Attached hereto is your June Quarter Return on which there appears to be several discrepancies.

It is noted that two or three pupils had a notation after their name "Not accepted". As these pupils have obtained grant previously and are shown on the Return as having entered school as early as 1941, we would like a definition of the expression "Not accepted".

Opposite the names of pupils 212 and 0228 there is a notation "Too young". No grant is requested for either of them. If these children are eligible for admission and have been placed in the school owing to unsatisfactory home conditions, application forms should be submitted giving full particulars. The Department may be able to approve their admission and allow you to draw grant for them even though they cannot attend class.

Some of the pupils whose names appear on the return have been absent for at least two quarters. If they are not likely to return within the near future you should apply for their discharge and if at any time in the future they should wish to be readmitted, you may ask the Department for permission to do so.

Pupil No. 197 is shown on the March Quarter Return as being absent owing to illness. Pupil No. 198 was presumably in the school during the March quarter but is stated to be absent during the June quarter. Has a mistake been made in requesting grant in connection with these two pupils?

*Discharge as
shown on 411
(17)*

Dear Sir:-

Sorry the notice for the Discharge of certain pupils from the above have not reached you. I am positive they were mailed same day as Returns. However owing to weather conditions, also poor roads, our mail service leaves much to be desired. Personally I shall investigate into the matter at our P.O. tomorrow.

The notation

"Not accepted" after the names of pupils, Reads on Discharge,
"Put out of Treaty attending day school"

Pupils 212 and 0228 belong to the same family, they are orphans (of mother) I have been given to understand request for grant was made for both, when they were first taken to the above, but owing to their age this was refused. No 212 has since been adopted into a family. He is now of school age, and will probably enter school in September. Am not sure of exact time, in April, or May last, grant was again requested for No 0228. Having no reply up to present date, this accounts for notation "Too young" which follows her name in June Return.

In June Discharge was filled out for a number of pupils not likely to return in the near future.

Pupil No 197, on the March Quarter Return is my mistake. It was pupil No 198, that was ill. He was also Put out of Treaty, his discharge was sent in June too.

On May 2nd, R.C.M.P. brought here No 220, Owing to former notice regarding absence of pupils for less than one month, during quarter, accounts for my mistake for 91 days on June Return.

Yours sincerely,

H. Rowe, m.

Re: School Attendance- Gabriel Auger Treaty #229
John Yellowknee Treaty #372

Gabriel Auger and John Yellowknee were in attendance at the Roman Catholic Residential School, Wabasca. Both boys gave the staff of the school considerable trouble. The fact that the boys were undermining the discipline of the school was brought to the attention of Mr. Gooderham and myself when we were in Wabasca in October. It has been suggested by Reverend Father Guimont, Principal of the school, that Gabriel and John be taken to the Sturgeon Lake Residential School. Reverend Father Roué, Principal, Sturgeon Lake Roman Catholic Residential School, has agreed to accept the boys if authority for their transfer comes from the Indian Affairs Branch.

OK
Gabriel and John left the Wabasca R.C. School some time before the Christmas holidays. John was allowed to go to his home on November 13th for the week end. He did not return. Gabriel was expelled from school on November 23rd because of misconduct.

Will you give authority for the transfer of Gabriel Auger and John Yellowknee from the Wabasca School to Sturgeon Lake? If that authority is forthcoming will the Indian Affairs Branch be responsible for the transportation of the two boys?

1. On the above date while on patrol to Sturgeon Landing, Sask. Rev. POIRIERRE, Principal of the Indian Residential School complained that Joe MICHELLE, who was fifteen years old, had refused to attend school this term. Rev. POIRIERRE stated that he approached the father of the boy, Louis MICHELLE, and was informed by the youths father that he did not wish to have his son attend school this year. The father stated that he was going to have the boy assist him with work that he was going to do, such as cutting cord wood and trapping. Rev. POIRIERRE stated that he had watched the boy and found that he was not assisting his father, therefore, he was of the opinion that the youth should be made to attend school this term.

2. This same date I contacted Joe MICHELLE and questioned him in this regard. I found that he was not assisting his father as he was supposed to do, and he was more or less wasting his time by loafing around the settlement. I contacted his mother and she advised me that the boy would return to school the following day.

3. I have since been informed that the boy, Joe MICHELLE has returned to school.

CONCLUDED HERE.

Reverend N. Rouse, O.M.I.,
Principal,

Calais, Alberta.

Re: Admissions and Discharges

Dear Father Rouse:

Among your responsibilities as Principal of an Indian Residential School is that of submitting form I.A. 1069. This form is to be submitted in duplicate monthly to any Indian Superintendent from whose agency children have been sent to your school. If three or four agencies are represented, then you must send this form to the Superintendent concerned, covering of course only the children from his particular superintendency.

For example, if two children are admitted to your school from the Lesser Slave Lake Indian Agency, then you must send form I.A. 1069 covering the admission of these children to the Superintendent at High Prairie, Alberta.

We cannot over-emphasize the need for prompt action on your part in sending in this form. Complaints have been received indicating that you are not sending in this information and as a result considerable overpayment of Family Allowances has been made to the Indian parents concerned. This will cause some hardship to them in future months when it may be necessary to suspend payment of Family Allowances in order to recover the sum overpaid.

Much unnecessary correspondence and considerable ill feeling result from overpayment of Family Allowances. It is, therefore,

necessary for me to insist that form I.A. 1069 be forwarded promptly to the Indian Superintendent concerned.

Re: Discharges - Sturgeon Lake Indian
Residential School

Reference is made to your letter of July 6,
1951, file 765-10 (E6), regarding the discharge of pupils
from the Sturgeon Lake Indian Residential School.

Owing to his unfamiliarity with the accepted
practice regarding the discharge of pupils, the Acting
Principal of the School showed, on Form IA 411, the
discharge of pupils with numbers 0213 and 0231, effective
June, 1951. Will you please advise if the names of the
two pupils may be included on the Return for the Quarter
ending September 30th.

Your file 131/25-4-765

With reference to your letter of September 24th, the two pupils should be included on the September Return and grant claimed for the months of July and August only (i.e.) 62 days.

It has been the practice for many years, when a pupil has been in residence during the month of June, the school may claim grant for this pupil for the months of July and August whether the pupil returns to school in September or not.

Superintendent of Education.

Attached find application admission Sturgeon Lake Indian Residential School, Evelyn Black, TN 24 Janvier Band, who has been a patient in the Charles Cammell Indian Hospital and is now ready for discharge. You will note on the application form that her parents are now confined to hospital with T.B. also. She has no home to go to. Dr. W.L. Falconer, Medical Superintendent, Indian Health Services, is anxious to have her out of hospital as she is cured of T.B. We contacted the Blue Quill's Indian Residential School at St. Paul, Alberta, and they stated they had no room for her. The Principal of the Sturgeon Lake Indian Residential School agreed to accommodate the child. I have arranged to send the child immediately to the Sturgeon Lake Indian Residential School anticipating your approval of this application.

I recommend her as a grant earning pupil.

MEMORANDUM TO:
Superintendent of Indian Education Mr. Phelan.

Application for the admission of Samuel CAPOT-BLANC, aged 8 years, No. 72 Fort Nelson Slave Band, to Sturgeon Lake Indian Residential School, Calais, Alberta, is going forward without the signature of parents.

This child has been recently discharged from Charles Camsell Indian Hospital following treatment for tuberculosis. He cannot be sent back to his parents at this time of the year as home conditions are not suitable to ensure to the child the full recovery of his health. The Medical Director has recommended that he should be admitted to a residential school.

The child's parents have been informed last December 6th of the arrangements made concerning their son.

Mr. Philip Phelan,

Dear Sir:

Re: Harry Jackson, born 1 Sep '44,
No. 11 Hudson Hope Band of Halfway River.

The above named has been placed in the custody of the Rev. Principal of Surgeon Lake Indian Residential School, at Calais, Alberta, on the 3rd instant and I have completed an application for his admission to that school as a grant earning pupil. This application will be processed by Mr. Lapp, Superintendent of the Lesser Slave Lake Agency and submitted to you in due course.

Harry Jackson has been discharged recently from the Charles Camsell Indian Hospital where he had been under treatment for tuberculosis for the past two years. Being an orphan with no home to go to, except that of an unmarried brother aged 23 who can offer at best only indifferent care for the child, it has been thought proper to place him in a Residential School. I am therefore recommending his admission.

Yours very truly,

Mr. G.S. Lapp,
Supt. Indian Agency,
High Prairie, Alta.,

With reference to the June Quarterly Return for the Sturgeon Lake Indian Residential School, it is noted that the Principal has claimed eighty-seven days grant for pupil # 0273 Lucy Michel, however, from the information indicated in the Remarks Column, it is not clear how the Principal arrived at this figure. We are, therefore, disallowing the Per Capita Grant claimed for this pupil and would appreciate it if you would advise this office of the full particulars.

The Principal should claim retroactive grant for this pupil on the September Return and indicate the information in the Remarks Column at that time.

Philip Phelan,
Superintendent of Education.

Re: June Quarterly Return
Sturgeon Lake Residential School

Reference is made to your letter of July
15, 1953, file 765-10 (E6).

The Principal of the Sturgeon Lake Residential
School has advised that he was in error when he claimed
eighty-seven days grant for pupil # 0273, Lucy Michel.
The correct claim for grant for this pupil is sixty-one
days.

The Principal has been requested to claim
retroactive grant for this pupil for September and to
indicate the information in the Remarks Column.

G.S. Lapp
G.S. Lapp, Superintendent,
